SISTERS OF CHARITY Rely on Pe-ru-na to Fight Catarrh, Coughs, Colds and Grip.

SISTER BEATRIX.

A letter recently received by Dr. Hartman from Sister Beatrix, 410 W. 30th street, New York, reads as follows :

Dr. S. B. Hartman, Columbus, Ohto:

Dear Sir:-"I cannot say too much in praise of Peruna. Eight bottles of it cured me of calarrh of the lungs of jour years' stand-ing, and I would not have been without it for anything. It helped several Sisters of couphs, and colds and I have yet to find one case of oatarrh that it does not cure. "-SISTER BEATRIX.

Interesting Letters From | Dr. & B. Hurtman,

Catholic Institu-

tions.

In every country of the civilized world the Sisters of Charity are known. Not only do they minister to the spiritual and intellect-ual needs of the charges committed to their care, but they also minister to their bodily needs. With so many children to take care of and to protect from climate and dis-ease, these wise and prudent Sisters have found Peruna a never-failing safeguard.

Columbus. Ohio: Dear Sir :-- "The young girl who used the Peruna was suffering from laryngitis and loss of voice. The result of the treatment was most satis-Jactory. She Jound great relief, and after further use of the medicine we hope to be able to say she is entirely cured,"-Sisters of Charity.

This young girl was under the care of the Sisters of Charity and used Peruna for catarrh of the throat, with good results as the above letter testifies.

found Peruna a never-failing safeguard. Dr. Hartman receives many letters from Catholic Sisters from all over the United from a Catholic institution in Detroit, Mich., reads as follows:

to lift the lever and allow it to fail over, as shown by the dotted lines. The sash can then be raised, and when this is done the lip on the lower sash throws the bolt over and restores the lever to its vertical position, but above, instead of behind, the tee end of the boit. In this position the fastener is ready to lock itself automatically when the rash is closed.

THE DUST SUCKED OUT OF CARPET. narrow T-shaped nozzle, attached to a hose, which connects it with an en-

gine in the basement. The air-drawing machine, for that is the name of the device that is supplanting the broom and the feather duster in modern business blocks, is not such a complicated affair, says the New York Tribune. Built low, with a cylinder at either end and a heavy fly-wheel on one side, it is a very common-place looking machine. The ma-

chine is operated by steam furnished from the plant heating the building in which it is installed, and the cost of running it is of course small, being only the expense of a few pounds of steam daily in the few hours the ma-chine is in operation. There is steam in one of the cylinders on the machine, air in the other, and each stroke of the piston draws air through big pipes from the tanks with which it is con-

nected. The operation of the machine causes a tremendous suction through the Tshaped heads attached to the pipes on the floors above, and by this force the dirt is drawn into a three-inch smooth jointed pipe running the entire height

of the building and called a "riser." The lofty building has two suction

A NEW GERMAN REVOLVER-CANE. Not a few men, upon a little study of the revolver-cane illustrated in the accompanying drawing, will conjure up the pleasure of meeting a burglar with the knowledge that he could cover the thief without the necessity of pulling

a gun out of his pocket, which act in itself would be sure to call forth the robber's fire. With this weapon it is not impossible for a man to defend himself against a highwayman successfully, even if the latter has the drop on him, for a shot can be discharged with hardly a movement of the hand that is perceptible to the eye,

DANGEROUS WEAPON IN THE WALKING STICK.

speeding to its mark before the opponent has time to grasp the situation and return the fire. The cane designed to contain this weapon is but little differ-ent in pattern from those in everyday use on the street, and there is nothing but the small orifice at the end of the barrel to indicate to the casual observer that he is in proximity to a gun. The interior mechanism differs but slightly from that of the revolver, and in place of the trigger a section of the metallic shell or casing is cut out and a lever inserted which conforms to the shape of the casing when folded, but connects directly with the firing pin and cylinder mechanism when dropped into the position shown in the picture. If the cane is then grasped beneath the head and gripped by partially closing the hand the trigger will swing forward to the point where the internal spring bolt is released and descends on the firing pin. Gustav Tresenreuter is the inventor.

Acts Pleasantly: Acts Beneficially: Acts truly as a Laxative. Syrup of Figs appeals to the cultured and the well-informed and to the healthy, because its component parts are simple and wholesome and be-cause it acts without disturbing the natural functions, as it is wholly free from every objectionable quality or substance. In the process of pleasant to the taste, but the medicinal virtues of Syrup of Figs are obtained from an excellent combination of plants known to be medicinally laxative and to act most beneficially. DCOLO

Inroat. At list it was only about as large as a pinhead, but, as it was in a position where my collar, if not just right, would irritate it, it soon became very sensitive and began to grow rapidly. Last spring it was as large, if not larger, than a bean. A little unwant invities of more A little unusual irritation of my collar started it to swelling, and in a day or two it was as large as haif an orange. I was very much alarmed, and was at a loss to determine whether it was a carbuncle or a malignant tumor.

and a second

"I have great faith in the Cuticura Remedies, and I believe they might be as efficacions in similar cases with other people, and thus mave much suffering, and perhaps life. I have derived so much benefit from the use of them myself that I am

constantly advising others to use them. Re cently 1 recommended them to an office boy for his father, who was dis-abled with salt rheum. The man's feet were swollen to an enormous size, and he had not worked for six weeks. Two bottles of Cuticura Resolvent and two boxes of Cuticura Ointment worked a perfect cure. You never saw a more "I am very much in-terested in another case where I have recommended Cuticura just now. My housemaid's mother has a goitre which had reached a very dangerous point. The doctors told her that nothing could be done; that she could live

only two or three weeks,

and that she would die

of strangulation. She was confined to her bed, " My friends tried to persuade me and was unable to speak, when her to consult my physician ; but dread-ing that he would insist ou using the knife. I would not consent to daughter, at my suggestion, tried the effect of the Cuticura Ointment and Cutieura Resolvent. Strange to say, she was very shortly relieved of go. Instead I got a small bottle of Cuticura Resolvent and a box of Cu-ticura Ointment. I took the former the most distressing symptoms. The swelling seemed to be exteriorized, according to directions, and spread and she is now able to be around her house, and can talk as well as a thick layer of the Ointment on a linen cloth and placed it on the swelling. On renewing it I would bathe my neck in very warm water and Cuticura Scap. In a few days the Cuticura Ointment had drawn the swelling to a head, when it

ever. "It seems to me that I have pretty good grounds for believing that Cuticura Remedies will prove successful in the most distressing forms of blood and skin humours, and if you wish to use my testimonial as herein indicated, I am willing that you should do so, with the further privilege of revealing my name and address to such persons as may wish to substantiate the above state-ments by personal letter to me."
