Character.

History, if perused in a proper manner, may be of great service to the youthful reader. In reading history we should seek, not only to store up in memory its most important facts, but also to inquire in regard to each of them what useful lesson it is calculated to impress upon the mind.

It is often the case that elevation of rank or the glitter of wealth will prevent just views of the character and real worth of those thus favored by circumstances; but the judgment of history is in most cases much more impartial. There vice, which in its day was sheltered from condemnation by elevation of wealth or rank, is brought forth to receive the execration which it justly merits; while virtue, for a time hidden in obscurity, is held up to receive the honor and applause ever bestowed upon it by the conscience and better judgment of every rational being.

It is true that our names may never descend to posterity, but our character will go with us into another state of being. Leaving all else behind, this only will remain with us, proving a treasure of countless worth, a germ which contains the elements of future bliss—or a curse, a germ of endless misery and remorse. The character we possess is far more important to us than any circumstance of our being. On this depends our wellbeing far more than on outward circumstances. This is a truth which has been taught by the wise and good of all ages, but it is a truth which man is very slow to learn.

Fatal kidney and bladder troubles can always be prevented by the use of Foley's Kidney Cure. Sold at Trout's drug store.

NEW SCIENTIFIC DISCOVERY.

Remarkable developments have recently resulted from chemical laboratory experiments on the digestion of food. A most remarkable instance recently took place in the laboratories of E. C. DeWitt & Co., of Chicago, where chemical experiments are regularly carried on. In the test referred to, one teaspoonful of Kodol, a preparation consisting of a combination of vegetable acids and the natural peptones which a healthy stomach would contain, and the preparing of which is the result of scientific research and experiments, were placed in a glass tube containing 3000 grains of food, consisting of mince pie, molasses candy, sponge cake, white bread, boiled ham, boiled potatoes, pork fat, roast beef, cheese, hard boiled eggs, nuts and baked beans. This food was placed in a tube in its original state, the tube was placed in water and heated over alcohol lamps until it reached a temperature of 103 degrees, which is the normal temperature of the stomach. In the short time of four hours the entire mass of food was thoroughly digested, the action of the Kodol having been more complete in its work than it is possible even for the most healthy stomach to accomplish, and it is not believed that there is one person out of one hundred whose stomach would have so completely digested this mass of food. There are preparations which will digest certain classes of food, but the great desideratum has been to obtain one that will digest all classes of food. This has been found in this important discovery. Kodol is considered in medical science the first discovery of a preparation that contains the exact juices and acids that are to be found in a healthy stomach. Kodol contains them in just the same proportions, constituting it an absolutely harmless preparation and the most completely effective digestant known to science, immediately relieving indigestion and permanently curing dyspepsia. Trout's Drug Store has been fortunate enough to secure the agency for Kodol.

Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frantically and spit blood, but, when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 50 pounds." It's absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis and all Throat and Lung Troubles. Price 50c and \$1.00. Trial bottles free at all drug stores.

HONEST DEBTS.

A local preacher at the conclusion of one of his sermons said: "Let all in the house who are paying their debts stand up." Instantly every man, woman and child with one exception rose to their feet. The preacher seated them and said: "Now every man not paying debts stand up." The exception noted, a careworn, hungry looking individual, clothed in his last summer's suit, slowly assumed a perpendicular position. "How is it my friend," asked the minister, "that you are the only one not to meet his obligations?" "I run a newspaper," he meekly answered, "and these brethren here who have just stood up are my subscribers, and..."

Brutally Tortured.

A case came to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Golob of Colusa, Calif., writes: "For 15 years I endured insufferable pain from Rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and it's the greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me." Just as good for Liver and Kidney troubles and general debility. Only 50c. Satisfaction guaranteed by all druggists.

NEW GRENADA.

Jan. 11. — Bells, bells, bells, how they jingle! jingle! jingle! Sarah Keith is home from Altoona, where she had been for some time.

Jesse O. McClain of Robertsdale made a business trip here on Wednesday.

A sled load of goat-tamers from Robertsdale visited 773 L. O. O. F. here Friday evening.

Wells township is now minus two school houses and a High School, which is a serious problem.

Arthur and Ruth Cunningham spent Sunday at Mt. Union with the family of Dr. C. A. R. McClain.

Dr. Robert M. Hunter of Saxton put up a few days at the Houck House and was busy with dental work.

