MONEY TO LOAN.—On first mortgage or judgment in lots of not less than \$200. Call on M. R. SHAFFNER, McConnellsbu, Pa.

Mr. and Mrs. J. C. Brewer of Thompson township spent a few days among friends in this vicinity this week. John drives a pair of dandy two year old colts. All merchants guarantee Peerless Horse & Cattle Powder to be PURE. The price is 10c for a full pound pack and you will be convinced of its superior merits if you once try it. A Hancock man asked his daughter if she didn't think it was time for her to think of getting married. She replied that she had been thinking about it for the past thirteen years. Rev. Pittenger, of the Harrisonville circuit, has moved his household goods from Adams county and will go to housekeeping in George B. Hockensmith's house near Green Hill. If we were to charge you three times its regular price we could not make you a better condition powder for your stock than we give you in Heckerman's Peerless Horse & Cattle powder for 10c a pound pack. Up in Potter county a young lad jokingly pointed a gun at a friend's head and commanded him to get out of bed. The gun went off, as did also the friend's head. Of course he didn't know the gun was loaded. Hon. William C. Kreps has sold the Greencastle Echo Pilot, his weekly newspaper, to George M. Armour and Swift & Co., have stored away over half a million cases of eggs since July for the purpose of cornering the market and forcing fancy prices. They had better be kept well or the public will be inclined to keep them cornered. Mercersburg Academy will send a Medical missionary to China. The students of the institution have subscribed \$400, and Dr. Irwin says that he will see that the balance needed will be forthcoming. If the missionary is sent he will be the first to represent an academy in this way.

Howard Edwards of Portage spent Wednesday in town. J. A. McDonough and L. L. Cunningham of New Grenada were institute visitors. George A. Harris called at the News office Monday. His many friends will be glad to learn that he is regaining the use of his limbs, and that his general health is much improved. The Wells Valley people will hold their annual Thanksgiving service and Sunday school convention this year in the Pine Grove M. E. church. Sermon in the morning, and convention afternoon and evening. John C. Brewer of Thompson township has sold his farms and, we understand, he expects to move to Ohio. The home farm, he sold to Dick Johnson for \$3040, and the other, the Frank Smith farm, to James P. Waltz for \$950. Editor F. M. Taylor who is employed as civil engineer on the government topographical survey force, came home a day or two ago. His last work was up on the top of the Alleghenies 800 feet altitude above Cresson, where it "blizzards" and snows every day. While bathing, last Sunday morning at his home in Altoona, John M. Wilson was drowned in six inches of water. He fainted and fell face downward in the bath tub, where he strangled to death. He screamed as he fell, but when his wife arrived he was dead. Prince Yonhoho Yasamoto, a Japanese nobleman, relative of Marquis Ito, wants to know how to build locomotives, and has entered the Pennsylvania Railroad shops at Altoona as an apprentice. After the day's work is done he parades the streets followed by two servants in livery. It takes 5000 unloaded bees to make a pound, that is, when the bee leaves its hive in search of honey, it weighs only the 5000th part of a pound. When it returns, however, from the fields and flowers freighted with honey, it is three times that heavy. After January 1st the railroads will not accept as baggage anything but luggage containing personal effects which accompany the owner. The express companies have been making a kick over the indiscriminate checking of articles as baggage which under no stretch of the imagination could be considered as such. Judge Stewart, of Franklin county, handed down an opinion having a direct bearing on public sales of real estate. In effect it means that fictitious bids constitute a violation of the law, and the practice so often resorted to, know as "puffing," is nothing else but a fraud. The court holds that anyone guilty of such bidding is a party to the fraud and can be held responsible for damage sustained by the purchaser. The Lancaster County Teachers' Institute last week adopted resolutions recommending directors to furnish material for kindergarten schools; the furnishing of juvenile papers; the purchase of an organ for every school and the employment of instructors in music; the establishment of lyceums in every township; establishment of township high schools; a library for each school district, and that calisthenic drills be given a prominent place in school work. Mr. and Mrs. B. Frank Oakman, who moved away from Buck Valley last spring are now living at Berlin, Somerset county, Mr. Oakman working at his trade, that of blacksmithing. They have had the misfortune this summer to lose their baby boy, Lester Lantz, who died August 9, just one year from the date of his birth. The little fellow had been sick from the latter part of April. Mr. Oakman in renewing his subscription to the News says they have plenty of snow up there. The Scientific American gives this receipt, which the world ought to know: At the first indication of diphtheria in the throat of a child, make the room close, then take a tin cup and pour into it a quantity of tar and turpentine, equal parts. Hold the cup over the fire so as to fill the room with the fumes. The patient on inhaling the fumes will cough up all membranous matter and the diphtheria will pass out. The fumes of the tar and turpentine loosen the matter in the throat and afford relief that has baffled the skill of physicians.

Reliable and Gentle. "A pill's a pill," says the saw. But there are pills and pills. You want a pill which is certain, thorough and gentle. Mustn't gripe. DeWitt's Little Early Risers fill the bill. Purely vegetable. Do not force but assist the bowels to act. Strengthen and invigorate. Small and easy to take. Unusual Drought. The prevailing drought in this county is becoming a serious matter. There has not been a half an inch of rainfall since the latter part of July, and the water supply is running short. Streams are dry, or at least, very low, and springs and wells that were never known to fail, are dry as powder horns. The farming community is confronted by a serious condition of affairs; grain being stunted and, in places, practically ruined. This is particularly true of such as was sown late. Much of it did not come up on account of lack of moisture in the ground and what did come up has withered, and acres will have to be replanted. The early wheat will not withstand the dry spell much longer, farmers say, and they are alarmed lest the entire crop for next year be blighted beyond all hope. That Throbbing Headache.
