RULED BY THE MOON.

Odd Beliefs by Dutch Farmers of North Carolina.

The Dutch farmers of Rowan county are among North Carolina's most prosperous and most interesting people. They live well, save money and improve in every way.

Before building a worm fence the Dutch always watch the moon, says the Charlotte (N. C.) Observer. It must be right or the fence will sink into the ground.

If one would cover his house well he must make the boards when the little moon is turned down. That is easy. The boards will keep their shape if riven then.

The moon must be right when a Dutchman kills his hogs. If the hogs are killed when the little moon is on the decrease the meat will shrink, but if killed when the little moon is on the increase it will swell.

To have good turnips one must plant on Israel's day—that is in August. If corn is planted when the little moon points up the ears will grow too near the top.

No work is done on Ascension day. It is a day of rest and pleasure. If the first visitor to a home that day is a man all the eggs that are setting will hatch roosters; if a woman, pullets will prevail.

It is not right to carry out the ashes between Christmas and New Year's day. That brings bad luck.

If a farmer puts out manure or fertilizer when the little moon points up it will stay, but if the little moon points down it will leach out.

There are a thousand and one of these signs and sayings if they could be collected. Many of them are met in other than Dutch communities.

Lived there a country boy in Mecklenburg who did not know how to treat his old hound for various short-comings? If when you got a new dog he will not stay with you cut the hair tip off his tail and bury it under the front steps, and then he will abide with you forever.

Nobody can take him from you. If you would have the dog love you better than he could any body else wear a bit of meat in the heel of your shoe a day and then give it to the dog to eat. It is strange doctrine, but true, for I have tried it. Some folks find it better to measure a dog with a stick and bury it under the steps than to nip the tail. Either way will do.

It so happens now and then that a fine dog refuses to bark at the tree. That sort of hunting is unscientific, for most of the hunter's time is wasted in hunt-

ing for the silent dog. That defect, however, is easily got rid of. The hunter goes to the woods and listens for the squeaking noise that is made by the rubbing together of two trees, gathers the bark from the point of friction, makes a soup of it and gives it to the dog. If anything will help him after he is grown that will. But if the puppy is taken in time there will be no silent dog at the tree. As soon as the puppy is large enough to stand the blow, the hunter should burst a green gourd over his head. That will make tree dogs—barking dogs. But I cannot refrain from giving a word of warning here. I hit one of my puppies too hard once and broke his head instead of the gourd.

In certain sections of the south there is a saying that if you will rub a teething baby's gums with warm rabbit's brains the teeth will come through the skin without difficulty. It was my good fortune once to see the trick tried. One day I was traveling in the lower part of Mecklenburg county when I saw two small boys running, carrying something. The youngsters were red in the face and hot. I could see that they were bent on purpose. The larger of the two, a red topped boy, was in the lead. He held in his hand something that he seemed to be jealous of and was trying to protect.

"What have you there, boy?" I shouted. "Rabbit brains—hot rabbit brains," was the quick reply. "What are you going to do with them?"

"We's going to rub sister's gums, so she kin cut teeth." I followed the boys and watched the operation. It was all right and I have learned since that teething was made easier by the act. The boys had chased that rabbit and killed him far afield.

But all that trouble could have been avoided had the child been supplied with a bag of moles' feet. If the mother will take the feet of a ground mole, sew them up in a sack and tie them around the baby's neck all will be well. I do not know why this is so, but it is. The baby must chew the rag.

A Startling Test.

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for dyspepsia, indigestion, constipation and kidney troubles. Try them. Only 50c at Trout's drug store.

Famous Men's Wives.

Byron married Miss Millbank to get money to pay his debts. Robert Burns married a farm girl with whom he fell in love while they worked together in the plough field.

Milton married the daughter of a country squire. He was an austere recluse, while she was a rosy, romping country lass that could not endure restraint (so they separated.) Subsequently, however, she returned, and they were tolerably happy together.

Shakespeare loved and wedded a farmer's daughter.

Washington married a woman with two children, and they lived as married folks should—in perfect harmony.

John Adams married the daughter of a Protestant clergyman. Her father objected on account of John's being a lawyer.

John Howard, the great philanthropist, married his nurse. She was altogether beneath him in social life and intellectual capacity, and besides this was 52 years old, while he was 26. Yet they lived happily until they died, which occurred two years afterward.

Peter the Great, of Russia, married a peasant girl. She made an excellent wife and a sagacious empress.

Humboldt married a poor girl because he loved her. Of course, they were happy.

Edward Lytton Bulwer, the English statesman and novelist, married a girl much his inferior in position and got a shrew for a wife.

Administrator's Notice.

Letters of administration on the estate of John M. Lodge, late of Brush Creek township, Fulton county, Pa., deceased, having been granted by the Register of Wills, Fulton county, Pa., to the undersigned, whose position is addressed to Meadville, Fulton County, Pa., a person who is indebted to said estate will please make payment, and those having claims will present them to

WHY YOU SHOULD VISIT THE WORLD'S FAIR.

The principal reason why a visit should be made to this greatest of Educational Expositions is on account of its educational value. A visit to the World's Fair is in itself a trip around the world, for fifty cents, the price of admission. The president of one of our greatest universities has said "To the bright student the Exposition is worth a thousand college lectures." The opportunity of a life-time is afforded in which to acquire, by a few days' sojourn at the Fair, an education which could not otherwise be received. The World's Fair Ground's cover over 1200 acres, being more than twice as large as those of the World's Columbian Exposition at Chicago.

Only a few weeks remain in which to take advantage of this great opportunity. Every day from now until the close of the Fair is a "special" day. The WABASH is selling daily excursion tickets to the Fair at greatly reduced rates; \$12.00 St. Louis and return, on sale daily, except Fridays and Saturdays. Tickets good in Palace Reclining Chair Cars; \$15.00, St. Louis and return. Tickets on sale daily, and good in either Palace Reclining Chair Cars or Pullman Sleepers. The WABASH operates through trains from Pittsburg to the World's Fair Main Entrance, all trains leaving the magnificent new passenger station, Corner of Liberty Avenue and Ferry Street, at 2:00 P. M. and 8:30 P. M. daily, City Time.

Detailed information regarding rates and train service, to St. Louis, as well as to many Home-seekers' points in the west, northwest and southwest, cheerfully furnished at Wabash City Ticket Office, 320 Fifth Avenue, Depot Ticket Office, Wabash Station.
