The Strength of Michael Angelo.

Michael Angelo relied almost en tirely upon form-the form of the figure and of the draperles, writes Charles H. Caffin in St. Nicholas. He told Pope Julian II., when the latter requested him to paint the ceiling of the Sistine chapel at Rome, that he was not a painter, but a sculptor; yet, after he had shut himself up for four years-from 1508 to 1512-and the scaffold was removed, a result had been achieved which is without parallel in the world. Very wonderful is the work which Michael Angelo spread over this vast area of 10,000 square feet. The fact that there are 343 principal figures, many of colossal size, besides a great number of others introduced for decorative effeet, and that the creator of this vast scheme was only 33 when he began his work-all this is marvelous, prodigious, and yet not so marvelous the variety of expression in the figures of which Jeremiah is only one figure, in a small side arch.

A HEALTHY OLD AGE OFTENTHE BESTPART OF LIFE

Help for Women Passing Through Change of Life

Providence has allotted us each at least seventy years in which to fulfill our mission in life, and it is generally

Nervous exhaustion invites disease.
This statement is the positive truth.
When everything becomes a burden and you cannot walk a few blocks with-

out excessive fatigue, and you break out into perspiration easily, and your face flushes, and you grow excited and shaky at the least provocation, and you cannot bear to be crossed in anything, you are in danger; your nerves have given out; you need building up at once! To build up woman's nervenus system and during the period of change of life we know of no better medicine than Lydia E. Pinkham's Vagetable Compound. Here is an face flushes, and you grow excited and Vegetable Compound. Here is an illustration. Mrs. Mary L. Koehne, 371 Garfield Avenue, Chicago, Ill., writes:

Garfield Avenue. Chicago, Ill., writes:

"I have used Lydia E. Pinkham's Vegetable Compound for years in my family and it never disappoints; so when I felt that I was searing the change of life I commenced treatment with it. I took in all about six bottles and it did me a great deal of good. It stopped my dizzy spells, pains in my back and the handaches with which I had suffered for months before taking the Compound. I feel that if it had not been for this great medicine for women that I should not have been alive to-day. It is apleadid for women, old or young, and will surely cure all female disorders.

Mrs. Pinicham, of Lynn, Mass., invites all sick and alling women to write her for advice. Her great experience is at their service, free of cost,

Better peaches, apples, pears and berries are produced when Potash is liberally applied to the soil. To insure a full crop, of choicest quality, use a fertilizer containing not less than to per cent, actual

one is a large draped turban of caif- far apart.-Newark Advertiser. skin, mottled brown and white. It is ined with white satin on the under brim, and is trimmed with a cluster of three white ostrich feathers.

Wraps a la Mode.

The reddish-blue shades of taffeta sitting opposite her with a newspaper tre to be made up in wraps and held up before his face, absorbed in coatees. As the fashion has run to reading. If he had given me a blow stainer and quieter effects in dress, between the eyes he could not have so it has taken a contrary course in hurt me more. I said nothing to him wraps. They cannot be too dainty or elaborate to be a la mode.

Why Bronze Slippers are Popular. Bronze slippers are gaining in popu-tarity in the lest shops, and many bronze tones are seen. Well posted name of the paper tarity in the lest shops, and many bronze tones are seen. Well posted leafers say that wonren like them be cause even a large size bronze slipper

looks comparatively small on a woman's foot-and this always appeals to am.-Shoe Retailer.

Spring Models in Hats. Hats in a very pretty combination of taffetas and straw are having a access for the already advanced spring models destined for Nice and Monte Violets and pansles are percaps the favorite flowers, but roses appear partout, and some of the new rails of bloom are extraordinarily life-

Lace Head Scarfs.

A lace gown accessory confined to vening wear is a Tambour scarf long and wide enough to cover the head after the fashion of a mantilla and to fall almost to the foot of the gown. Double lace frills edge the entire borfer and serve as an exquisite frame for a pretty face. The woman who wise advice that they were later colgoes with frequency to the opera and theatre, and who desires to avoid the risk of catching cold from being butess, will find this searf a gracefully pleturesque addition to her evening Jones, in the Housekeeper. For in-

Strange Weaves.

