DeWitt's Zitt Salve For Piles, Burns, Sores.

Has 24 Fingers and Toes.

A colored girl baby was born at the Maryland General hospital last Saturday night which has six fingers on each hand and six toes on each foot. The mother of the infant is Agnes Garner. The fact that the child has 12 fingers and 12 toes is especially remarkable, because there is no malformation on either hand or foot. The fingers and toes are so symmetrical and perfectly formed that one would not notice the oddity at first glance. The two middle fingers and toes are, respectively, uniform in length, and this makes the peculiarity all the more deceptive. Monday the X ray was applied to the hands and feet, and it was found that the bones were perfectly formed and well developed. The hands and feet are larger than in newly-born children, but they do not appear so on account of the remarkable proportion between all the fingers and toes. Usually when a child is born with extra digits the odd ones are removed. In this case if the sixth finger or toe were removed the result would be a lesion and not a benefit to the symmetry of the hand or foot.

Beware of Counterfeits.

"DeWitt's is the only genuine Witch Hazel Salve," writes J. L. Cucker, of Centre, Ala., "I have used it in my family for piles, cuts and burns for years and can recommend it to be the best salve on the market. Every family should keep it, as it is an invaluable household remedy, and should always be kept on hand for immediate use."—Mrs. Samuel Gage, of North Bush, N. Y., says: "I had a fever sore on my ankle for twelve years that the doctors could not cure. All salves and blood remedies proved worthless. I could not walk for over two years. Finally I was persuaded to try DeWitt's Witch Hazel Salve, which has completely cured me. It is a wonderful relief." DeWitt's Witch Hazel Salve cures without leaving a scar. Sold at Trout's drug store.

Something Worth Knowing.

Medical men advise that salt be taken with nuts especially when eaten at night. "One time," says a writer, "whilst enjoying a visit from an Englishman, hickory nuts were served in the evening, when my English friend asked for salt, stating that he knew of the case of a woman eating heartily of nuts in the evening, who was taken violently ill. The celebrated Dr. Abernethy was sent for, but it was after he became rather too fond of his cups. He muttered 'Salt, salt,' of which no notice was taken. Next morning he went to the place and she was a corpse. He said that had they given her salt it would have relieved her. If they would allow him to make an examination, he would convince them. On opening the stomach the nuts were found in a mass. He sprinkled salt over this and immediately it dissolved. I have known of a sudden death myself which appeared to be from the same cause. I generally eat salt with mine and think it improves them."
