**Teachers Meeting.**

The third teachers meeting in Ayr township was held at Jugtown school Friday evening, Nov. 4th. The meeting was called to order by the teacher, Miss Mae Mellett. Mr. W. H. Nelson was chosen president, next was election of secretary.

The following subjects were discussed by Mr. Gilbert Mellett and Miss Olive Kendall. 1. Tardiness—How can it be remedied. 2. How can we obtain the best results from local institutes as speaker or listener?

The recitations were carefully prepared and enjoyed by all.—Miss Katie Comeror gave a few selections on an autoharp. Next institute will be held at Corner school November 18th. The subjects to be discussed are: 1. The recitation—How conducted; Value of. 2. School Discipline. 3. Duties of patrons, teachers and directors.

**The World's Iron Deposits.**

Public attention has often been drawn to the alarming rate at which the coal supplies of the world, and especially of Great Britain, are being exhausted, says the London Telegraph. It is not so generally realized that iron ore deposits are disappearing at an equally, if not even more rapid rate. The leading manufacturing nations of Europe have used up their best ore bodies and are casting about for foreign sources of supply. This state of things exists also in the United States. Not long ago Pennsylvania and the eastern portion of the state of New York furnished a great part of the ore used in the States. These deposits are practically worked out. For a number of years the immense beds on the southern shores of Lake Superior have been worked, the output being remarkably rich in the percentage of metal; yet such is the rate of exhaustion that, according to recent computations, this vast store, so far as the better qualities of ore are concerned, will not last more than forty or fifty years. It has been reckoned that there are a billion tons of high quality; over 25,000,000 tons are taken out annually, so that after forty years what is left will be at depths which will greatly increase the cost of production. In the Northern States of the Union manufacturers already foresee the time when they may have to rely on the iron ores of the Dominion of Canada.

**THE ELECTION.**

Republicans Elect National and State Ticket.

Democrats Elect Entire County Ticket Except Sheriff.

The day was especially favorable to a large turnout and a large vote was polled. It was a battle royal among the politicians, and the result shows that there was much cutting done by both parties. The new form of ballots caused very many persons to lose their votes or to vote for only part of the ticket when they intended to vote it all.

While there is disappointment among the defeated, yet there is no more bad feeling than if the principal actors had been playing a game of checkers or pitching a game of horseshoes.

When a man goes into politics he takes hold of a game of chance. He puts up his cash, his time, and energy, well knowing that either he or his opponent must be defeated and when one finds that he has come out short it is better to take the matter philosophical.

The majorities in this county are as follows: Parker, 33; Thompson, 78; Bowers, 99; Sipes, 249; Swope, 144; Alexander, 94; Lauver, 240; Fore, 105. Judge Swope's majority in Adams county, 1,000.

The table shows the vote for the various candidates, and tells the story.

**ANXIOUS MOMENTS.**

Some of the most anxious hours of a mother's life are those when the little ones of the household have the croup. There is no other medicine so effective in this terrible malady as Foley's Honey and Tar. It is a household favorite for throat and lung troubles, and as it contains no opiates or other poisons, it can be safely given. Sold at Trout's drug store.

A Vermont man was sentenced to five years in the penitentiary for stealing \$9,000. A horse thief drew an eight years' term. They would probably hang a man for stealing a pig.

**They Had the Same Chance.**

The publisher of the "News" wishes to state right here that with reference to the communications concerning the judgeship which appeared in this paper last week, they were published with the knowledge of the Democratic chairman and a half dozen others of the leaders of the Democratic party, in this county, and that the same amount of space was placed at their disposal to be used for Mr. Duncan, and this, too, the week before the paper came out.

**A Policeman's Testimony.**

J. N. Patterson, night police man of Nashua, Ia., writes, "Last winter I had a bad cold on my lungs and tried at least a half dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." Sold at Trout's drug store.

There will be a local institute at Akeraville Friday evening, Nov. 18th.

Paralyzed and despondent, Mrs. Fannie Elridge, aged 67 years, a widow, committed suicide Tuesday afternoon at the home of her stepson, John Elridge, on the Downsville turnpike, three miles south of Hagerstown, by cremating herself alive. She was alone when she set herself on fire. Mrs. David Holmes, a neighbor, saw smoke pouring out of the upstairs windows. She hurried into the house and was horrified to find old Mrs. Elridge lying at the bottom of the steps in flames. She rushed from the house and alarmed the neighbors. Howard Richard, of Fairplay, who was driving by, notified her stepson, who, when he reached the house, found his stepmother burned almost to a crisp.

Once a new planet was discovered; thousands of interested people observed it through a telescope; certain so-called wise men heard of it, but refused to believe of its existence.