Strange weaves of velvet and velreteen looking like fur are made up into entire costumes that are effective. if a tride odd. One with the appearance of a moleskin has a flaring skirt litting close around the hips and trimmed with rows of pleated taffeta ribbon. The short, tight-fitting cont has such wide sleeves that they look lke shoulder capes; they also are trimmed with the pleatings of the taffeta, and the only relief to the sombre color is in the very striking waistout of orange cloth embroidered in black and silver.

For the Wee Folk.

The latest fashion in millinery for wee girls is the large white felt or beaver hat trimmed with big clusters of velvet and sllk roses to match the color of the little cloth or silk pelisse or coat. This particular fashion posesses a definite advantage, the roses being infinitely easier to match than the headgear itself, while a single hat can be made to do duty for two or three different toilets. Brown is, besides, much worn by the nursery folk. and in the case of little boys the brown hats are frequently trimmed with wide

For the Poster Girl.

The girl with the "poster craze" will appreciate the gift of one or two posters for her den on her birthday, and neat little hanger attached to each one will be greatly appreciated. Cut a small circle about one inch lu diamter from a white card-one end of an old-style visiting card will do. In the entre of this cut a circular hole threeighths of an inch in diameter, and through this pass a piece of baby ribbon two inches long. Paste the two ends of the ribbon together on the back f the poster, near the top, but do not let the ring show above. The circular hole will easily slip over a nail and the poster will hang flat against the wall.

Tinting Dress Goods.

A secret worth knowing is how to tint laces, chiffons, silk or crocheted buttons, feathers, slippers, gloves, etc., to a gown shade. The process is vonched for by the National Dressmakers' Association, from whose journal it is taken. The materials required. are oil paints in tubes and gasoline. The gasoline is placed in a porcelaluhow? and the paint is dissolved in it. The work has to be done quickly, and not only stimulates the circulation, but of course, in a tireless room. Mix the gathers dust out of the bair and so paint to the required shade in a saucer. comparing it with the goods till the ing all dust it leaves the hair free to ight color. When the exact tone is reached, mix with the gasoline and dip sible to have healthy, and so beautiful the lace or whatever is to be dyed balk, if the scalp is clogged by dust quickly before the paint falls to the bottom. Do not let the goods touch the bottom, as there might be a spot of paint there. A hairpin comes in be washed in soft water, rain water, if handily to hold the edge of the goods. possible; if not, then eity water with Shake out quickly and pin up to dry. It is well-to make a few experiments excellent shampoo for hair that rebefore risking costly material, but the process is really not at all formidable.

Separate Evening Waists Elaborate. The separate waist is claiming much attention, and it is not, by the way, tightly corked. attention which goes at all amiss. Lingerie is the term by which many of thoroughly with the shampoo it should these handsome models are known, and be rinsed with clear soft warm water never before have such stunning mod- and then with clear cold water and els been brought from abroad for thoroughly dried either in the sau or frail to don, and one might think by The thorough r the sheerness and fineness of the maferials used that they were made to impeded at the roots and the bair Itbe looked at simply. The contents of self does not "breathe" properly if grandmother's trunk or wardrobe are choked or clogged with slightest parthe modern maid has indeed been for is especially essential for only halr, tunate in having a dear grandmother which holds the moisture and accumu whose clothes she can wear, but many lates dust. The evening waist of fine lawn is going to be quite a popular model for the spring season when one wishes to dis- an ownce of borax; one pint of water. card the evening gown and many yards. Apply to the scalp night and morning of tine lace of all kinds are used as the with a soft sponge, rubbing the scaly decoration. Shirrs are used extensively until it is dry.

Of these extremely striking hats. entire yoke formed of these shirrs very

Important Little Things.

