**POTENT PILL PLEASURE.**

The pills that are potent in their action and pleasant in effect are DeWitt's Little Early Risers. W. S. Philpot of Albany, Ga., says, "During a bilious attack I took one. Small as it was it did me more good than calomel, blue mass or any other pills I ever took and at the same time it effected me pleasantly. Little Early Risers are certainly an ideal pill." Sold at Trout's drug store.

Saturday evening the 5th inst., will be long and pleasantly remembered by the Odd Fellows in this section of the jurisdiction of Pennsylvania. It was the occasion of a fraternal visit of the members of Waterfall No. 773, together with some from Wells Valley No. 607, to our sister lodge at Three Springs. Had a stranger met the odd procession of buggies, carriages, and spring wagons, he would have felt that there was something "off" but he would never have guessed what was in store for that odd crowd. When we arrived at Three Springs, for oddly enough your scribe was along, we found supper in waiting at Park's Hotel and the way the good things on the well laden table disappeared was a compliment to the cooks. After supper we soon found ourselves in the spacious hall of our Three Springs brethren and so pleasantly had the time passed that we were hardly prepared to be disturbed by the clang of the bell in the tower of the Town Hall. Our hosts assured us that its tones meant no ill, and that we should "follow." Arriving, we found that the ladies had prepared an abundance of ice cream and cake for our delectation and then again the brethren of our friendly order, were seated around the festal board, and another hour was spent most delightfully.

At a late hour we turned our faces homeward feeling that we had been treated most royally, and realizing how much benefit is gained by such fraternal intercourse.

**Shippensburg Normal School.**

To become a successful teacher demands a special education just as a special education is necessary to make one a successful physician. The state pays the tuition of all persons over 17 years of age who attend a State Normal School for the purpose of becoming teachers. This makes the cost of a Normal School course very low when we consider the character and scope of the training. Write to Dr. G. M. D. Eckels Shippensburg, Pa. for a catalogue giving full particulars of the Shippensburg Normal School.

While crossing the mountain a few days ago on her way over to visit her sick mother, Mrs. J. L. Garland saw a big rattlesnake in the road, and believing it would not be good luck to allow the dangerous reptile to run at large longer, the plucky little woman alighted from the buggy and gave his snakeship battle. When she had conquered the snake she did not do as David did with the fallen Goliath—she cut off the snake's tail and found she had fifteen rattles and a butto.

**JUNIATA COUNTY'S GAS WELL.**

The finding of natural gas near East Waterford, Juniata county, is leading to the formation of several gas and petroleum companies in Juniata and Mifflin counties. Last Tuesday an oil company was organized at McVeytown, the list of officers embracing some of the most prominent men in Mifflin county. Stakes have been driven for six gas and oil wells between McVeytown and Newton Hamilton by an expert geologist and mineralogist, and operations are to be begun at once. The gas well near East Waterford, Juniata county, is being visited daily by strangers from various parts of Pennsylvania, and some from other states. The gas still flows with a pressure of about twenty-five pounds to the square inch. The owners of the well are undecided as to cleaning out the hole to its depth of about 1,300 feet, it having been filled in by the well diggers nearly 1,000 feet after the well was supposed to have been abandoned, or sunk a new well. One or two companies are in process of formation to locate wells farther eastward in Juniata county, and one company may begin operations only a mile or two west of the Susquehanna River. —Harrisburg Telegraph.
