

**How to Keep House.**  
With all the luxuries and pleasures of this life, its big enjoyments and its smaller comforts, there is an offset or antithesis which we have to contend with in the form of aches and pains. In some way and by some means every one has a touch of them in some form at some time. Tiring as some of them may be, the risk is that they will grow to something greater and rack the system with constant torture. There is nothing, therefore, of this kind that we have a right to trifle with. Taken in time, the worst forms of pains and aches are easily subdued and cured by the free use of St. Jacobs Oil. No well regulated household ought to be without a bottle of this great remedy for pain. It is the specific virtue of penetration in St. Jacobs Oil that carries it right to the pain spot and effects a prompt cure even in the most painful cases of Rheumatism, Neuralgia, Lumbago, Sciatica. You want it also in the house at all times for lacerations, cuts and wounds, and the house that always has it keeps up a sort of insurance against pain.

The Brighton (England) Aquarium has forty-two tanks and is 15 feet long by 100 feet wide. It is the largest in the world.

**Whales Swim Long Distances.**  
Whales that swim about the islands which lie off the coasts of Norway and Finland in March and April, travel immense distances. In May they turn up at the Azores, or even at the Bermuda Islands, and sometimes pay a visit to the Antilles. They swim fast, for in June they are back again off Norway. Some of these whales have been known to bring back evidence of where they have been, for harpoons of the peculiar kind used off the coast of South America have been found stuck in them.

Permanently cured. No fits or nervousness after first day's use of Dr. King's Great Nerve Restorer. 421 North Broadway, New York. Dr. B. H. KESSE, Ltd., 181 Arch St., Philadelphia, Pa.

If the good die young what's the matter with the person who lives to a ripe old age?

**Use Allen's Foot-Ease.**  
It is the only cure for Swollen, Smarting, Tired, Aching, Hot, Sweating Feet, Corns and Bunions. Ask for Allen's Foot-Ease, a powder to be shaken into the shoes. Cures while you walk. At all Druggists and Shoe Stores, 25c. Don't accept any substitute. Sample sent FREE. Address, Allen S. Olmsted, LeRoy, N.Y.

One way for a young man to make a hit with the girl's father is to strike him for a loan.

**PITMAN FADELESS DYES** color more goods, brighter colors, with less work than others.

With the exception of the girl's father and the dog, all the world tolerates a lover.

Mrs. Winslow's Soothing Syrup for children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c. A bottle.

Some girls had rather flirt than eat and some do both simultaneously.

**Lansure Piso's Cure** for Consumption saved my life three years ago.—Mrs. Thomas Roon, 1152 Maple St., Norwich, N.Y., Feb. 17, 1905.

Other people's troubles bore a man more than his own.

**To Improve Italian Railways.**  
The Italian State railways, according to a report from Rome, will soon place orders for 200 locomotives and several thousand freight cars.

**\$100 Reward.**  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only medicine now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution, and assisting nature in doing its work. The proprietors have much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CENEY & Co., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

**Oil in Trinidad.**  
On the island of Trinidad oil is found amid a huge tropical vegetation, and is said to be of first-class illuminating power.

Labor disputes were fewer in 1903 than in any of the previous years. The total number was 350 disputes, affecting 113,873 work people.

**Miss Rose Peterson, Secretary Parkdale Tennis Club, Chicago, from experience advises all young girls who have pains and sickness peculiar to their sex, to use Lydia E. Pinkham's Vegetable Compound.**

How many beautiful young girls develop into worn, listless and hopeless women, simply because they pay no attention to their physical development. No woman is exempt from physical weakness and periodic pain, and young girls just budding into womanhood should be carefully guided physically as well as morally. Another woman, Miss Hannah E. Mershon, Collingswood, N.J., says:

"I thought I would write and tell you that, by following your kind advice, I feel like a new person. I was always thin and delicate, and so weak that I could hardly do anything. Menstruation was irregular."

"I tried a bottle of your Vegetable Compound and began to feel better right away. I continued its use, and am now well and strong, and menstruate regularly. I cannot say enough for what your medicine did for me."

—5000 copies of original of above letter proving genuineness of this product.

