

# HOW TWO BEAUTIFUL WOMEN ESCAPED PELVIC CATARRH BY AID OF PE-RU-NA.

## Female Weakness Is Usually Pelvic Catarrh. Pe-ru-na Cures Catarrh Wherever Located.

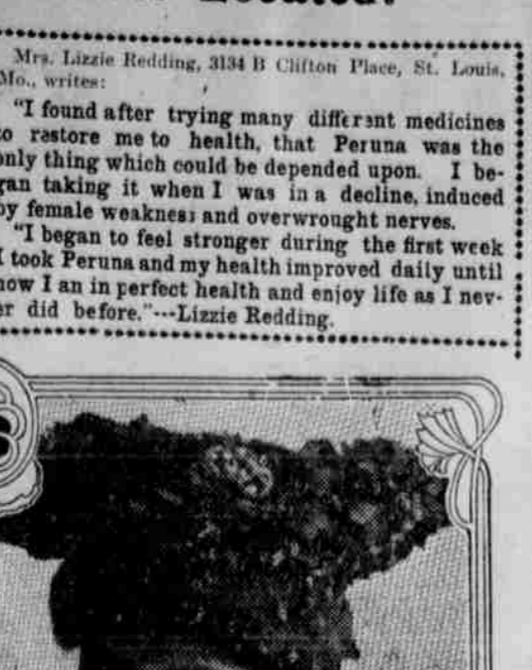

Mrs. Mable Bradford, 13 Church street, Burlington, Vt., Secretary Whittier Oratorio Society, writes:

"Peruna is certainly a wonderful medicine for the ills of women. I have heard it spoken of in the highest praise by many, and certainly my experience is well worthy of a good word."

"I began to have severe pains across my back about a year ago, brought on by a cold, and each subsequent month brought me pain and distress."

"Your remedy was prescribed, and the way it acted upon my system was almost too good to be true. I certainly have regained my health and strength, and I no longer suffer periodical pains and extreme lassitude."—Mable Bradford.

Mrs. Lizzie Redding, 3134 B Chilton Place, St. Louis, Mo., writes:

"I found after trying many different medicines to restore me to health, that Peruna was the only thing which could be depended upon. I began taking it when I was in a decline, induced by female weakness and overwrought nerves."

"I began to feel stronger during the first week I took Peruna and my health improved daily until now I am in perfect health and enjoy life as I never did before."—Lizzie Redding.

**Thousands of Women Cured Every Year by Correspondence—This is What Dr. Hartman Proposes to Do For You Without Charge.**

Women who suffer should read the evidences presented here. We have thousands of letters from grateful friends who tell the same story.

Half the ills that are peculiarly woman's own are of a catarrhal character. Female weakness was not understood for many years.

Dr. Hartman deserves the credit of having determined its real character. He has

made catarrh and catarrhal diseases, including pelvic catarrh, a life long study.

Peruna cures catarrh, whether of the pelvic organs or any other organ of the human body.

**Pe-ru-na, a Natural Beautifier.**

Peruna produces clean, plump, membranes, the basis of facial symmetry and a perfect complexion.

The women have not been slow to discover that a course of Peruna will do more toward restoring youthful beauty than all the devices known to science.

Many a girl has regained her faded beauty, many a matron has lengthened the days of her comely appearance by using Peruna.

**They Compromised.**

"Will you be my wife, Gwendolyn?"

"No, Charles. I think far too much of you for that. I still want your friendship. Let me be your stenographer. That is the only way in which I can submit to man's dictation."—Cincinnati Commercial-Tribune

**TRIPLE PLAYS ARE RARE.**

**But Two Men Have Pulled Them Off Unassisted.**

A triple play is one of the rare things in baseball, because it requires a combination of circumstances which seldom occur. There must be at least two men on the bases, and no one out. Then the next batter must hit the ball in a certain way, or the chance for a triple is lost. In addition to this, the fielding must be perfect and fast. But two triple plays, made by one man unassisted, have ever been recorded.

**STATE OF OHIO, CITY OF TOLEDO, Lucas County.**

FRANK J. CHENEY swears that he is senior partner of the firm of F. J. CHENEY & CO., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of CATARRH that cannot be cured by the use of HALL'S CATARRH CURE.

