### THE FOUNDATION OF HEALTH.

Nourishment is the foundation of health—life—strength. Kodol Dyspepsia Cure is the one great medicine that enables the stomach and digestive organs to digest assimilate and transform all foods into the kind of blood that nourishes the nerves and feeds the tissues. Kodol lays the foundation for health. Nature does the rest. Indigestion, dyspepsia and all disorders of the stomach and digestive organs are cured by the use of Kodol. Sold at Trout's drug store.

### Large Wheat Crop.

The June report of the Department of Agriculture indicates that a big wheat crop may be expected. The present harvest outlook is for 781,000,000 bushels spring and winter wheat. The nearest approach to this in the past was 748,000,000, the yield of last year. As an index to the steady development of the agricultural interests of the country the figures are significant when compared with those of previous years. For example, the wheat harvest for 1893 was 396,000,000, just half that estimated for the present year. The report just issued reflects damages done to crops in Kansas and Missouri by the floods. In winter wheat there is a disease in the condition of 10 points in Kansas. This, however puts the crop 23 above the condition on June 1st a year ago. A loss of 17 points is reported from Missouri, and this brings the condition down to a basis that is 26 points below that of last year.—The average condition of the wheat crop for the entire country is given at 82.2, a decline of 10.4 points compared with the estimate of May 1st of this year, and comparing with 76.1 the record of June 1st, 1902. A quantitative estimate based on these percentages and the acreage planted places the yield of this winter crop at 483,382,000. This exceeds the high water record of 1901 by 25,000,000 bushels. Spring wheat conditions are reported at 95.9 and the indicative yield is 298,546,000 bushels. This estimate is a record breaker in the history of the wheat crop of the country.

## Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Mr. D. Kable, of Nevada, O., says: "I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me."  
Kodol Digests What You Eat and relieves the stomach of all nervous strain and the heart of all pressure.  
Bottles only \$1.00. Six holding 2 1/2 times the trial size, which sells for 50c.
