AMERICA MAKES DEMAND

Venezuela Must Arbitrate the Asphalt

Dispute. MINISTER BOWEN PRESENTS NOTE.

Unless Castro Agrees to Refer Asphalt Controversy to the Hague Tribunal Other Methods Will Be Employed-May Call Extra Session of Congress-French Government Looking to United States.

Willemstad (By Cable).-The Venezuelan Government, it is announced from Caracas, has received a note from the American Minister, Mr. Bowen, requiring an answer as to whether Venezuela will arbitrate the questions pending, and saying that in case of a refusal the United States will feel free to take the steps which may be necessary to secure justice.

The Charge d'Affaires of the Netherlands has advised the Venezuelan Government that Holland will use coercive measures in view of the fact that she has been unable to secure the release from imprisonment in Venezuela of five Dutch sailors who have been illegally kept in prison for seven months.

Washington, D. C. (Special).-In calling upon President Castro for an answer to his proposition to submit to arbitration the issues between the United States and Venezuela, Minister Bowen is acting in accordance with specific instructions from the State Department which have recently been placed in his

Mr. Bowen made a proposition of this kind to the Venezuelan Foreign Office several months ago, and there was an exchange of notes on the subject, but its further consideration was cut off by the abrupt departure from the capital of President Castro at a moment when his

own decision was required.
The Venezuelan Government at that stage had made a counter proposition to Mr. Bowen looking to the arbitration of the dispute by The Hague tribunal, but with the important qualification that the tribunal should arbitrate as a preliminary the question as to whether or not the United States Government had the right under international law to intervene at all as between the Venezuelan Government and American concession-aires for their protection,

This was construed here as an attempt to bring into play the old Calvo doctrine, which the United States has resolutely and repeatedly refused to accept in its negotiations with the Southern republics.

Mr. Bowen reported to the State Department the fact of President Castro's

leparture, and asked for instructions,

These were prepared with great care, and after Attorney General Moody had, upon call from the President, furnished an opinion to the effect that the pro-ceedings in the Venezuelan courts involving the asphalt company's properties were so irregular as to amount practically to a derrial of justice. Therefore, Mr. Bowen was told to re-

new his proposition for a free arbitra-

tion of the issues between Venezuela and the United States at the first opporune moment, and this, it appears, he has now done. Besides the New York and Bermudez asphalt case, there are three other mat-ters which are suggested as proper subfield claim, also based on an asphalt concession; the claim of the Orinoco Steam Navigation Company, based on a vio-lated franchise, and the claim of the newspaper correspondent Jauratt for

damages arising from his summary expulsion from Venezuela. If President Castro rejects this last of-fer of Mr. Brown to arbitrate these cases, it is expected that he will promptly report that fact to the State Depart-ment, and it will be determined what

course to pursue. The Minister's presentment of this matter, therefore, is not an actual ulti-matum, for the way is still open for further negotiations if the Department decides that the time has not yet arrived to withdraw its Minister and adopt

some coercive measures. UNDER SUSPICION IN STANFORD CASE San Francisco Police Say They Will Be Able

to Salve Poison Mystery. San Francisco, (Special). -- It is announced at police headquarters that within the next 48 hours the mystery surrounding the presence of strychnine poison in the bottle of Poland water with which Mrs. Stanford quenched her thirst on the evening of January 14 at her California Street home will have been completely solved, and that possibly one

or two persons toward whom the strongest suspicion is directed will be arrested. The report of the local detectives just returned from Honolulu has been filed with the acting chief of police and the captain of dectectives giving the result of their investigations into the death of Mrs. Stanford at Honolulu. The report shows that the detectives made Dr. Humphris of Honolulu, who was in charge of the case, contradict himself on points so material that the detectives are unable to arrive at the conclu that murder was committed. their findings are to the effect that an overloaded stomach, a weak heart excited by overindulgence in exercise attending the aged woman's outing on the with strychnine improperly prepared, combined to bring about her death.
