DANGEROUS NEGLECT.

It's the neglect of backache side sche, pain in the hips or loins that finally prostrates the strongest body. The kidney warnings are serious - they tell you that they are unable to filter the body's waste and poison from the blood -the sewers are clogged and impurities are running wild to impregnate nerves, heart, brain and every organ of the body with disease elements.

Doan's Kidney Pills are quick to soothe and strengthen sick kidneys, and help them free the system from poison. Rend how valuable they are, even in cases of long standing.

L. C. Lovell, of 415 North First St., Spokane, Wash., says: "I have bad trouble from my kidneys for the past ten years. It was caused by a strain to which ' paid little attention. But as I neglected the trouble it became worse and worse until any strain or a slight cold was sure to be followed by severe pain across my back. Then the action of the kidney secretions became deranged and I was caused much annoyance, besides loss of sleep. Doan's Kidney Pills were brought to my notice, and after taking them a short time their good effect was apparent. All the pain was removed from my back and the kidney secretions became normal. Doan's Kidney

Pills do all that is claimed for them." A FREE TRIAL of this great remedy which cured Mr. Lovell will be mailed on application to any part of the United States. Address Poster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

A Question of Anesthetics. Stuart Knott, president of the Kan-

sas City Southern railway, was entertaining in his private car a Mr. Colins, a wealthy Galveston broker whose brains and money he hoped to interest in the development of the territory contiguous to Port Arthur. the southern terminus of the road The weather was stickily hot. The air was tainted with the fumes of oil, and the broker was kept busy beating off mosquitos and making polite expressions of appreciation. Mr. Knott, after fully extolling Port Arthur's natural advantages as a port, a rice, oil, cotton and lumber center, said: "Now, Mr. Collins, what would you

take to locate here?" "That, sir, is an open question," re-

plied Mr. Collins, slapping at a herd of gallinippers. "I'm not sure whether I'd take cocaine or morphine."-New York Times.

His Prayer. Chaplain Hale no longer asks Sena tors to join with him in repeating the Lord's prayer at the morning devotions. This arises from the fact that when he did make the request there was no response. This circumstance was the basis of a report, printed in some newspapers, that none of the senators knew the prayer. The report in turn became the source of no little anxiety to Dr. Hale.

"Can it be possible that such a deplorable condition of affairs exists?" he asked more than one senator, and he was apparently much relieved by the assurance given him that the newspaper report was without founda-

"I'd just like to see the test made," said Senator Tillman when he heard the story. "I fear they'd all be like two fellows they tell about down in South Carolina. They were in peril of losing their lives by drowning. when one of them insisted the other should pray, notwithstanding his companion remonstrated that he did not know how to pray.

"'Just pray anyhow,' said the other, whereupon the one said:

"'Lord, make us thankful for what we are about to receive." -- Washing

ton Post. Reflection on the Milkman.

Wayne MacVeagh, the lawyer and diplomat, has on the outskirts of Philadelphia an admirable stock farm. One day last summer some poor children were permitted to go over this farm and when their inspection was done to each of them was given a glass of milk. The milk was excel lent. It came, in fact, from a \$2,000 cow. "Well, boys, how do you like it?" the farmer said when they had all drained their glasses. "Gee! Fine!" said one little fellow. Then, after a pause, he added, "I wisht our milkman ken' a cow."

N-RAYS AND DIGESTION.

This Process Causes Their Emission, as Does M att. ar Activity.

That the of digestion, as well as meet, and muscular activity. seem to cause the emission of N-rays, ascertain the actual influence of music is the conclusion reached by M. Lambert, in France, after a series of interesting experiments. He believes that these curious rays are produced by Of all the animals the pums was the ferments, especially by those concerned in the digestion of albuminoid matter. In his experiments on digestion, says a writer in Harper's Weekly. M. Lambert placed a small quantity of fibrin in tubes containing in one case activated pancreatic juice, and in another artificial gastric juice made by mixing five per cent. solution of pepsin with a four per cent. solution of hydrochloric acid. From these tubes the N-fays were emitted, and were detected not only by producing increased luminescence of a phosphorescent screen, but also photographically, thus removing the subjective element from the experiment. As a result of these experiments, M. Lambert believes that in the course of digestion the fibrin undergoes strains which act to produce N-rays.

Yucatan simply boils over with prosperity. Her railways are paying, her and also to test solid silver, take a banks grow fat dividends, and her multi-millionaires are buying the best there is to be had, whether it be luxuries for the family or a first-class education abroad for their sons .-

# IF TAKEN IN THE SPRING,"

SAYS THIS BEAUTIFUL YOUNG GIRL.

#### MISS MARJORY HAMPTON, OF NEW YORK.

Miss Marjory Hampton, 2616 Third Avenue, New York City, writes: Peruna is a fine medicine to take any season of the year. Taken in the spring it tones up the system and acts as a tonic, strengthening me more than a vacation. In the fall and winter I have found that it cures colds and catarrh and also find that it is invaluable to keep the bowels regular, acting as a gentle stimulant on the system. In fact, I consider it a whole medicine chest, "--- Miss Marjory Humpton. ......

#### PURE BLOOD.

Blood Impurities of Springtime --- Cause, Prevention and Cure.

Dr. Hartman's medical lectures are eagerly scanned by many thousand readers.

One of the most timely and interesting lectures he ever delivered was his recent lecture on the blood inpurities of spring.

The doctor said in substance that every spring the blood is loaded with the effect accumulations of winter, deranging the digestion, producing sluggishness of the liver, overtaxing the kidneys, interfering with the action of the blood.

This condition of things produces what is popularly known as spring fever, spring malaria, nervous exhaustion, that tired feeling, blood thickening and many other names.

Sometimes the victim is billious, dyspep-Dr. Hartman's medical lectures are eag-

Deer Make Pretty Picture.

A Middlesex, Vt., farmer, while drawing logs two or three days ago, saw a group of eight deer on a meadow about a mile and a half south of the village. He describes the animals as sleek and in good condition, and says they made a picture well worth looking at.
