YORKTOWN, ARK., Mar. 1, 1904.

FOSTER-MILBURN Co., Buffalo, N. Y. Gentlemens-I have been engaged in the practice of medicine in this section for ten years. This is a very sickly climate, on the Bayou Bartholomew, near the Arkansas River. It is particularly malarious and minsmatic; we meet with many and various abnormal conditions of the human family; prominent among the cases in which I have been called upon to prescribe is kidney disease. Many of these disorders manifest themselves by pains in the back, often extending to other parts of the body; sometimes headache is present, caused by urnemic or chronic uric acid poisoning, soreness in region of kidneys, cloudy, thickened and foul-smelling urine, discharges of pus or corruption; inflammation of the kidneys, extending to the bindder, is caused by excess of aric acid and decomposition of the urine. Hemorrhage is some times met with, caused by high state of inflammation or congestion.

There is no class of diseases a doctor is called oftener to treat than the variety of kidney diseases, in many of which the patient will have chills or rigors, followed by fever, a result of the kidneys falling to eliminate the uric acid poison from the system. Such cases require the kidneys restored to their natural functions, then the poison and foreign substances are removed-

shock to the nervous system averted and natural health restored. I have, for some time, been using Doan's Kidney Pills in these many manifestations and with uniform success, curing most cases. I can further say that even in bopeless cases where they have waited too long. Doan's Kidney Pills afford much relief and prolong life. I can recommend the pills in conditions of excessive or deficient secretion of urine, as also in convalescence from swamp-fever and majarial attacks, as verified by the following cases in my practice.

CASE 1.

Thos. One.t., Bear, Ark., age 60. Pain in back for several weeks, then chills, irregular sometimes, severe rigors followed by fever. Gave good purgative of calomel and padoph, and Doan's Kidney Pills. After taking four boxes of the pills, patient up and enjoying good health for one of his age.

MRS. SMITH, TSTTY, Ark., age 29, mother of four children. Had female complaint and kidney trouble, manifest by pain in back and urine irregular; sometimes very clear, changing to cloudy, and with much sediment on standing in chamber. Gave local treatment for female complaint and prescribed Doan's Pille; after using six boxes she regards herself as cured.

- urine became normal, or natural, and patient able to resume his work. These are a few of the typical cases in which I have used Doan's Kidney Pills. In a great many instances I use them alone with curative results, while with some others indicated remedies are associated.

I believe that by the judicious use of Doan's Pilis many serious complications are arrested and many hopeless and incurable cases of Bright's disease

I have often found that one box of the pills is all that is required to effect a cure, but in some cases I continue their use until all symptoms are entirely absent and the cure effectual and permanent. Yours truly,

A free trial of this great Kidney and Bladder Specific can be obtained by addressing Fester-Milburn Co., Buffalo, N.Y. The regular size is to cents per box. If not for sale by your druggist or dealer, will be sent by mail, charges prepaid, on receipt of price.

factory in the world.

BROWN EARS, Wynne, Ark, age 21. Had severe case of malarial boemstaria or swamp fever. Gave necessary liver medicine, calomel and padoph, and morph-sulph, to relieve pain, and ordered Doan's Pills for the high state of congestion and inflammation of the kidneys. Recovery resulted in two weeks. Prescribed Doan's Kidney Pills, to be continued until the kidneys were thoroughly strengthened and all pain in back subsided.

ELIJAH ELLIOTT, Tarry, Ark., age 34. Pain in back and legs and headache. Uric acid poisoning. Prescribed Doan's Kidney Pills After taking several boxes pain subsided

Paid Fare in Stamps. A peculiar incident happened on an electric car a few days ago, when a well-dressed man who carried a large satchel and might have been a drummer, paid his fare from Blackinton to Williamstown, in western Massachusetts, with two postage stamps and a cent. He had no money and frankly told the conductor so, offering the stamps and a cent in payment of his fare. He said that later he would buy back the stamps.

\$1,646,000 of this is in realty mortgages, \$1,665,000 in railroad bonds \$643,000 in corporation bonds other than railroads, \$285,000 in various stecks and \$2,453,000 in real estate including the university building and

Miss M. Cartledge gives some nelpful advice to young girls. Her letter is but one of thousands which prove that nothing is so helpful to young girls who are just arriving at the period of womanhood as Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKRAM:—I cannot praise Lydia E. Pinkham's Vegetable Compound too highly, for it is the only medicine I ever tried which cured me. I suffered much from my first menstrual period, I felt so weak and dizzy at times I could not pursue my studies with the usual interest. My thoughts became sluggish, I had headaches, backaches and sinking spells, also pains in the back and lower limbs. In fact, I was sick all over.

"Finally, after many other remedies had been tried, we were advised to get

"Finally, after many other remedies had been tried, we were advised to get Lydia E. Pinkham's Vegetable Compound, and I am pleased to say that after taking it only two weeks, a wonderful change for the better took place, and in a short time I was in perfect health I felt buoyant, full of life, and found all work a pastime. I am indeed glad to tell my experience with Lydia E. Pinkham's Vegetable Compound, for it made a different girl of me. Yours very truly, MISS M. CARTLEDGE, 533 Whitehall St., Atlanta. Ga." - 2000s forfatt if original of above latter produces.