When my boy Frank had been marrled for a few weeks I dropped into his apariment one evening as he and his wife were at dinner. I discovered him sitting opposite her with a newspaper at the time. The next day I had a talk with my boy. He seemed to think that I was making a good deal out of i small matter, and he staggered me asked, and he shook his head. doesn't care much about the news," he replied. It took me a long time to make him see that his reading the newspaper at the table was a purely welfish act, not serious in itself haps, but certainly unfair to his table companion. The word unfair opened his eyes, for I have rubbed it into him all his life that unfairness of any kind is not only one of the most contemptible of all qualities, but one of the greatest causes of unhappiness between people. Fairness-that is the quality that keeps married people in harmony, just as it harmonizes all persons.-Everybody's Magazine.

Fashion and Health.

About a century ago there flourished in this country a gentleman with a large family of daughters with whom he was accustomed to correspond almest daily while they were away at lected for publication. From the viewpoint of our twentieth century wisdom some of the parental admonitions are stances, this: "My Doar Daughter-Though good benith is one of the greatest blessings of life, one should never boast of its possession. We so naturally associate the idea of feminine softness and delicacy with a corresponding deliency of constitution, that when a woman speaks of her great strength, her extraordinary appetite, her ability to bear exercise, fatigue, we recoil at the description in a way she is little aware of."

Science fashion rules us all, men and women alike; how delightful to think that nowadays it is fashionable to be healthy! In Beau Brummel's day, the mineing dandy, who found all exertion 'such a bore," held the centre of the singe. The hero, the heroine also, posed most of the time as an interesting invalid. He was always going to Bath or one of the German spas to "take the water." She was supposed to subsist entirely upon dainty tid-bits that would hardly have kept a canacy alive, and a predilection for anything so substantial as beefsteak and onlone would have been thought disgraceful. The athletic man and girl are the cea tres of popular admiration to-day. For once, fashion and common sense have Joined bands. Let us hope that the union will be a permanent one .- ta-

The essential thing is not so much that you should be born beautiful as that you should know how to achieve beauty.

Every woman whose features are not disfigured, whose skin is clear and whose blood is not congenitally thin. can achieve for herself a fair amount of good looks. Good grooming is the method, and good grooming just means making the most of one's personal ap-pearance. It means keeping the hair glossy and fluffy, the skin free from blemish or roughness, the hands well manicused and the teeth in perfect condition. It is as important to enitivate one's self as it is to cultivate one's garden or one's business.

And really nothing contributes to or akes from a woman's charm of appearance as the condition and dressing of her bair. Untidy hair, neglected hair: Inbecomingly arranged hair will destroy the beauty of features or color.

Always on taking down bair at night it should be brushed out straight, the scalp brushed for three or four minmics and the hair loosely braided to keep it from snarling. This brushing keeps the scalp clean, also by removreveal its majural lustre. It is impossible to have healthy, and so beautiful or dandout. Brushing and washing

will remove both. To theroughly clean the hair it must a pinch of pure borax to soften it. An quires thorough cleaning is compounded of: One onnce of powdered Castile soap; one cunce of borax; two tablespoonfuls of alcohol; beaten yolk of an egg; one pint of warm-water. Keep

After rubbing the hair and scalp thoroughly with the shampoo it should

The thorough rinsing of the bair is most casential, as the circulation is canned for just this sort of thing, and tiele of soap, egg, etc. Careful drying of the oldtime fabrics have not been and thorough drying will not destroy reproduced, and some of the new ones the greasy look of hair, then try the following lotion:

One drachm of bisulphite of quinine,

COMMERCIAL REVIEW

R. G. Dun & Co.'s "Weekly Review of

Trade" says: Weather conditions still dominate the trade situation. Low temperatures and deep snow have interfered with traffic and checked the revival of business that was well under way in most sections of the county. Retail distribution is not maintained, and the deleterious effects are visible in all outdoor work, while the interruption to movement of freight has affected manufacturing to some ex-

Prices of staple commodities at the schanges are advenced by the restricted receipts at primary markets. There is a partial offset in the largely increased demand for heavy weight earing apparel and oher Winter goods which promises to reduce supplies in all portions at the end of the season. Meanwhile there is evidence that confidence in the funce comains unshaken preparations for Spring and Summer trade continuing unabated, except where fuel or other supplies are temporarily blockaded in transit. Jobbing trade in dry goods is on a literal scale. Railway carnings thus far reported for Febru-ary were 1.0 per cent smaller than a year ago, probably unother result of had

