We Are Proud

of our new regulator, proud of its time keeping qualities, its nearest counterpart hangs in Broad Street Station, Philadelphia. During the past ten days it has not varied a fraction of a second from standard time as furnished by the Allegheny Observatory to the Cumberland Valley Railroad Company daily by wire. Its maker warrants the clock not to vary more than one second or less in thirty days. Our Chronometer in the window will always indicate the correct time as taken daily from our regulator.

We set and regulate your watches free. Last week we unpacked some very pretty pieces of gold Vienna Glass. This week there will come quite a collection of Hawkes Cat Glass.

All Visitors Welcome.
