Improve the Roads.

Everybody in this county is interested, or should be, in having our roads improved, and just why the good roads act passed by the last Legislature is not taken advantage of by our people to a greater extent, we are unable to understand. Surely we need better roads and they can now be made with just a little extra expense. We have received several to get State aid for good roads .-In reply we would state that application for State aid is to originate in the township. The petition is to be laid before the County Commissioners and, if it is approved by them, it goes to the State Highway Commissioner.-The cost of improvements is to be borne half by the State, a quarter by the county and a quarter by the township.

Surely some of our people who have been advocating the improvement of our public roads for several years, should present ways throughout the county.

At the age of about 13 years she made later Mr. Snyder immigrated to day; this country and still another year later sent and brought his wife over to make their home in America. In 1852 he purchased and still owns the farm in Tod township on which he now resides. Although a part of the intervening time they lived in Ayr township on the farm of John Patterson and also spent a few years in the State of Illinois. In 1876 they identified themselves with the Cove United Presbyterian Church in which Mrs. Snyder continued to the end

of her earthly life. She was a woman of retired habits, of faithful devotion to her home duties and of great kindness to every one whom she could help.

For many years she was much afflicted and unable to leave her home, or engage in active labors, yet very patient and always cheerful. She lived to the advanced age of 79 years lacking a few days. Her end, which she welcomed, was trustful and very peaceful. She is survived by a husband, one son and four daughters to mourn their bereavement.
