The Future of Our Nation.

Our nation is a great and powerful one and may continue to be so if we will endeavor to secure and hold the friendship of other governments and nations instead of exciting their jealousy and ill-will...

We have been reading some carefully prepared statements in regard to the Pan-American Congress in Mexico, and from the South American press, which seem to fully confirm our previous opinion...

The fighting spirit has grown tremendously in this country within the past few years, and is being encouraged in our colleges and schools, and unless it can be in some way modified by Christian churches, Catholic and Protestant, and greatly increased humane education, it seems likely to lead us sooner or later into a war in which the sympathies of nearly every government in Europe and South America will be likely to be against us...

Stop It! A neglected cough or cold may lead to serious bronchial or lung troubles. Don't take chances when Foley's Honey and Tar affords perfect security from serious effects of a cold. All dealers. Wise and Otherwise. Let us all taste life's glad moments as they glide. He that thinks the most talks the least of what he is doing. It is better to have disagreeable work than to have nothing to do. It is said she walked to Guilford Springs and there bought a ticket for Chambersburg. That is the last seen of her by any one who knew her. Her friends are much worried and are trying in every way to learn of her whereabouts, but so far, without success. A mild tempered person may be all the rage.

Pratt, Md.

January 20.—It has been a long time since I wrote a letter to the News, and I hope this will not find the waste basket. The ice has been quite plentiful on the mountains of Allegheny county this winter; but as yet, no serious accidents have happened. Mr. Cal Hewitt has moved back with his saw mill. Cal is a hustler. Col. Wm. Bishop, a resident of McConnellsburg, is sojourning with the family of Mr. Clarence Gobin on Polish mountain. We often see him and would be sorry to have him leave the county now, for he is a very excellent old gentleman. The school at Ball Hill is progressing nicely under the tutelage of Daniel Fletcher, of the Plains. Dan seems to have made many friends in this community. The school here does not close till in June, making a term of nine months. Frank Dean, of Lonaconing, is visiting his father-in-law, John Stewart. Joseph McCoy and daughter, Miss Lottie, of Pratt, are visiting relatives in Everett. Stop It! A neglected cough or cold may lead to serious bronchial or lung troubles. Don't take chances when Foley's Honey and Tar affords perfect security from serious effects of a cold. All dealers. Wise and Otherwise. Let us all taste life's glad moments as they glide.
