President Roosevelt Says the Year that Has Just Closed Has Been One of Peace and of Overflowing Plenty-Rarely Has any People Enjoyed Greater Prosperity than We are Now Enjoying.

Washington, D. C. (Special.)-Presidept Roosevelt issued his proclamation designating Thursday, November 27, as a day of thanksgiving.

The proclamation is as follows:

"According to the yearly custom of our people, it falls upn the President at this season to appoint a day of fes-tival and thanksgiving to God. "Over a century and a quarter has

passed since this country took its place among the nations of the earth, during that time we have had on the whole more to be thankful for than has fallen to the lot of any other people. Generation after generation has grown to manhood and passed away. Each has had to bear its peculiar burdens, each to face its special crisis, and each has known years of grim trial, when the country was menaced by malice domestic or foreign levy, when the hand of the for foreign levy, when the hand of the Lord was heavy upon it in drought or flood or pestilence, when in bodily dis-tress and anguish of sonl it paid the penalty of folly and a froward heart "Nevertheless, decade by decade, we have struggled onward and upward; we

EXPRESS CRASHED INTO FREIGHT.

Narrow Escape From Horrible Catastrophe Near Lancaster.

Lancaster, Pa. (Special) .-- Passengers on the Harrisburg express leaving this city at 7.15 p. m. had almost a miraculous escape from death. The express was running at the rate of 40 miles an hour when it crashed into the rear of a freight train which was standing on the track at Dillerville, one mile north of this city. The engine of the express ploughed into the last car of the freight train. From ome inexplicable cause none of the cars were derailed.

PALMA FAILS TO APPROVE TREATY.

The Return of the Draft of the Reciprocity Treaty Has Not Shaken the Confidence of the State Officials ... The Matter is Still Open to Adjustment-Objections of Cubs to the Undue Concessions Demanded.

Washington, D. C. (Special) .- New obstacles have been placed in the way of favorable action at the next session of Congress on a Cuban reciprocity treaty. The rejection by President Palma of the instrument drawn here last spring by Secretary Hay and Minister Quesada is now said to be on its way to Washington for suggested modifications which might make it acceptable to the Cuban Government. The original treaty was drawn hurriedly with the hope that it might be submitted to Cuba and then to the United States Senate and acted on before adjournment of the last session of Con-gress. This failing, it, was later more carefully considered and sent to Havana for President Palma's inspection. The Cuban Congress will reassemble in No-vember for a brief period and there may yet be time for action on some treaty satisfactory to both Governments before adjournment, but this result is not re-

adjournment, but this result is not re-garded as probable. At the State Department nothing is known officially of the nature of the ob-jections made by President Palma, but from a general knowledge it is not be-livered that the lieved that they are so serious as to long delay a reconstructed treaty being pre-sented to the two Senates for approval. From the little information received here it appears that Cuba contends that the United States requires too liberal concessions in the remission of duties on United States products entering Cuban ports ranging from to per cent. to 80 per cent, in return for a level 20 per cent, cut on Cuban tobacco and sugar exported to this country. This question, in the opin-ion of State Department officials, may be readily settled, as it is said to be rather me of figures than of principle.

The approval by President Palma of some treaty drawn here between Mr. Hav and Minister Quesada is necessary without much delay if Cuba has any ex-pectations of favorable action by the United States Senate next session. Fail ure to agree upon such a convention must lead to a greater sacrifice by Cuba than by the United States, and as financial conditions in the island are in a wretched state it is not believed Cuba would quibble over trifles.

CANAL TITLE GOOD. United States Attorney General Knox Sub-

milts His Opinion. Washington, D. C. (Special) .- Attor-

ney-General Knox has decided that if the United States should accept the offer of the new Panama Canal Company submitted last spring for the sale of the canal for \$40,000,000 it would receive through the parties in interest a valid and unincumbered tile to the property. This decision was arrived at after a thorough decision was arrived at after a thorough and exhaustive investigation of the situa-tion in Paris-first by Special Attorney Charles W. Russell and later by the At-torney-General himself. The Attorney-General fornially submitted he opinion to President Roosevelt. It makes about 300 names

The opinion opens with a history of the The opinion opens with a history of the concessions made by Colombia in 1878, 1890, etc., the formation of the De Les-seps Panama Canal Company of France, the failure of this company in 1888, the transfer in 1894 of all its rights to the present Panama Canal Company of Prance by the liquidator appointed by the French court to wind up the affairs of old company, and of the laws passed by France concerning the liquidation of the old company.

ld company. The opinion then takes up the principal objections which have been made in this country to the title proposed to be given to the United States. These objections, it says, resolve themselves into reasons in

support of the following propositions : The Questions Considered.

That the new Panama Canal Company has not the power to sell the canal

pany has not the power to sell the canal and railway property. 2. That the liquidator of the old Pan-ama Canal Company has not power tc consent to such sale. 3. That the French courts have not power to authorize the liquidator and the new company, or either of them, to enter into the sale.

nto the sale

That, at all events, the United States

4. That, at all events, the United States would take the property as a trust fund subject to the total obligations to the stockholders, the bondholders and the other creditors of hoth companies. The history and nature of the French companies of the kind in question are explained at length. They are said to be altogether different from our corporations, but to be easily understood it looked upon as private partnerships, which is their essential character. The opinion says that they are in some respects regulated by law, but that these regulations do not change the essential character of the concerns as partnerships, do not establish any tie between them and the government, and tions from them to the government, and do not forbid the exercise of the liberty to dispose of their property as freely as an individual disposes of his if no special law forbids, and if he is solvent and not under some particular contractual or other like obligation to retain the prop-erty. The new Panama Company is solvent, and there is no law forquite solvent, and hidding it to sell.