**Lydia E. Pinkham's Vegetable Compound will cure any woman in the land who suffers from womb troubles, inflammation of the ovaries, and kidney troubles.**

# WHEN YOU GO TO THE WORLD'S FAIR

**Suggestions That Should Be Helpful to the Stranger in St. Louis :: No Trouble When You Get Your Bearings :: The Greatest of the World's Expositions**

By **MARK BENNETT**

It will be worth all the self denial that one may practice for several years to see the World's Fair of 1904 at St. Louis. Money saved, earned or borrowed, cannot be better spent than in getting acquainted with the world's progress as revealed at this latest and greatest of expositions. All of us cannot travel around the world to take note of what the nations are doing, but the nations from all around the world desire us to know and have sent their best works to St. Louis to be placed on display.

Therefore, by all means or any means, see the World's Fair. It means everything to your future growth of mind, to your present pleasure and life-long satisfaction. Who that saw the Centennial Exposition or the Columbian Exposition that does not recollect it with recollections of keenest pleasure? Within the two square miles of the

a twelve-acre outdoor display in addition to the nine acres under roof.

The Palace of Art at the World's Fair contains 155 galleries. Each gallery is a large room, lighted from above and filled with the choicest works of all countries of the world in which art has made noteworthy progress. The group of buildings to house this magnificent display represents an expenditure of more than \$1,000,000. Even to the timid traveler, St. Louis presents no complications. It is all as plain as a b c when once you get your bearings. The streets all run east and west or north and south, with rarely a confusing diagonal.

All trains into St. Louis arrive at Union Station, one of the finest railroad terminals in the world. The station is on the south side of Market street, between 18th and 20th streets, so that when the visitor emerges from the station he finds himself at the be-

CORNER OF PALACE OF LIBERAL ARTS AT WORLD'S FAIR, ST. LOUIS.

Louisiana Purchase Exposition at St. Louis there is more to be seen than ever was brought together in ten times the space before. It is a great collection of exhibitions massed into one. It is nearly twice as large as the Columbian Exposition at Chicago, nearly ten times larger than the Pan American Exposition at Buffalo. Every exhibit palace offers the equivalent of a splendid exposition, each covering many acres of space.

The largest of these is the Palace of Agriculture, with its twenty-three acres under roof, and filled to the doors with the most wonderful agricultural collection ever assembled upon any occasion. The important States and Nations of the world are all here alongside great numbers of individual exhibitors. Five great staples have been chosen for extraordinary display. Corn, cotton, sugar, rice and tobacco are here arrayed as they have never before, and undreamed possibilities are revealed to inquiring minds. Such a dairy display was never attempted and such a collection of farm machinery and tools was never placed on exhibition.

The Palace of Transportation is next in size, covering fifteen acres. One may only hint at the wonders it con-

tain, the historical exhibit of locomotives is one of the features. It shows the development of seventy-five years in locomotive construction. Strange indeed is the person who is not yet impressed with these evidences of man's long struggle with the problem of rail transportation, the most civilizing of modern influences, next to the newspaper, which must always stand first. To describe in detail this exhibit would be a long story in itself.

Now let us cross the flower gardens to the Palace of Machinery, just south of Transportation. The huge power generators are the first things to arrest the eye. The Allis-Chalmers engine of 5000 horse-power, the Curtis steam turbine of 8000 horse-power, the Parsons steam turbine of 5000 kilowatts, the four Westinghouse generators of 3000 horse-power each, and each as high as a house. And then other generators great and small of

## ELECTRICITY IN JAPAN.

Activity of the Island Empire in Construction Work.

That the modern Japanese are determined to keep abreast of the peoples of the Western world is shown not only by their quick mastery of the art of war, but also by their readiness to appropriate all the results of modern scientific discovery. According to the London Electrical Engineer, they are now displaying much activity in the utilization of electricity for lighting, power and traction purposes. The Tokio electric light works have been in operation for a considerable time, and it has become necessary to greatly extend the power house. The plant at present has a capacity of 5050 horse power, and this is being increased by an additional 3000 horse power. This new plant will go into operation during the present month, and work will then be commenced on a further extension, which will ultimately increase the output of the station by 10,000 horse power. Fresh demands for electric power are being made from the electric company by the railway company, which is operating an extensive system of light railways in Tokio.

## THE DARDANELLES.

The question whether Russia has the right to send her Black Sea fleet through the Dardanelles is based upon a treaty executed in 1841 between the five great Powers, whereby it was agreed that no ship belonging to any nation save Turkey should pass through the channel without the consent of Turkey. This agreement was reaffirmed by the treaty of Berlin, executed after the Russo-Turkish war in the 70s.

