Notification of this move has been telegraphed from Sebastapol to M. Zinovieff, Russian Ambassador at Constantinople. The dispatch of the squadron is intended to emphasize Russia's intention of exacting complete compliance with her demands as to satisfaction for the murder, by a Turkish gendarme, of M. Rostkovski, Consul at Monastir.

It is announced that last Tuesday Count Lamsdorff, the Foreign Minister, telegraphed to M. Zinovieff that the Sultan's expression of regret, the visit of condolence by Prince Ahmed, the Sultan's son, to the Ambassador, and the expressions of sympathy by the Grand Vizier and other high Turk-ish dignitaries were not considered adequate satisfaction for the murder of M. Rotkovski. When M. Stched-bina, the Russian Consul, was murder-Mitrovitza, continued Count Lamsdorff, the Czar took into account the fact that the murderer was an Albanian whose tribe was in rebellion against the government. The outrage at Monastir, however, was of another character and called for the severest punishment. The Czar therefore or-dered that no promises on the part of the Turkish Government should be accepted, but that demands should be made as follows:

The immediate severe punishment of the murderer; the arrest and exemplary punishment of the person who fired at M. Rostkovski's carriage; the immediate production of positive proofs that the Vali of Monastir has been actually banished; the instant severe punish ment of all other civil and military ofresponsible for the murder.

In addition to these demands, Ambassador Zinovieff was instructed as a means of general pacification in the vil-ayet of Monastir to make the followdemands:

The immediate severe punishment of all Turkish officials regarding whose "outrageous behavior" a report was made by the director of the Russian consulate at Uskub, after a tour of the vilayet of Kossovo in company with the Austrian consul; the rein-statement of Ismail Hakki, who was dismissed, but whose efficiency was indorsed by Hilmi Pasha, inspector-gen-eral of Macedonia; the immediate release of the peasant on whom, ac-cording to the reports of the Russian and Austrian Consuls, the Turks per-petrated atrocities; the instant dismissal and punishment of the officials of the administration of Salonica and Prisrend, "whose malpractices have been exposed to the light," and finally that the foreign officers employed in Mac-edonia shall immediately enroll fresh gendarmes and police for the protection of the peaceful population and the introduction of legislative order.

Kingston, Jamaica (Special).-There are heartrending scenes all over the eastern and northern portions of the Island of Jamaica. At Port Antonio thousands of homeless and starving people have sought shelter in the old prison and the few other buildings which survived the hurricane. Those who could not be accommodated are cowering in the lee of ruined walls and

The merchants of the place are feeding the hungry to the best of their ability, but the majority are depending upon green, unripe bananas knocked down by the storm. The bananas are boiled in kerosene tins over open fires made from the debris of destroyed buildings. This is their sole food supply, and it will be exhausted in o or 10 days. The Bulgarian government takes a decidedly pessimistic view of the situation and the officials openly express their lears that a general massacre of the Christians in Macedonia is inevitable-possibly within four days and almost certanly within a fortnight.

The reports from Bulgarian official agents in Macedonia show that affairs are rapidly growing worse. The fact that the Mussulman population is becoming excited and congregating in the mosques is regarded as a bad feature, indicating the possibility that a massacre may occur within a very short time. It is feared that such a massacre would cover a wide area and include both the large towns and the villages, and that the Turkish soldiers would prove incapable of restraining the fanatical Mussulmans even if to desired to do so, which is by no means certain.