Despatches from leading from and steel centers indicate no check to progress, except the temporary interrup-tion to output and delivery caused by storms and continued cold weather. Failures this week numbered 258 in the United States, against 287 last year, and 32 in Canada, compared with 20 a year

"Bradstreet's" says: Wheat, including flour, exports for the week coding February 16 are 536,540 bushels, against 987,775 last week; 1,057,310 this week ast year, 2,713,792 in 1003, and 3,000,435

Corn exports for the week are 2.842, 770 bushels, against 2,448,456 last week 1,201,846 a year ago, 3,730,457 in 1003 and 247,830 in 1002.

WORLD OF LABOR

Boston brushmakers are considering the organization of a union.

A woman was one of the competitors.
In a plowing comest lately held in Dec byshire, England.

The 1903 convention of the black-miths' union will be held in St. Paul, Minn, next October. One thousand girls and 1,500 boys be-tween the ages of 14 and 16 are employed

Detroit factories. Principals and assistant masters of schools in New Zealand are invariably men, whose salaries, run as high as

The general membership of the Briek-layers and Mason's Union has increased in five years from 35,000 to about 80,000, while the number of maions has doubled

it; the same time. Air engineer declares that 30,000 per sons now do the work with the aid of machinery which needed 16,000,000 per-

sons to do a few years ago.

The growth of membership of the Gigarmakers luternational Union in 1904 was about 5,000 and the funds of the union were increased by over \$100,000. Iames McMahon, president of the Blast Furnace Workers, says that the union will demand an eight-hour work-

ay on June 1.
If not another order is received by the fron and steel pipe mills throughout the West they will be kept bust for the next five or aix months to fill present orders.

THE OLD FOLKS AT HOME

Are Never Without Pe-ru-na in the Home For Catarrhal Diseases.

Under date of January 10, 1897, Dr. Hartman received the following letter:
"My wife has been a sufferer from a complication of the complete of Atkinson says, after tive years' experience with Peruna: "I will ever continue to speak a good word for Peruna. I am still cured of catarrh."--John O. Atkin-son, Independence, Mo., Box 272. complication of diseases for the past twen-ty-five years. Her case has baffled the skill of some of the most noted physicians. One of her worst frombes was chronic constipation of several years' standing. Mrs. Alla Schwandt, Sanborn, Mini

constipation of several years' standing. She was also passing through that most critical period in the life of a woman-change of life.

"In June, 1895, I wrote to you asked there ease. You advised a course of Perma and Mahalin, which we at once comenced, and have to say it completely cured her.

"About the same time I wrote you about had been of twenty-live years' standing. At times I was almost put going. At times I was almost put going. At times I was almost put going.

At times I was almost past going.
I commenced to use Peruna according to your Instructions and continued its use for about a year, and thas completely cured me."—John O. Ukinson.

In a letter dated January 1, 1900, Mr. benefit of his medical advice gratis.

Sheep in Argentina.

Argentina has the greatest number of sheep of any country, but derives relatively the least benefit from them. This is due, in part, to the quality not having yet been sufficiently refined. due in part to negligence in the care of the sheep, and lastly to the prevalence of scab, the curing of which has not been made obligatory. In Australia curing this disease was made comput sory thirty years ago.

Chance For a Reformer.

Some day a great reformer, in whose aspirations sense is duly blended with enthusiasm, will make and win a great fight for pockets in women's street clothes. Why woman does not have more and better pockets in her clothes is one of the mysteries of civilization. Harper's Weekly.

Denforas Cannot Be Cured

by to cal applications as they cannot reach the diseased portion of the sar. There is only one way to care deadness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbing sound or imperfect hearing, and when it is entirely close i Deafness is the cosult, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mneous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Canarrh Cor., Toledo, O. Sold by Druggists, 72.

Take Hall's Family Pilis for constipation.