Measles are still hovering 'round. They are now at James F. McClains, and will likely reach our town before long.

Mr. and Mrs. James M. Keith of Eagle Foundry took a sleigh ride over the mountain, visiting friends here and at Hubbsville.

H. H. Bridenstine of Creekside made a special trip home to see his invalid sister, Libbie Grisinger, who is very low at present. Herb looks well and says he is doing a nice mercantile business.

Ida Alloway had an unpleasant experience on Saturday. Their well is under the kitchen, and as she stepped over it one of the boards broke down. She did not, however, go to the bottom of the well; no damage more than a fright.

Cured After Suffering 10 Years.

B. F. Hare, Supt. Miami Cycle & Mfg. Co. Middletown, O. suffered for ten years with dyspepsia. He spent hundreds of dollars for medicine and with doctors without receiving any permanent benefit. He says, "One night while feeling exceptionally bad I was about to throw down the evening paper when I saw an item in the paper regarding the merits of Kodol Dyspepsia Cure. I concluded to try it and while I had no faith in it I felt better after the second dose. After using two bottles I am stronger and better than I have been in years, and I recommend Kodol Dyspepsia Cure to my friends and acquaintances suffering from stomach trouble." Sold at Trout's drug store.

CIGARS FLAVORED WITH WINE.

During the last year thousands of barrels of cheap domestic and imported wine have been shipped into the town of Red Lion, York county, where our friend Dr. C. N. Trout is located. Yet the inhabitants are not wine drinkers, and the town is a temperance centre, with a number of flourishing prohibition and temperance societies. The wine is used in flavoring domestic tobacco for cigar manufacturing. Pennsylvania seed leaf is dipped into tubs of the spirit and allowed to drain and dry. The wine imparts to the tobacco a flavor which is meant to resemble that of Havana tobacco. One cigar manufacturer used more than 300 barrels of it during the year 1903.

Just One Minute.

One Minute Cough Cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the cough, and at the same time clears the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of Coughs, Colds and Croup. One Minute Cough Cure is pleasant to take, harmless and good alike for young and old. Sold at Trout's drug store.

DUBLINS HOLD BIG MEETING

Huntingdon Joins Fulton in Local Institute at Burnt Cabins Friday and Saturday.

SECRETARY'S REPORT OF MEETING.

The educational meeting at Burnt Cabins, in which Dublin township, Huntingdon county, joined with Fulton's Dublin, was called to order Friday evening by E. E. Kell, teacher at Burnt Cabins, who was elected chairman, and D. M. Bealman of Shade Gap was elected secretary.

After the singing of a hymn devotional exercises were conducted by Prof. C. J. Potts, of Bedford.

Mr. Kell then extended a hearty welcome to all teachers and friends of education, to which Prof. C. B. Neil, of Fannettsburg, made a short response.

Supt. Barton was introduced and gave a very able and instructive address.

Mrs. Dr. Fleming of Shade Gap rendered two very beautiful solos, accompanied by Miss Kegerreis at the organ.

Prof. Potts, the lecturer of the evening, then took the stand for 1 1/2 hours, entertained, instructed, and impressed his audience with the subject, "What Do You Think of Yourself?"

Saturday 10 a. m. Session opened by singing. Devotional exercises conducted by Prof. Potts.

On the absence of Mr. Bealman, B. C. Lamberson was elected Secretary.

The subject—"How to make pupils think?" was then introduced. Mr. W. F. Briggs was called and said the great question in all teaching is, "how?"

Mr. C. B. Neil said, "All pupils do think; the great question is how to direct the thought?" He says the reading and literature classes present great opportunities for directing the thoughts of pupils.

Supt. Barton then took up the subject—"Do not do the thinking for the child," "Teach self-reliance," "Parents ought not to do too much home work for pupils."

After a well rendered song and an intermission of 5 minutes, the second subject, "The Vital Forces of the School," was taken up. Mr. Moody Briggs opened the subject and spoke of the influence and the forces of school which crop out in the after life of a man or woman.

D. K. Chesnut on the same subject, said regularity, punctuality, neatness, accuracy, silence, industry, and obedience are some of the vital forces of a school. B. C. Lamberson talked on same subject.

Singing, "Come where the bright waters flow."

Prof. Potts then addressed the meeting.