## Where Lord Nelson Really Died.

Visitors to the Victoria, at Portsmouth, England, who have gazed upon a spot in the cockpit and believed it to be the place where Nelson breathed his last, were quite mistaken, according to discoveries just made during the overhauling of the ship. The authentic place where the hero died was close against one of the huge ribs of the ship a little further forward. This place is now to be called around, and it will be lighted with electric lights, for which a storage battery is to be placed on board.

all kinds—the most wonderful display of engines ever assembled. But these are not all. Think of ten acres of glistening machines of every kind and you have some idea of the contents of the Palace of Machinery.

We cross the lagoon to the eastward and come to the beautiful Palace of Electricity, with eight acres of exhibits from many countries, which show the marvelous development of electrical science. To the north again over one of the arched bridges we approach the Palace of Varied Industries, viewing its wonderful grace and splendor as we go. Here are fourteen acres of exhibits from all over the world. The Palace of Manufactures is the same size and stands on the opposite side of the Plaza of St. Louis. It is equally interesting in the variety and newness of its contents.

Opposite the Palace of Manufactures to the southward is the Palace of Education, this being the first time that education has been allotted a great building all its own. A variety of schools in daily session are the feature of this eight acre display. The two exhibit buildings in the eastern part of the main group are Mines and Metallurgy and Liberal Arts. The Department of Mines and Metallurgy has

gaining of the city numbering both north and south and eighteen blocks from the river.

Standing on Market street with his back to the station the downtown or main business section of the city is to his right about one mile. The World's Fair is to his left, westward about five miles. All the street cars are so labeled that he may easily know which cars to take.

Practically all St. Louis will be a lodging house during the Exposition. The hotels have greatly multiplied in number and thousands of private homes are open for the accommodation of guests. The rates at the hotels are generally on the European plan as it will be more convenient for guests to get their meals wherever meal-time may find them. Prices for rooms in private houses range from 50 cents to \$2.50 per day per person. The prevailing rate is \$1.00 per person and in nearly every case good accommodations with all conveniences and in good localities may be had for this price. The higher rate presupposes larger rooms and more luxurious quarters. But no one need pay more than \$1.00.

The hotel prices have a wide range. Competition will be brisk.

## A CHANGE OF AIR.

Why It Proves Beneficial When a Person is Ailing.

To maintain the balance of perfect health in a body so complex as man's, where the circulatory, respiratory, muscular and nervous systems interact so much upon one another, there is need of very frequent adjustment, especially in such a busy age as this.

One great benefit of change of air is that the great law of contrast enforced upon us by all natural phenomena is allowed fuller scope for its beneficent work. The various organs of the body are very readily rested by slight changes in diet, cooking, water, new surroundings, people and amusements. The same monotonous daily round of duties tries them as it tries us, and change of work is actual refreshment.

If specific ailments have manifested themselves, then the seashore for a tonic and general stimulant, mountain air for its aseptic refreshment, a sandy district for its dryness, or a sea voyage to invigorate the whole system will be calculated to ward off what would otherwise spell serious illness.

## Man's Nerve Impulses.

The speed of nerve impulses in man is stated by Dr. Alcock, in a recent paper before the London Royal Society, to be sixty meters (216 feet) a second. The experiments of Sir Michael Foster fifteen years ago showed it to be thirty-three meters. Dr. Gowers, the eminent neurologist, remarks that either Dr. Michael Foster or Dr. Alcock is widely wrong, or the rate of transmission has become greatly accelerated during the last fifteen years.

## Origins of "So Long."

With reference to the origin of the familiar expression, "So long," a correspondent of the London Academy suggests that it is derived from the Norwegian "Saa laenge," a common form of farewell, equivalent in meaning to "au revoir," and pronounced like "so long," with the "g" softened. There was a fair number of Norwegians among the settlers in America, to judge by the names, and it is quite likely the phrase was picked up from them. It is in general use among the Dutch in South Africa.

## AN UNGAN WITHOUT STUPS.

That Was the Opinion of the Man With a Muscular Soul.

There is a man living in an Eleventh street flat who has no music in his soul, and there is a man on the lower floor whose soul is full of it. The lower floor man not long ago added a four lung parlor organ to his larder and penates, and two healthy daughters of his began to practice on it. Several nights later a friend paid a visit to the first man, and as soon as he got inside the apartment he heard the parlor organ on the lower floor.

