**Treat Your Kidneys for Rheumatism.**

When you are suffering from rheumatism, the kidneys must be attended to at once so that they will eliminate the uric acid from the blood. Foley's Kidney Cure is the most effective remedy for this purpose. R. T. Hopkins, of Polar, Wis., says, "After unsuccessfully doctoring three years for rheumatism with the best doctors, I tried Foley's Kidney Cure and it cured me. I cannot speak too highly of this great medicine." Sold at Trout's Drug Store.

**Condition, not Theory.**

George H. Martin, Supervisor of Schools in Boston, was speaking recently of the fruitlessness of certain seemingly good theories if the conditions are widely different from those upon which the theories are founded. In illustration he said:

"A teacher came to me once complaining about the burden of her work, believing I might be able to make it lighter for her. I gave her a copy of Dewey's 'Schools and Society,' and asked her to read it and report to me. In a few days she sent it back to me with a note saying that the plan of the book looked pleasant, but she believed it to be only an iridescent dream.

"She concluded the note with: 'The conditions in my school are entirely different from what the book sets forth. I have to teach Tom Sullivan his grammar.'"

**The Best Hens.**

There is no way of knowing which of the hens are the best unless they are closely observed. Every hen that has a good record should be marked and retained not only for laying, but for breeding purposes. The egg record would be much higher and the flock improved every year if the farmer would keep only the best hens from which to produce the layers for another year. Unfortunately with many, "a hen is a hen," but in fact there is a wide difference in individuals, and any particularity or point of excellence should be observed, so that all future stock may be better than the preceding.
