ALL OVER THE HOUSE.

Air Your Bedding, but Do Not Place

In airing beds the most thorough, careful housekeeper often errs through her very thoroughness. She will shake the sheets, blankets, etc., and hang them out of the window and over chairs, having them all exposed as much as possible to the direct rays of the sun and in the strongest breeze, and this is just what should be done. Then the pilsituation frequently, and mixed been hauling at Woodvale, had a lows will be taken up and thumped until they are soft and fluffy and placed in the very sunniest spot, and this is all wrong. A Bedroom "Settle."

An ingenious and convenient substitute for a "settle" in a sleeping apartment where space is limited is made in this way: Have a broad, stout shelf with sidelike arms attached by a carpenter to the footboard of the bedstead at the same height as the regulation settle or Dec. 24.-Mrs. Wm. Make a cushion for this seat or pile it Dora Sherman is living with with cushions and it will make a comfortable resting place.

Homemade Porch Screen.

A porch screen can be made at home by covering an old frame or a new one, on the inner side of which the cabinet maker has put a wide bookshelf, with denim, rice matting or Japanese calico.