**Who Owns the Railroads?**

H. T. Newcomb, of the District of Columbia Bar, has compiled statistics showing that 5,174,718 depositors in savings banks of six Eastern States are directly interested in the joint ownership of \$442,354,086 of steam railroad securities, that insurance companies doing business in Massachusetts hold \$845,889,038 of steam railroad stocks and bonds, and 74 educational institutions depend on \$4,408,327 invested in similar securities for a portion of their income. Other fiduciary institutions own enough railroad securities to bring such holdings up to more than a billion and a half dollars, about one-sixth of the entire capital invested in railroad property. These investments represent the savings of the masses, there being twenty million holders of life insurance policies in the country, as many more of fire insurance policies, and an even greater number of depositors in banking and trust institutions, where investments are largely in railroad securities.

**Would Shock Her.**

"Papa, what would you say if Mr. Feathertop should ask your permission to marry me?"

"Put your fingers in your ears, my daughter, and I will rehearse a few of the remarks I shall probably make if he ever does."—Chicago Tribune.

**CHILDREN AFFECTED**

**By Mother's Food and Drink.**

Many babies have been launched into life with constitutions weakened by disease taken in with their mother's milk. Mothers cannot be too careful as to the food they use while nursing their babies. The experience of a Kansas City mother is a case in point:

**Foster Canadian Immigration.**

The Canadian authorities are in increasing their efforts to encourage immigration to the Dominion. They announce that their advertising at the recent world's fair caused a lively interest throughout the United States and is likely to be followed by an increased flow of immigration to the Canadian West.

**Followed by a Lioness.**

While a lady and gentleman were proceeding by ricksha from Salisbury to Ardennis on a recent Sunday evening they were considerably alarmed by seeing, soon after crossing the railway, a lioness cross their path some twenty-five yards ahead of them.

**On the Trail with a Fish Brand Pommel Slicker.**

"I followed the trail from base to Montana with a FISH BRAND Slicker, used for an overcoat when cold, a wind coat when windy, a rain coat when it rained, and for a cover at night if we got to bed, and I will say that I have gotten more comfort out of my slicker than any other article that I ever owned."

Being taken so much by surprise, they failed to check the boys, and proceeded on their journey. Shortly afterward they found the beast about ten yards in the bush on one side of them, and she proceeded thus for over a mile and a half. Fortunately, owing to the dirty and slippery condition of the roads, the boys' attention was confined to their work of impelling the vehicle in their charge, and they did not perceive the lioness.

**HIGHEST AWARD WORLD'S FAIR, 1904.**

**A. J. TOWER CO.**

**TOWER CANADIAN CO., Limited**

**TORONTO, CANADA**

It was thought that the very bright light which the boys were carrying kept the animal at a safe distance.—South Africa.

### RESTORED HIS HAIR

Scalp Humor Cured by Cuticura Soap and Ointment After All Else Failed.

"I was troubled with a severe scalp humor and loss of hair that gave me a great deal of annoyance. After unsuccessful efforts with many remedies and so-called hair tonics, a friend induced me to try Cuticura Soap and Ointment. The humor was cured in a short time, my hair was restored as healthy as ever, and I can gladly say I have since been entirely free from any further annoyance. I shall always use Cuticura Soap, and I keep the Ointment on hand to use as a dressing for the hair and scalp." (Signed) Fred K. Basche, 212 East 57th St., N. Y. City.

The position of women is high in Siam; they enjoy both in business matters and social life a great independence. Though polygamy is permitted, it does not exist among the great mass of the people, and in no way affects the position of women.

### Thompson's Eye Water

Plentiful, palatable, potent, taste good, does good. Never sickens, never irritates, never dries up the eye. Sold in bulk. The genuine is stamped "C.O.O. Thompson's Eye Water Co., Chicago or N.Y." Sterling Remedy Co., Chicago or N.Y. 1905 ANNUAL SALE, TEN MILLION BOXES

### THE KEYSTONE STATE

**Latest News of Pennsylvania Told in Short Order.**

During the excitement of a fire at the residence of Morris Evans, of Edwardsville, some one of the several persons who were trying to save goods and tossing what they could out of a bedroom window threw out a roll of bills. It fell at the feet of a man who took it, saying he would take care of it. No trace of the man has been found.