"Fine toned instrument that," he said, because he, too, had some music in his soul.

"The musician man grinned."

"Whose make is it?" the visitor asked.

"Don't know," was the ungracious answer.

"How many stops has it?"

The lost pulled himself up for a powerful effort. "Well," he replied, "it's been in the house for about a week now, and in that time it hasn't had any that I have been able to discover."—New York Press.

## Happy When They Are In Jail.

"Many a prisoner as soon as he steps in the outer office," said a Charles street jail officer, according to the Boston Record, "throws himself into a chair with a sigh of relief, muttering: 'This is the first happy hour in many months.' This is especially true of men charged with large embezzlements. Their consciences seem to be on the verge of collapse until they arrive under the shadow of the jail, when they then see their future clearly."

## World of Labor.

Employees of the Erie Railroad are seeking another advance in wages. There are 2,500 unions in New York State, with a membership of 300,000. Ninety-eight per cent. of the 50,000 blind of Japan support themselves by practicing massage. A strike of union carpenters is threatened at New Orleans, La., due to a demand for 47 cents an hour. City firmen of Houston, Texas, have formed a union and secured a charter from the American Federation of Labor. In February four per cent. of union members in the printing and book-binding trades in Great Britain were not employed. Ann Arbor (Mich.) painters have gone on strike because of a refusal of 500 employers to sign the "closed-shop" agreement. Eighteen flour mills in Minneapolis, Minn., have shut down because of the poor condition of the trade, and 1,000 men are out of work. Winnipeg (Man.) master printers and workmen have been unable to agree upon the new scale, and a settlement of the strike has again been postponed.

## COMMERCIAL REVIEW.

R. G. Don & Company's "Weekly Review of Trade" says: Tardy Spring weather following an unusually severe winter makes it difficult to restore satisfactory trade conditions, but it is encouraging to find at many points this unseasonable weather the only cause of complaint, and there is always hope that the early losses may be made up at least in large measure, when thermal conditions become normal. In the meantime sales of dry goods are restricted and stocks in all positions from producer to consumer are larger than is desirable. Aside from the cotton states, where business is better, the West's dispatches indicate that early rains were maintained, but little further progress occurred. Labor controversies are still an adverse factor. Railway earnings in the first week of April were 7.0 per cent. smaller than last year.

No definite check to progress in the iron and steel industry is discerned, although it lacks uniformity and in some departments it is difficult to find encouraging signs. Insofar as pressure for immediate delivery is most prominent, makers of agricultural implements being notably impotent. Not only is it difficult to secure early delivery of bars, but shipments four weeks hence are considered prompt and some orders run up to the end of the year.

"Trade streets" says: Wheat, including flour, exports for the week ending April 14 aggregate 1,213,855 bushels, against 1,854,376 last week, 2,077,777 this week last year, 4,118,108 in 1902, and 5,305,217 in 1901. From July 1, 1903, to date they aggregate 11,065,850 bushels, against 17,928,553 last season, 20,230,652 in 1902, and 161,360,377 in 1901. Corn exports for the week aggregate 581,339 bushels, against 1,028,007 last week, 1,677,621 a year ago, 400,733 in July 1, 1903, to date they aggregate 8,145,585 bushels, against 5,664,807 last season, 5,529,787 in 1902, and 149,308,595 in 1901.

## WHOLESALE MARKETS.

Baltimore.—FLOUR—Quiet, unchanged; receipts, 4,033 barrels; exports, 3,873 barrels.

WHEAT—Dull; spot contract, 100 @ 1.02½; spot No. 2 red Western 1.02½; April, 1.02½; May, 1.02½; July, 1.03; asked, steamer No. 1, 92½; No. 2, 92; receipts, 2,957 bushels; Southern, by sample, 95¢; No. 1, Southern, on grade, 94¢; No. 1.

CORN—Steady; spot, 50¢; No. 2, 49¢; April, 50¢; No. 2, 49¢; May, 50¢; No. 2, 49¢; mixed, 47¢; No. 2, 47¢; receipts, 6,001 bushels; exports, 4,274 bushels; Southern yellow corn, 42½¢; Southern white corn, 42½¢.

