BODY WILL BE DISINTERRED.

Remains of Pocahontas to Be Brought to America.

After reposing for many decades in the soil of England, the body of the Indian princess, Pocahontas, will be brought to this country and buried on Jamestown Island, the site of the first English settlement in America.

This, according to General Fitzhugh Lee, president of the Jamestown Exposition Company, will be one of the most interesting events of the exposition to be held two years hence, to celebrate the landing at Jamestown.

It is stated that Pocahontas, who married Rolfe, was buried at Gravesend, and that her resting place has been kept in repair. Influential people in England are leading their aid to further the removal.

Forget About Your Stomach.

If your digestion is bad the vital organs of your body are not fed and nourished as they should be. They grow weak and invite disease. Kodol Dyspepsia Cure digests what you eat, cures indigestion and all stomach troubles. You forget you have a stomach from the very day you begin taking it. This is because it gets a rest—recuperates and gradually grows so strong and healthy that it troubles you no more.

E. L. Babcock, Amherst, Minn., says: "I have taken a great many remedies for indigestion but have found nothing equal to Kodol Dyspepsia Cure." Kodol digests what you eat, cures indigestion, dyspepsia, sour stomach, belching, heartburn and all stomach troubles. Its preparation is the result of many years of research. Sold at Trout's drug store.

Full of Tragic Meaning.

are these lines from J. H. Simmons, of Carey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough, disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for consumption, coughs and colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At Trout's the druggist; guaranteed; 50c and \$1.00. Trial bottle free.

Incident of Webster's Boyhood.

It is related that Daniel Webster, when a boy, and his elder brother, Ezekiel, were allowed on one occasion to go to a fair in a neighboring town, and each was furnished with a little money from the slender store at home. When they returned in the evening Daniel was radiant with enjoyment; Ezekiel rather silent. Their mother inquired as to their adventures, and finally asked Daniel what he did with his money. "Spent it," was the reply. "And what did you do with yours, Ezekiel?" "Lent it to Daniel."

MUNCIE, INDIANA.

Former Fulton County Boy, Writes of One of Indiana's Busy Towns.

Muncie, Ind., April 2, 1905. Editor News:—Through the kindness of some one, I am receiving the Fulton County News, and I very much appreciate it. In its columns I see many names of people and places I was once acquainted with; and the happenings in, and descriptions of, the different parts of the country in which they live; and it has just occurred to me that, perhaps, your readers would be interested in knowing something of this part of the country.

The city of Muncie is situated in Delaware county, Indiana, on White river, a small stream that flows southwest into the Wabash near old Vincennes. We are 52 miles east of Indianapolis, 120 miles northwest of Cincinnati, and 60 miles south of Fort Wayne. We have a population of 35,000. Sixteen years ago this city was just a country town of 5,000, but, at that time gas was struck and manufacturers rushed here, and to other towns in the gas belt, on account of cheap fuel, which caused our city to grow to its present size; but the supply of gas has been exhausted, and manufacturers have gone back to coal.

But little inconvenience was felt in the failure of gas, as it was followed by an abundant flow of oil, and to-day we are in the centre of the best oil field in the State, with headquarters here for oil well supplies, boiler shops, tank shops and drillers' tools. Besides this, we have a number of large manufacturing plants. There are four iron and steel mills. One of these, the American Sheet Steel Mill, paid out to their employees on Saturday, April 1, \$40,000 for two weeks' work. We have the Palmer iron mill, that came here from Chicago; the Kitzelman wire mills, nail and fence factory combined; then, we have the Wintely Malleable Castings Company, a large concern that came here from Springfield, Ohio.

We have an iron bedstead factory employing 175 men; and among the other large industries, are 3 glass factories—one of which has an output per day of 300,000 Mason fruit jars. This is the largest fruit jar factory in the United States, and they buy the output of two other small factories to fill their orders. These jars are shipped to all parts of the world. Among the other smaller concerns are 3 planing mills, large wheel works, lawn mower factory, pulp mill, straw board, bending works, knitting mill, 2 washing machine factories, lawn swing and baby jumpers, garment factory, casket factory, 2 silver plating works, 2 saw mills, 2 flooring mills, 2 ice plants, 2 foundries, 1 canning factory.

Of railroads, we have six—The "Big 4," Main line East and West; Lake Erie & Western, east and west; Lake Erie & Western, north and south; Chicago and Eastern Indiana; Chicago, Cincinnati & Louisville; and Midland, south-west to Brazil. Then we have 3 electric lines—two from Dayton, Ohio; one from Fort Wayne; and the Union Traction from Indianapolis. Yet with all these things, they don't throw money at the birds. The most independent cuss of the whole gang is the farmer with a few good oil producers on his farm. You will see him in town almost any day, and all he will talk about is oil.

Not wishing to weary you or your readers further I will close. D. GRACEY.
