Spring Fever.

Spring fever is another name for biliousness. It is more serious than most people think. A torpid liver and inactive bowels mean a poisoned system. If neglected, serious illness may follow such symptoms. DeWitt's Little Early Risers remove all danger by stimulating the liver, opening the bowels and cleansing the system of impurities. Safe pills. In even so simple a thing as iced tea there is a right and a wrong way to make it. The right way is to take freshly made tea, sweeten it while hot and then set away to cool. Just before serving add the lemon juice and ice, and have a couple of lemons sliced thin to be added at the table. The juice of one lemon for each person served is a good proportion. A handful of strawberries or cherries gives a nice flavor and looks pretty.

AHMMAAZ RUNYAN.

Beware

In the publication of the court proceedings in the County papers last week a matter in which my wife is interested was omitted. The matter to which I refer was a criminal prosecution against Eleahad Fisher for surety of the peace, in which my wife, Annie E. Unger, was prosecutrix. When the case was called in Court, Fisher plead guilty and was sentenced to pay the costs of prosecution and to enter into recognizance in the sum of \$300 for his good behavior for two years, as the records of Court show.

A report is in circulation that no action was taken in the matter, and that my wife would not prosecute the case, thus reflecting upon my wife's integrity and chastity. Any person circulating this report will be prosecuted to the full extent of the law.
