A Paradise for Women.

The treatment accorded women in the island of Sumatra ought to be a great satisfaction to the advocates of women's rights. At marriage the worldly possessions of the husband are made over to the wife, and he thenceforth devotes his energies to increasing this fortune. , Divorce is practically unknown, perhaps because husband and wife do not live together but live in separate houses.

The lot of a married woman is such a happy one in this favored land that widowhood is rendered proportionate ly hard to bear. Consequently the oriflamme, or widow's veil, is special ly manufactured of the lightest possible material, its texture being as fine as muslin, with the result that the most gentle of breezes soon tear it to pieces. Thus within a very short space does the widow find herself free to marry, and but few months clapse before she has found someone to console her and has again bound herself with the golden bonds of matrimony.-New York Herald.

COMMERCIAL REVIEW.

R. G. Dun & Co.'s "Weekly Re-view of Trade" says: Business con-tinues to move in most conservative channels, purchases being restricted to immediate requirements and weather conditions dominating the situapoints there has been little Spring trade, and the transition from Winter to Summer will be accomplished with scarcely any intermediate season. Considering this adverse factor, the current volume of business is remarkably satisfactory. Building operations are also deferred to a late date. Much structural work is projected, however and at some favored points last year's record promises to be surpassed. As a rule manufacturing plants are not working at full capacity, idle machinery being most extensive in textile in-dustries. Floods and storms have interrupted traffic, yet railway earnings thus far reported for April are only 5.5 per cent. smaller than last year Iron and steel conditions are still devoid of any definite change. al departments the week has brough slightly increased activity, notably in merchant steel, pipe and structural shapes, but in many branches there is hesitation. Distribution at retail is restricted by the weather, and there are no compensating factors. It men's wear, woolens and worstee goods it is estimated by some that about 70 per cent, of the mills are now idle. Carpets are also dull and some cancellations are reported. Bradstreet's says:

Wheat, including flour, exports for week ending April 28 are th smallest in fourteen years, aggregating 1,010.850 bushels, against 1,645,428 last week, 3,418,289 this week last year, 5,308,155 in 1902 and 5,100,763 in 1901. Corn exports for the week aggregate 190,193 bushels, against 626,792 last week and 2,210,155 a year ago, 128,679 in 1902 and 2,371,892 in 1901.

Pe-ru-na Protects the Entire Household Against Catarrhal Diseases

One of the greatest foos with which every name has to contend is our change-able climate. To protect the family from colds and coughs is always a serious problem, and often impossible.

Somer or later it is the mevitable fate of every one to catch cold. Care in avoiding exposure and the use of proper clothing will protect from the frequency and perhaps the severity of colds, but with the greatest of precautions they will come reatest of precautions they will come. This is a settled fact of human experience. Everybody must expect to be caught some here or somehow. Perhaps it will be wet feet, or a draught.

or damp clothes, or it may be one of a thousand other little mishaps, but no one is shrewd enough to always avoid the inevitable catching cold.

There is no fact of medical science better

known than that Peruna cures catarih wherever located. Thousands of families in all parts of the United States are protected from colds and catarrh by Peruna. Once in the family Peruna always stays. No home can spare Peruna after the first

Sensational Occurrence at Trial. Sensational incidents are not un common in the closing stages of fam cus criminal trials. One of the most remarkable occurred recently in Mel bourne, Australia, on the last day of the trial of Ned Kelly, known to thousands of juvenile readers of penny fiction, as the "ironclad bushrang er of Australia." A knife dropped from a gallery overhead and fell at the feet of the desperado in the dock He had every temptation to grab it and put an end to his existence, for there was not the slightest chance of his escaping the gallows. But it was promptly nicked up by a warder and its owner was arrested and brought before the judge. He pleaded that the occurrence was purely accidental and this explanation was accepted by the court.