Teachers love for work, more praise and less severe criticism, court your Supt. and Directors. Teachers should not attempt too much and have an object in each lesson, says Mr. Potts. Adjourned for dinner.

2 p. m. Meeting called to order, singing, and the 3rd subject was introduced—"The school as a social factor."

Prof. Palmer took up the subject and among the many things he said was—sociability is a great influence for good, as a connecting tissue between parent, pupil, and teacher.

Miss Ruth McGeehe sang a very beautiful solo, entitled "Bonnie Marie."

Prof. Potts occupied the next period.

Miss Currence Piper, with great ability and ease, recited "The Octoroon."

Miss Kegerreis of Fannettsburg favored the meeting with a well-rendered solo.

After good-bye speeches of two minutes' length by Prof. Palmer, Prof. Potts, B. C. Lamberson and Supt. Barton the meeting adjourned.

Such meetings as the one held at Burnt Cabins are surely a credit and inspiration to both teacher and people. Such hospitality and courtesy to visitors is an evidence of great interest and co-operation in educational work. Every session of the meeting was strongly attended. More such meetings would be wisdom.

B. C. LAMBERSON, Secretary.

our pub in schools, be it

Resolved, That we extend a vote of thanks to Mr. Kell for his most excellent institute; that we extend our thanks to Prof. Palmer and Lamberson for their services during the sessions; that we are very grateful to Prof. Potts for his devotional exercise and most excellent lecture; that we thank Miss Currence Piper for her recitations, which were so much appreciated; that we appreciate very much the services of Miss Kegerreis, both as organist and vocalist; that we tender our thanks to Mrs. Dr. Fleming for solos rendered; that we extend our heartfelt thanks to the trustees of the church for the use of the same; that we appreciate the interest manifested in education by the school board; that we rejoice that we had with us the proficient superintendent of Fulton county, and thank him for his distinguished services; that we regret that Mr. Kelly, who on account of the sickness of his son, was unable to act as president of our institute.

CURRENCE PIPER, C. B. NEIL, W. W. BRIGGS, Committee.

CLEAR RIDGE.

Louie Kerlin spent a day at Madsdensville recently.

Mr. and Mrs. Malaugh put up at the new hotel on Saturday.

Mervin Stewart had the misfortune to get his hand mashed last week.

A very nice clothing party was held at J. Bart Stevens' Friday evening.

John Fleming of Waterloo is spending a few weeks with his uncle and cousins here.

Many of our young people attended the party at Amos Sipes' at Fort Littleton last week.

A donation was raised for our preacher, Rev. Melroy; also, the ladies raised a collection to purchase Mrs. Melroy a dress.

Mrs. Louisa Kerlin, widow of the late James Kerlin, left this morning for a Baltimore hospital, where she will receive treatment.

Many of the children have whooping cough and some are introducing measles. Among those having the latter disease are the family of Elihu Anderson.

CUMBERLAND VALLEY

It is free only to those who are paid-up subscribers. 2. Only personal property can be advertised. 3. Notices must not exceed 30 words. 4. All "legal" notices excluded. 5. Not free to merchants, or any one to advertise goods sold under a mercantile license.

FOR SALE.—15,000 feet of pine lumber, one and one half miles southeast from Covalt, near the township road, Eli M. Funk.

WANTED.—A hog that will clean about 150 lbs. Inquire soon at this office.

GIRLS HAVE A CHANCE.

After 8 years we are to have another leap year, 1904 being on the calendar as such. It was widely published in 1896 that it was the only opportunity the ladies would have for eight years to exercise their ancient prerogative of proposing marriage to whom they willed. But 8 years have rolled around and those who did not avail themselves of that opportunity will have another.

The year 1900, as has often been explained, was not leap year because, according to the Gregorian calendar, every year not divisible by four without a remainder, is a leap year, except it be the last in a century and then it is a leap year only when divisible by 400 without a remainder. As 1900 was not divisible without a remainder it was not a leap year.

In Bed four weeks with La Grippe.

We have received the following letter from Mr. Roy Kemp, of Angola, Ind. "I was in bed four weeks with the grippe and I tried many remedies and spent considerable for treatment with physicians, but I received no relief until I tried Foley's Honey and Tar. Two small bottles of this medicine cured me and now I use it exclusively in my family." Take no substitutes. Sold at Trout's drug store.

BUSINESS DIRECTORY.

BARBERS.
