A Mormon church is being erected near Tomstown, Franklin county. More than half a century ago there was made the attempt to build a huge Mormon temple near Greencastle and to found a settlement of Mormons which should be the parent of the church in the United States, but this project fell through.—There has been a Mormon congregation near Tomstown for a number of years. It has had a varied membership of from 25 to 40. The Mormon doctrine, minus polygamy, has been taught by local preachers and by missionaries who have frequently visited them.

Last Notice.

In January we asked for an immediate settlement. Some of the creditors were prompt but some have failed to give this any attention. After August 1, 1903, all accounts will be left for collection.

A Frightened Horse.

Running like mad down the street dumping the occupations, or a hundred other accidents, are every day occurrences. According to the almanac Monday was the beginning of summer, and now the days are growing shorter, and winter is coming on.

As pertinent to the good old summer time, Farmer Dunn, who was for a number of years the head of the weather observatory at New York, has announced:—"People who have been growling about the cold weather so far in June will soon have reason to change their growls. It is therefore more than probable that with the latter part of this week the temperature will rise and continue high until the present deficiency is wiped out. "The storms this year have been somewhat abnormal in their development and travel, but the indications are that they are now resuming their normal track and summer clothes will not be sootied at during the rest of the summer."

To Cure a Cold in One Day.