William E. Hughes, cashier of the Cudahy Packing Company, Pittsburg, was arrested on the charge of embezzlement made by an auditor of the company. He held under \$2000 bail for court. Auditor Snyder said that \$1700 is not accounted for on the deposit books.

P. J. McGuire, of Blairsville, is in jail at Clarion, charged with conspiracy, misrepresentation and fraud in the sale of the stock of the Butler corporation. A. E. Butler and Fred Stage, of Butler, are charged jointly with McGuire and are under bail.

Returning to his home in Frackville, after working all night, Isaac Bachman, a locomotive engineer, found his wife missing. A search of the premises revealed her dead body at the bottom of a fifteen-foot well. It is not known whether death was due to accident or suicide.

Flames that threatened the home of James E. Roderick, Chief of the State Department of Mines and Mining, in Hazleton, were extinguished by women who fought the fire with garden hose and buckets of water.

A bullet was removed from the end of the great toe of the left foot of Charles Fisher, 23 years old, a railroader, who had been shot in the right arm ten years ago by a negro boy. Fisher went to the Harrisburg Hospital, complaining of an itchy feeling in his right arm, which he thought came from being shot there many years ago. Surgeons made a thorough search of the right arm and continuing their search found the bullet lodged in the end of the great toe of his left foot. It is thought the bullet traveled through the man's entire body.

Several boys passing the home of A. S. Steller, superintendent of the dye works at Sunbury, noticed flames eating their way through a door at the rear of the house. By using their coats they succeeded in smothering the flames. It was found that a firebug had been at work, having saturated a bunch of waste with oil and then pushed it underneath the door. The residence is close to the dye works. The company operating the dye works has been opposed to employees joining the Textile Workers Union and recently discharged fifty hands for taking part in such a movement.

The Messeaux Board of Education has approved a plan for a school garden at the Iowa School. An acre of ground in the rear of the school will be plowed and fertilized at once. It will be a community garden where all will work and plots will be assigned to scholars. The pupils will market the truck and the proceeds will go toward the expense incurred.

Mrs. Jane Davenport Van Loon, the oldest resident of Plymouth, died, aged 90 years. She died in the same house where she was born. Death came suddenly of heart disease, and half an hour before she was sitting up. She was the wife of a former Sheriff of the county and was the mother of thirteen children, only two of whom survive.

The Cumberland Valley Railroad Company has purchased the Chambersburg & Gettysburg Electric Railway Company, which includes the trolley line in Chambersburg, and the road to Fayetteville and Graeffenburg. The line will be extended to Waynesboro by making a trolley line of the Mont Alto Railroad. Eventually this means connection with the Valley Traction Company's line to Harrisburg.

A fire, apparently of incendiary origin destroyed all the farm buildings on the dairy farm of George Smith, in North Conestoga Township, Chester county. Twenty-one head of Holstein cows, together with crops, wagons and agricultural implements, were burned. The loss amounts to about \$8,000, partially covered by insurance.

Charged with placing obstructions on the tracks of the Lehigh Valley Traction Company, near Slatington, Thomas O. Williams, of that place, had a hearing before Justice H. A. Schertzinger, of Slatington, and was remanded for trial at court. When arraigned Williams became violently abusive, and in insulting remarks at the Justice, who finally became impatient and, leaving over the office rail, severely thrashed the prisoner. Williams is said to have been intoxicated at the time when he placed the obstructions on the tracks.

Gas was struck on the property of the Pittsburgh Forge & Iron Works in Wood's Run, Allegheny. The well reached a depth of about 1,750 feet, when the gas was struck. The pressure is said to be about seventy-five pounds and is sufficient to operate the plant. The company has been operating seven furnaces in the mill with gas from another well which was drilled six months ago. This well has an output of about 200,000 feet of gas a day.

Walter Young Schreffler, aged 11, of Reading, sent a revolver bullet into his heart, dying instantly. The boy had been in ill health for some time and was unable to attend school. This preyed upon his mind and he became melancholy. The coroner is endeavoring to determine whether the shooting was accidental or suicide.

David Culp was rescued after being entombed for ten hours in a breast in the Cameron mine, Shamokin. A big rush of coal had made him prisoner. A brother who worked with him was at the bottom of the mine chamber at the time and gave the alarm. Shortly before he was released the rescuers heard him rapping. He escaped uninjured, but was almost dead for want of air.