COMMERCIAL REVIEW.

R. G. Dun & Co.'s "Weekly Review of Trade" says:Inclement weather alone prevents a definite revival of business. Outdoor work is retarded and traffic impeded to an work is retarded and traffic impeded to an extend that cannot be accurately measured, but is obviously sufficient to neutralize the favorable effect of many encouraging factors, while Winter wheat is threatened, although not yet definitely injured, and early farm preparations must be posiponed.

Several leading branches of manufacture are increasing active generally and

Several leading branches of manufacture are increasing active capacity, and housands of interior buyers are placing dberal orders at the principal cities. The asual temporary advantages of war are felt in the markets for staple commodities, notably foodstuffs, but, while this helps the domestic producer. It harms a much larger number by enhancing prices to home consumers. There is little friction between employers and wage earners, except regarding the bituminous scale, but the cause of industrial peachas lost its foremost champion.

Despite interruption by storms, rail

Despite interruption by storms, rail way earnings thus far reported for February were only 4.0 per cent. smaller than a year ago, when there was also much severe weather. Financial condi-tions are satisfactory, money remaining easy and foreign exchange undisturbed

y complications abroad. While it appears that the output of pig iron has increased more rapidly than the demand, assuring some accumulation of stocks for the month, yet the mere fact that the leading interest has now about 80 per cent, of its blast furnaces in operation indicates confidence in the future.

DRAGGED DOWN BY A WARSHIP.

How It Feels to Be Sucked Under Water by a Foundered Steamer.

In the Edinburgh Medical Journal James A. Lawson gives an interesting description of his thrilling experience when he was dragged under water by a sinking ship. When he was far down in the swirling waters he struck out for the surface, but only went further down. This exertion was a serious waste of breath, and after what appeared to be ten or fifteen seconds the effort of inspiration could no longer be restrained, and

pressure of the chest began to develop. The most striking thing he remem bered was the great pain in the chest, which increased at every effort to expiration and inspiration. It seemed as if he were in a vise, which was gardually being screwed up, until it felt the sternum and spinal column must break. The "gulping" process became more frequent for about ten efforts and hope was then extinguished. The pressure after these gulps

seemed unbearable, but gradually the pain seemed to ease up, as the car bonic acid was accumulating in the blood. At the same time the efforts at inspiration, with their accompany ing gulps of water, occurred at longer and longer intervals. The writer's mental condition was then such that be appeared to be in a pleasant dream but still had enough will power to think of friends at home, etc. Before finally losing consciousness the chest pain had completely disappeared, and sensation was actually pleasant. When consciousness re turned he found himself on the surface of the water (probably from the action of the life belt), and finally managed to reach shore.

California's Moving Mountain.

California has a creeping mountain. It has cost something like \$1,000,000 to find it out. Santa Susana Mountain has been tunneled by the Southern Pacific railway for a cut-off line between this city and San Francisco and traffic was expected to open Jan i, but the opening is indefinitely post

Several weeks ago the engineers in charge of the work announced that the tunnel was completed, so far as heir work was concerned. It remain ed for the rallway company to lay and ballast its tracks, light the tunnel and complete the work of that charac ter. Then it was discovered that the sides of the tunnel were bulging, and the engineers were recalled.

Concrete braces, huge timbers, 148 16, well braced, were set, but the creeping monster crambled the concrete and snapped the timbers and continued to thrust its bulky sides into the opening.

A portion of the mountain is composed of shale, and it is this portion that is causing the trouble. It has been discovered by careful observation that this shale section is slowly but steadily moving westward. It is, in fact, a mighty stone river moving

toward the Pacific. The strata dips ocean-ward, and the movement is, doubtlessly, what is known as a "slide," caused by displacement somewhere in the depths of the earth. Whether or no the engineers will devise a way to stay its progress and make the tunnel usable remains to be seen.

Living Book Marker.

The mystery of life has rarely furnished the thinker with so strange a problem as that which arises out of a fact instanced by Mr. W. H. Hudn, the naturalist.

Mr. Hudson had a piece of snake skin, which for years he used as a book marker. It changed color periodically and shed its scales. It con tinued to shed its scales in this fash ion for 10 years, each succeeding set of scales being smaller than the last Some fairly recent books would

make even a hippotamus hide book marker change color were it to find itself between their leaves. The sensitive book marker capable

of blushing rose red or paling with emotion may, no doubt, be a feature in the literary life of the amazing tu ture, and perhaps in the literary world Some Emotions of a Moral Book Marker" is a thinkable title when we consider the strides of modern 'thought."-London Outlook.

The Hand of Providence.

A peculiar accident happened at Randolph, Vt., recently. A broken wheel on one of the cars in some peculiar manner uncoupled itself from the cars in front and behind and left the track and rolled down the bank without disturbing the other cars. The detached cars kept the track, came up to the rest of the train and recoupled themselves to the forward string without doing any damage, and the engipeer and fireman knew nothing of the trouble until Randolph was reached.
