holders have arranged to receive visit ors. These houses are in every section of the city, and the rates at which guests will be received is a matter of record on the books of the bureau.

The Inside inn, a hotel on the Ex position grounds, has a capacity for 6,000 guests. The Exposition manage ment has control of the rates, which have been fixed at from \$1.50 to \$3.50 per day, European plan, including admission to the grounds. On the American plan the rates range from \$3 to \$5 per day. The hotel is 400 by 800 feet and is three stories high.

There are more than 150 established hotels in St. Louis, and a signed agree ment has been made between many of their managers with the Exposition officials that rates shall not be raised during the Exposition period. Many new hotels have been built on sites ad jacent to the Exposition grounds, and the published fixed rates warrant the assertion that no one need pay exorbitant rates for accommodations either at hotels or private houses.

Among the new hotels may be men tloned the Hotel Napoleon Bonaparte. which stands at Clayton avenue and Skinker road, overlooking the Exposition grounds. This hostelry will ac commodate 5,000 persons. The rates. #### Wild Dogs of Central Africa.

The wild dog of Central Africa, an explorer writes in the Chicago News, is common enough. He is an ugly looking beast, with a pied body, coarse hair, short head and large upright ears. These wild dogs play fearful havoc with game occasionally clearing out whole districts precisely in the same manner as the red dhole of India, before which even the tiger is said to retreat. They usually hunt in considerable packs, although I have met them in threes and fours. I have never heard of wild dogs actually attacking man, but they often behave as if on the point of doing so, and unarmed travelers have been literally treed by them be-
