New Counterfeit Quarter.

Another counterfeit quarter is going the rounds and there seems to be a great many of them.

So cleverly is the piece made that even when one is told of it he must compare it with another and good quarters and see the difference. The spurious piece bears the date of 1900 and is one of the best copies of the genuine ever put into circulation. It weighs almost a grain more than the good coin and contains more silver. Among the distinguishing marks to be found are the follow-

The E in the word "We" on the face side is prominent, whereas on the good coin the letter looks more like an F. On the "tail" side the eagle's head is defective -not curved properly-the beak is pointed and the head is smaller than on the genuine. The shield is larger than that of the genuine coin. The eagle's wings are thinner and point upward more than the original. The eagle's legs look more like a turkey's legs. The eagle is defective all through, and the work on the entire coin is inferior to that of the than the genuine.

The Only Creed.

In the last lecture delivered by the Rev. Joseph Cook, in the Park the following summary of his creed :

"I believe in the Ten Commandments, and in the nine beatitudes; and in the seven petitions of the Lord's prayer; and in the four 'alls' of the Great commission and in the six 'whatsoevers' of the apostle; and in the strictly self-evident truths in the 'cans' and 'cannots' of the Holy Word and in the nature of things; and that it is He who was and is, and is to come; both exhaustless love and Holy Ghost; one God infinite and unchangeable in every excellence; of whom the universe is the character and cross of Christ; the our Saviour and Lord to whom be adoration and dominion, world without end.'
