REVERENCE.

Reverence, says the Milwaukee Journal, is a quality sadly lacking in the youth of to-day. There is prevailing an exaggerated idea of the "I'm as good as anybody, b'gosh" sentiment. So you are "as good as anybody," son, if you make yourself so .-But, being as good as anybody, you will not need to thrust that information on any one. Nor will you need to despise others. If you are really worthy respect, you will not have to make an effort to exact respect. And it is a mistake to imagine that treating others with lack of respect elevates yourself. Respect will be paid to real worth by those whose opinions are worth the while. If your goodness does not meet appreciation by people of worthy character, there is something the matter with your goodness. It would be well to make a personal inquiry and locate the

The habit of treating sacred subjects with levity is a bad one. It kills reverence in our hearts, and thus lowers our standards of goodness. We need to nourish high ideals of right, of goodness, of holiness, or our characters are degraded. When reverence goes out greed, selfishness and inhumanity come in. Besides the wrong done to our own nature when we fail to reverence things held sacred, we do a grievous wrong to others. It is evil enough to lower our own standard of right, but when we cloud the sense of purity, of sacredness, in others it is doubly wrong. If we fail in ourselves to keep some ideal holy for our aspirations, let us not drag the ideal of others in Subscribe for the News, only for the wealth that might have been the dust under our feet.

THE SAFEST CARS.

"Which car is the safest one to occupy in a railroad wreck?" is a question that has received much consideration at the hands of trayelers, says the Cleveland

The recent railroad wreck on the Grand Trunk in Canada, in which twenty to thirty persons were killed, has caused a revival of the discussion, especially in States mints have not coined any this vicinity, where railroad wrecks have occurred with alarming frequency during the last year.

Railroad men are among those who discuss this question seriously. This problem to all intents and purposes was solved by them long ago. When a railroad "Is that so? Railroad wrecks in the neighborhood of Cleveland are usually of the rear end collision or headon collision variety, and in no case in the last decade have the casualspoiling in New York, and no ties been heavy. Another kind of wreck is caused by the spreading of the rails. There have been three or four of these near Cleveland within the last two years.

"As a general principle, it is safe to stick to the Pullman cars," is the advice of an old railroader, "and if there are no Pullmans on the train, size up the cars and try to occupy the heaviest of them. Whatever you do, keep out of the

There are good and sufficient reasons for this advice. The smoker on a train, to begin with, ly loaded the smoker is pinched between two heavy sections, and offering the least resistance, is reduced to kindling wood.

The car that receives the roughever, is the mail or baggage car. Unless this car is extraordinarily heavy, it is bound to suffer. In every wreck that has taken place near this city during the last two years the baggage car has borne the brunt of the shock, and has cle. been the most dangerous car in the train. In the recent Erie wreck at Union street great holes were punched through the bottom of the car, it was divested of its truck, and was so badly shattered that the trunks and boxes iuside were scattered around the wreck. The other cars were not damaged much, with the exceptions of some badly smashed window lights.

How Can I Keep Up with the Times?

T is pretty hard to keep well informed on the political news, the scientific news, the literary news, the educational movements, the great business developments, the hundreds of interesting and valuable articles in the hundreds of excellent magazines. About the only way it can be done by the average busy man and woman is to read a magazine like "The Review of Reviews," and, as it is the only magazine of the sort, it is a good thing to send \$2.50 for a year's subscription.

PRESIDENT ROOSEVELT says: "I know that through its columns views have been pre-sented to me that I could not otherwise have had access to; because all earnest and thoughtful men, no matter how widely their ideas diverge, are given free utterance in its columns."

EX-PRESIDENT GROVER CLEVELAND says:
"I consider it a very valuable addition to my library."