The York Cold Storage Company has arranged to store 150 carloads of eggs. Each car will hold 400 cases and each case 350 eggs. The total number of eggs stored will be 21,000,000.

The new Norristown Odd Fellows' building will be dedicated on April 23. Grand Master Robert Graham, presiding.

Patrick Corvey, watchman at the Cherry Street crossing of the Reading Railway, at Conshohocken, was struck by a train and died while being taken to the hospital.

J. K. Taylor Post No. 182, Grand Army of the Republic, of Bethlehem, has decided to prosecute all persons who are wearing Grand Army buttons and who are not members of the organization. A law imposes a fine of \$50 for this offense.

### THE STRAIN OF WORK.

**Best of Backs Give Out Under the Burden of Daily Toil.**

Lieutenant George G. Warren, of No. 3 Chemical, Washington, D. C., says: "It's an honest fact that Doan's Kidney Pills did me a great lot of good, and if it were not true I would not recommend them. It was the strain of lifting that brought on kidney trouble and weakened my back, but since using Doan's Kidney Pills I have lifted 600 pounds and felt no bad effects. I have not felt the trouble come back since, although I had suffered for six or six years, and other remedies had not helped me at all."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y.

### Dog Went 300 Miles Alone.

The remarkable attachment for its home place is shown in the case of Carlo, a fine water spaniel belonging to James Dingman, who several weeks ago left Stoud, O. T., for Idaho. Carlo was tied in one of the cars with the stock.

He stood the trip for 300 miles, but the desire to get back to the old home place evidently grew upon him. Mr. Dingman thought it was safe to untie the dog, but so soon had the animal been loosened that it jumped out of the car and made a bee line for Stoud. It never stopped until it had traveled the whole 300 miles, and reached home almost starved.—Kansas City Times.

### Crowing Competitions.

The feature of an entertainment held at Silverton, Devon, England, was a cock-crowing competition. Owners of birds had to bring them to the village schoolroom and set them a-crowling one against the other. For those cockerels which crowed the loudest and longest prizes were given. The winner easily beat all comers, crowing fifty-one times in seventeen minutes. The second and third birds crowed forty-one and thirty-three times respectively in the same time. Belgian workmen are fond of cock-crowing competitions. The other day one well-trained bird crowed no fewer than 463 times in the course of an hour.

### Big Bag of Jack Rabbits.

Thirty-nine jack rabbits were killed the other night at one shot by Mrs. William Boyd of Miller, S. D., who poked the barrel of her shotgun through the kitchen window. The rabbits came to the farm in droves, nibbled at the haystacks and played havoc with fruit trees. Boyd had shot many and his wife bet him a pair of car muffs against a barrel of apples that she could kill more rabbits at one shot than he could carry on his back at one load. Mrs. Boyd sprinkled a bushel of oats in a path. The rabbits gathered by scores until there was a long row of them eating oats in the bright moonlight. The woman fired, and her aim was accurate. Boyd freed himself down with more than 100 pounds of dead rabbits, then saw into the snow and his wife had to pull him out.

### Errors Made by Geologists.

The construction of the great Simplon tunnel has proved once more that geology is largely a matter of theories which may or may not fit actual conditions, even close to the surface of the earth. The engineers have discovered that the geologists were entirely at fault as to the temperature which would be encountered, missing the mark 25 degrees at the point where hot water was found. The water conditions in general were unlike those predicted, and the engineers found that the dips in the rock strata, which had been declared on theory to be mainly vertical, were, in fact, horizontal.

More than half of Russia's export profits come from the sale of grain.

Mrs. Winslow's Soothing Syrup for children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, etc., a bottle.

Itch cured in 30 minutes by Woolford's Sanitary Lotion, Never Fails. Sold by all druggists, 21. Mail orders promptly filled by Dr. E. Detelson, Crawfordville, Ind.

Carl Beers, of Bangor, Me., runs a worm farm. He raises them for bait.

### OPERATION AVOIDED

**EXPERIENCE OF MISS MERKLEY**

She Was Told That an Operation Was Inevitable. How She Escaped It.

When a physician tells a woman suffering with ovarian or womb trouble that an operation is necessary, the very thought of the knife and the operating table strikes terror to her heart, and our hospitals are full of women coming for ovarian or womb operations.