OATS—Easier; No. 2 white, 11¢; No. 2 mixed, 10¢; receipts, 12,200 bushels.

PEANUTS—Steady; fancy hand picked, 54¢; other domestic, 52¢; 60¢.

CABBAGES—Steady; Florida, per barrel crate, 3.25; 3.50.

Live Stock.

Chicago.—CATTLE—Receipts, 5,000; market strong to the higher. Good to prime steers, 5.00; 5.25; poor to medium, 3.75; 5.00; stockers and feeders, 2.75; 4.25; cows, 1.50; 4.25; calves, 2.00; 4.10; calves, 2.00; 4.50; Texas-fed steers, 4.00; 4.60.

HOGS—Receipts today, 10,000; tomorrow, 12,000; left over, 4,250; market 3¢ lower; hogs firm. Mixed and butchers, 5.00; 5.35; good to choice heavy, 5.25; 5.35; rough heavy, 3.10; 3.25; light, 4.50; 5.15; bulk of sales, 5.00; 5.25.

SHEEP—Receipts, 5,000; market steady. Good to choice wethers, 4.75; 5.00; fair to choice mixed, 3.50; 4.00; Western sheep, 4.40; 5.30; native lambs, 4.00; 5.75.

New York.—BEEVES—Receipts, 1,500; market firm to the higher; all old. Steers, 4.35; 4.40; fat stage, 5.00; bulls, 3.85; 4.50; cows, 1.60; 5.00. Shipments today, 2,500 quarters of beef; tomorrow, 700 quarters of beef; 850 quarters of lard.

WORLD OF LABOR.

Employees of the Erie Railroad are seeking another advance in wages. There are 2,500 unions in New York State, with a membership of 300,000. Ninety-eight per cent. of the 50,000 blind of Japan support themselves by practicing massage.

A strike of union carpenters is threatened at New Orleans, La., due to a demand for 47 cents an hour. City firmen of Houston, Texas, have formed a union and secured a charter from the American Federation of Labor.

In February four per cent. of union members in the printing and book-binding trades in Great Britain were not employed.

Ann Arbor (Mich.) painters have gone on strike because of a refusal of 500 employers to sign the "closed-shop" agreement.

Eighteen flour mills in Minneapolis, Minn., have shut down because of the poor condition of the trade, and 1,000 men are out of work.

Winnipeg (Man.) master printers and workmen have been unable to agree upon the new scale, and a settlement of the strike has again been postponed.

## HOSPITAL SECRETS.

A Nurse Says: "Pe-ru-na is a Tonic of Efficiency."

MRS. KATE TAYLOR.  
Mrs. Kate Taylor, a graduated nurse of prominence, gives her experience with Peruna in an open letter. Her position in society and professional standing combine to give special prominence to her utterances.

CHICAGO, ILL., 427 Monroe St.—As far as I have observed Peruna is the finest tonic any man or woman can use who is weak from the after effects of any serious illness. I have seen it used in a number of convalescent cases, and have seen several other tonics used, but I find that those who used Peruna had the quickest relief.

"Peruna seems to restore vitality, increase bodily vigor and renew health and strength in a wonderfully short time."—MRS. KATE TAYLOR.

In view of the great multitude of women suffering from some form of female disease and yet unable to find any cure, Dr. Hartman, the renowned specialist of female catarrhal diseases, has announced his willingness to direct the treatment of such cases as make application to him during the summer months, without charge. Address The Peruna Medicine Co., Columbus, Ohio.

## Queer Phraseology.

An example of the ravages which the British tariff discussion is making in London is given by W. L. Alden. He says: "Are you a little pligger or a little hogger?" I asked of Bradley the other morning as I met him on the top of a Piccadilly bus. I pride myself on being able to make courteous and pleasant remarks early in the day. "Neither," he replied, "I am a universal swine."

## His Dear Mother-in-Law.

An Ithaca grocer, who is in the habit of feeding the sparrows in front of his place of business, threw cut a whole loaf of bread the other morning, but a man who was driving by saw the loaf and took it away from the birds with the remark: "It's good enough to take home to my mother-in-law."

If a druggist has no conscience he usually has something he considers equally good.

The Shortest Way out of an attack of Rheumatism or Neuralgia

In Use St. Jacobs Oil

Which affords not only relief, but a prompt cure. It soothes, soothes, and ends the suffering.

Price, 25c. and 50c.
