It's Policy, You Know.

When a man comes home quite late In a rather boozy state How his wife will welt it to him with her tongue

And he'll sit there calm and mute While she tells him he's a brute. Just the greatest beast that ever went unhung !

Let him bint he has his eye On a hat about her size. Down her cheeks the damp, repentant tears will flow.

And she'll clasp him in her arms And dilate upon his charms-It is policy to do it, don't you know

In her home a pretty girl, One you'd think a priceless pearl, Will be spiteful, cross and surly as a bear. She will snap her mamma.

Scold her venerable pa And will pull her little brother's tousl ed hair; But when Freddie comes to woo

She will smile and bill and coo, Not a trace of ugly temper will she show: She'll be gentle as a dove.

Little lambkin thrilled with love-

It is policy to do it, don't you know. Many men engaged in trade Lay their scruples in the shade And will skin their fellow men in eve-

ry deal, They will play their cards to win. Even to the verge of sin, And the slightest prick of conscience

never feel. Then upon the Sabbath day To the church will wend their way And the praises from their pious lips will flow.

They will sing and lead in prayer With a humble Christian air-It is policy to do it; don't you know.

Thus it is the country o'er: If you probe them to the core Many men you'll find who lead a double life

Yet they half way think it's right. That to win the earthly fight They must use deceptive weapons in the strife.

When their final race is run. When their mortal work is done And they hear the summons calling them to go,

It should be their last request aspestos to be dressed Twould be policy to do it, don't you know.

Cured Hemorrhages of the Lungs'

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind., "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble." Sold at Trout's drug store.

Tragedy Averted.

"Just in the nick of time our ittle boy was saved" writes Mrs. W. Watkins of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for consumption, and our darling was saved. He's now sound, and well." Everybody ought to know, it's the only sure cure for coughs, colds and all lung diseases. Guaranteed at Trout's Drug Store. Price 50c and \$1.00. Trial bottles free.

The Horsepower Unit.

How many folks who talk glibly about the "horsepower" of a motor car know what the horsepower unit is? Even those who are aware that this unit represents the force that will raise 33,000 pounds one foot per minute probably do not know that this considerably exceeds what the average horse can do, and that the figures were settled by James Watt about a century ago in a curious fashion. Watt, in his usual careful manner, had calculated what the average horse in his neighborhood could do, and he found that the raising of 22,000 pounds per foot per minute was about the actual horsepower. At the time he was engaged in the manufacture of engines, and had almost a monopoly of the engine building trade. Customers were so hard to find that all kinds of artificial encouragements were considered necessary to induce power users to buy steam engines. As a method of encouraging business, Watt offered to sell engines reckoned 33,000 foot pounds to a horsepower, or onehalf more than the average. And thus what was intended as a temporary expedient to promote business was the means of giving a false unit of a very important panion. measurement to the world.

From 148 to 98 Pounds.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner. Mark Twain was the man being Marion, Ind., who was entirely cured by the use of One Minute "Ever hear of his trick with a Cough Cure. "Come to him just as you are,"

said Mr. Malan. He little thought that one day that simple reply would be repeated in song by the whole

Christian world. Further advice resulted in opening the young lady's mind to spiritual light, and her life of devout activity and faith began. She possessed literary gifts, and, having assumed charge of "The Yearly Remembrancer," on the death of its editor, she inserted several original poems (without her name) in making up her first number. One of the poems was "Just as I am without one plea But that Thy blood was shed for me,

And that Thou bid'st me come to Thee, O Lamb of God. I come!" The words of Pastor Malan,

realized in her own experience were of course the writer's inspiration.

Beginning thus its public history in the columns of an unpretending religious magazine, the little anonymous hymn, with its sweet counsel to troubled minds. found its way into devout persons' scrap-books, then into religious circles and chapel assemblies, and finally into the hymnals of the "church universal." Some time atter its publication, a philanthropic lady, struck by its beauty and spiritual value, had it printed on a leaflet, and sent for circulation through the cities and towns of the kingdom, and in connection with this an incident at an English watering-place seems to have first revealed its authorship to the world. Miss Elliott, being in feeble health, was staying at Torquay in Devonshire, under the care of an eminent physician. One day the doctor, who was an earnest Christian man, placed one of those floating leaflets in his patient's hands, saying he felt sure she would like it. The surprise and pleasure were mutual when she recognized her own hymn, and he discovered that she was its author .- Youth's Com-

WEATHER AT WORLD'S FAIR.

Cool Nights and Delightful Indian Summer to Be Expected at St. Louis. Usually the warmest month of the year, July proved to be one of the most pleasant of the World's Fair season the average temperature being 67 degrees, a record lower than that made by either Boston, New York, Philadelphia, Cincinnati or Chicago. The weather bureau records show that the temperatures in St. Louis during July were just between the extremes re-

corded at New Orleans and St. Paul, cities located at great variance. August in St. Louis is a month of cool nights, and September and October are the most delightful months of the year. It is that period known as Indian summer, when the foliage and birds linger to challenge the coming winter. Nowhere on the American continent is there a spot more delightful than the World's Fair city, a garden of blooming flowers and spraying foun-

St. Louis, like all cities, experienced several hot days during July, but her highest temperature recorded was 93 degrees against 94 degrees registered by the thermometer at Chicago, On the same day the mercury rose to 16 degrees in Philadelphia, and scores of heat prostrations were reported from

New York and Boston. The relative humidity shows St. absolutely no moisture in the atmosphere to be zero and absolute wetness to be 100, the relative humidities for July. taken from the records of more than twenty years, Boston shows 70.6, New York 72.2. Philadelphia 68.6, Cincinnati 64.6, Chicago 66.9 and St. Louis 66.3. The same degree of heat in two places, with different degrees of humidity, would cause it to seem the hotter at the point of greater density. St. Louis may therefore rightly claim to be a summer resort this summer. positively one of the most comfortable and delightful places on the map.