There are cases where an operation is the only resource, but when one considers the great number of cases of ovarian and womb trouble cured by Lydia E. Pinkham's Vegetable Compound after physicians have advised operations, no woman should submit to one without first trying the Vegetable Compound and writing Mrs. Pinkham, Lynn, Mass., for advice, which is free.

Miss Margaret Merckley of 373 Third Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham—

"Loss of strength, extreme nervousness, shooting pains through the pelvic organs, bearing down pains and cramps compelled me to seek medical advice. The doctor, after making an examination, said I had ovarian trouble and advised an operation. To this I strongly objected and decided to try Lydia E. Pinkham's Vegetable Compound. The ulceration quickly healed, all the bad symptoms disappeared and I am once more strong, vigorous and well."

Ovarian and womb troubles are steadily on the increase among women. If the monthly periods are very painful, or too frequent and excessive—if you have pain or swelling low down in the left side, bearing down pains, leucorrhoea, don't neglect yourself! Try Lydia E. Pinkham's Vegetable Compound.

## GOOD LUCK

Get Double Returns on your money by saving the freight-car coupons on Good Luck Baking Powder can labels. In exchange for them we send you free your choice of 50 useful premiums—valuable articles of jewelry, dress and house furnishings. The Premium Book found in each can tells all about them.

The absolute, unquestioned purity of

## GOOD LUCK Baking Powder

is another reason why you ought to use it. It is so pure—its leavening force is so great—that it takes only a heaping teaspoonful to a quart of sifted flour to produce the finest results. The lightest, whitest baking is sure to follow the use of Good Luck—lightest, because it generates most gas; whitest, because of its freedom from all adulteration. It is the least expensive, too—costs only ten cents a pound. Send us your grocer's name if he doesn't sell Good Luck—we'll see that you get it.

THE SOUTHERN MFG. CO., Richmond, Virginia.

CUT OUT THIS CAR AND SAVE IT. THEY ARE GOOD FOR VALUABLE ARTICLES. SEE LIST IN EACH CAN. ADDRESS: THE SOUTHERN MFG. CO., DEPT. 10, RICHMOND, VA., U. S. A.

## Truths that Strike Home

Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the bulk coffee he sells you. How can he know, where it originally came from, how it was blended—or with what—or when roasted? If you buy your coffee loose by the pound, how can you expect purity and uniform quality?

### LION COFFEE, the LEADER OF ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For over a QUARTER OF A CENTURY, LION COFFEE has been the standard coffee in millions of homes.

LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or unclean hands.

In each package of LION COFFEE you get one full pound of Pure Coffee. Insist upon getting the genuine. (Lion head on every package.)

(Save the Lion-heads for valuable premiums.)

**SOLD BY GROCERS EVERYWHERE**

WOOLSON SPICE CO., Toledo, Ohio.

## GOOD POTATOES BRING FANCY PRICES

To grow a large crop of good potatoes, the soil must contain plenty of Potash. Potatoes, melons, cabbage, turnips, lettuce, cauliflower, all vegetables require large quantities of Potash from the soil. Supply.

## Potash

liberally by the use of fertilizers containing not less than 10 per cent. actual Potash. Better and more profitable yields are sure to follow.

93 Nassau Street, New York.

### Police Bar.

In a certain Russian town the police have been obliged, according to a correspondent, to confiscate every typewriter in the place. These machines are said to be regarded in Russia as dangerous organs of sedition. They are convenient instruments for the dissemination of literature of which the government does not approve. So every typewriter is registered, its address is known to the police and it is liable to be arrested on suspicion at any moment.

Hand is the sign of a superior man.

### A Big Egg.

A. D. Wilbur, of this village, had a Cochon hen that for several days had been laying double-yolk eggs. Finally she laid one seven inches around by nine inches lengthwise, and weighing five ounces. Wilbur supposed it to be another double-yolk, but found on opening it that the outer shell contained only the white, while inside was another perfectly round egg with a hard shell, which contained the yolk. Poultry papers say this is the largest egg ever known.—Catskill (N. Y.) Ctr. New York World.

### PENSION FORAGE.

A new order will give pension for age. Write me at once for blanks and instructions. Free of charge. No Pension, No Pay. Address: W. H. WILLS, Willis Building, 312 Indiana Ave., Washington, D. C. Patents and Trade-Mark registered.

### AGENTS WANTED
