#### Spreads Like Wildfire.

When things are "the best" they become "the best selling." "Electric Bitters are the best 20 years." You know why? Most prevent their attacks?" diseases begin in disorders of Dickson, druggist.

McKinley occupied at the ses- the Periodical Cicada are given sions of the cabinet has become in Bulletin 95, and the Annual the property of Secretary Cortel- Report for 1894, of the New Jeryou. It has been the custom for sey Experiment Station, and, also, the retiring president to present in Bulletin 87 of the Ohio Experito some friend the chair used by ment Station. him while presiding over the meeting of the cabinet. Presi dent Harrison gave his chair to Executive Clerk Crook, and the latter regards it as one of his most valued possessions. President Cleveland presented his chair to his private seceratary, Daniel S. Lamont. There is a law which requires that government property shall not be given away, but that it must be formally condemned and disposed of at auction. No one has ever questioned the right of the president of speech, and that without it a to give away his chair, however. Secretary Cortelyou was very unxious to get the chair which his chief had occupied for so long, and it was accordingly condemned, put up for sale, and bought in by the devoted secretary.

#### FULTON COUNTY NEWS. Notes From the Pennsylvania Experiment Station.

The Periodical Cicado or Seventeen Year Locust in 1902.

In the Report of the Pennsylvania State College, 1889, page 182, an account was given of the nature and distribution of this common and interesting insect. It will be seen by reference to it that the brood of 1885 will be due next year (1902) in the counties of Bedford, Fulton, Huntingdon, Mifflin, Juniata, Perry, Franklin, Cumberland, Adams, York, Dauphin, Lebanon, Lancaster, Berks, Chester, Delaware, Montgomery, Bucks, Lehigh and Northampton.

It is not meant that the Cicada will appear over the whole of this large area, but that they may be expected wherever the conditions

Hence it would be wise for contemplate setting out trees this whether they are on or near "locust ground" of seventeen years making an experiment by ship- ago, and if they are, to defer planting a year, or take this risk

#### The Mysterious Voice.

It was a warm summer night It is said that small doses of and the hour was midnight. The the four sides of the rectangle were getting dull with sleepiness. So one of them said afterwardthe one who tells the story.

Suddenly into the stillness of the night a shrill cry projected

"Help! Help! Murder! Mur-

The cry appeared to come from taneously the two policemen nearest at hand rushed into the park, the leather thongs on their night sticks in place for striking.

"They'er killing me! Help!

The policemen made a syste-

"Well, where is it?" asked one. "Give it up. I thought 'twas here," was the reply.

"Keep away! Keep away! Don't come near me!" cried the shrill out.

Slowly and warily the policemen made their way to a bench a little to the south of the centre. which seemed to be the spot whence the voice came. And there they stood for a moment, wondering what it meent. Then men go to heaven, and when she from the branches of the maple overhead a wheedling voice said:

"Polly wants a cracker." The mystery was solved. It
