

LIEUTENANT BOWMAN

IN FORTY-EIGHT HOURS PE-RU-NA CURED HIM.

Cold Affected Head and Throat - Attack Was Severe.

Chas. W. Bowman, Lieut. and Adjt. 4th M. S. M. Cav. Volts., writes from Lanham, Md., as follows: "Though somewhat averse to patent medicines, and still more averse to becoming a professional affidavit man, it seems only a plain duty in the present instance to add my experience to the columns already written concerning the curative powers of Peru-na."

"I have been particularly benefited by its use for colds in the head and throat. I have been able to fully cure myself of a most severe attack in forty-eight hours by its use according to directions. I use it as a preventive whenever threatened with an attack."

"Members of my family also use it for like ailments. We are recommending it to our friends." - C. W. Bowman.

Pe-ru-na Contains No Narcotics.

One reason why Peru-na has found permanent use in so many homes is that it contains no narcotic of any kind. It can be used any length of time without acquiring a drug habit.

Boasts of Her Ugliness.

Up to the present time Mlle. Polaire, the French actress, held the distinction of being the only woman in the world who boasted of her ugliness. The divorce courts of New York have developed a full-sized rival. On the stand Mrs. Martha Pierce exclaimed: "I know I am ugly—that is why I lost my husband's love!" This experience is quite contrary to the dictum of the great French sage, Balzac, who said: "The ugly woman who has won the love of a man keeps it always."

Popular Cars.

The Pope-Hartford and Pope-Tribune gasoline cars and runabouts meet the specific demands of a large class of automobile users. They are simple in construction, free from complication and efficient. Prices from \$250 to \$1600. For finely illustrated catalogues and descriptive matter, address Dept. A, Pope Manufacturing Co., Hartford, Conn.

Rich cured in 30 minutes by Woolford's Sanitary Lotion.

London's new county hall, on the Thames, will cover 5.6 acres.

GOOD POTATOES BRING FANCY PRICES

Potash

Letuce is a salad plant, a salubrious greens, extensively forced in greenhouses during the winter, and in hotbeds and cold frames in early spring. It can be sown from spring till fall, and is remarkable for being able to stand quite severe frosts.

BAD BREATH

Cascarets

Everybody is supposed to know how to make a bran mash, but it is only in racing stables that it is done properly. To make a bran mash, first wash out a bucket with boiling water, then pour in the quantity required, say three pints, and stir in three pounds of bran, cover up and leave it for a couple of hours or more is not required for immediate use.

PENSION FOR AGE

A new order will give pension for age. Write me at once for pension for age. Free of charge. No blanks. No pay. Address W. H. WILLS, Willing, 312 Indiana Ave., Washington, D. C. Building and Trade-Mark Sold.

The Farm

Best Cure For Lameness? A roomy yard or large box stall is a better place for a horse requiring rest on account of lameness than a grass field. Very often the rest may be rendered more complete by judicious surgical shoeing, which throws the parts actually involved into a state of rest.

The horse is nocturnal in his habits, he can graze and get about comfortably in a low medium of light, if he cannot actually "see in the dark," as he is popularly supposed to be able to do, and he can get food, moderate exercise and the beneficial effect of night dew and damp grass to his feet, and is subject to no disturbance.

Sheep a Safe Investment. A Wisconsin man, long interested in sheep, says that the number of sheep in this country this year is 9,000,000 short of last season. This means a great deal, and it signifies that it will be safe to engage in the sheep industry at the present time, as it is bound to take from five to seven years to breed up and regain this loss.

How Some Crops May Be Doubled. Fertilizer experiments are being conducted under the direction of the Purdue University experiment station on the ten-thousand-acre farm of the American Farm Company, in Newton County, Ind., which will eventually lead to the reclamation of the thousands of acres of muck land in Indiana and also will be instrumental in reclaiming the muck lands in the Kan-kakee swamps of Illinois.

Another thing about the Leghorns is that they are timid and must be treated with consideration, so that it is a good plan to give the flock over to the care of one person and keep other people away from them; they must also be fed regularly for best results.

A German's Poultry Farm. A writer recently saw a successful poultry farm on which there was not a single regulation poultry-house. The buildings for the poultry were constructed entirely from dry goods boxes bought at a neighboring town for small sums.

There are hundreds of thousands of acres of muck land in Indiana and the importance of the experiments can readily be seen when it is shown that the results are the saving of thousands of dollars to the farmers of the State.

Letuce is a salad plant, a salubrious greens, extensively forced in greenhouses during the winter, and in hotbeds and cold frames in early spring. It can be sown from spring till fall, and is remarkable for being able to stand quite severe frosts.

Letuce thrives best in clay loam soil well treated with well-rotted barnyard manure. In early spring the seed is sown in rows a foot apart and thinned to stand about six inches apart in the row.

Everybody is supposed to know how to make a bran mash, but it is only in racing stables that it is done properly. To make a bran mash, first wash out a bucket with boiling water, then pour in the quantity required, say three pints, and stir in three pounds of bran, cover up and leave it for a couple of hours or more is not required for immediate use.

Try to keep a record of your best layers and, if possible, save your pullets from them, always discarding the inferior layers. Thus you may build up a laying strain of whatever variety you may keep. But there is a limit that should be kept in mind. Hens that are kept laying through the winter should not be expected to continue a high record through the spring and summer.

Mr. James McKenna, who was naturalized in 1868, has just found that in his papers he is made to forswear allegiance to the King of Italy. He indignantly requests the United States District Court, San Francisco, to set the papers right, declaring that he never had anything to do with Italy.

During the last year the Canadian government has paid out in steamship subsidies a little less than \$2,000,000. These subsidies have been paid partly for mail purposes, and partly, apparently to establish commercial connections.

COMMERCIAL REVIEW.

R. G. Dun & Co.'s "Weekly Review" of trade says: Weather irregularities provided the only check to business, partly through the direct effect on retail distribution of seasonal wearing apparel, but more through the development of caution among traders in some agricultural sections where crops have been damaged or farm work retarded.

On the whole, however, encouraging progress is shown in most trade reports and industrial activity is unabated. Textile manufacturing is in a better position than at any recent date, the strength of the raw materials giving additional firmness to finished fabrics.

Footwear factories in New England are well engaged, and there is no reduction in the forces at work in the various departments of the iron and steel industry.

Aside from the Chicago strike, there is exceptionally little friction between capital and labor, many higher wage scales going into effect during the week. Returns are well maintained, railway earnings for April exceeding last year's by 10 per cent, and lake navigation is heavy.

Coke prices are depressed by unprecedented production, but consumption is on a scale that precludes the possibility of any excessive accumulation in the near future.

Failures this week in the United States are 212, against 204 last week, 204 the preceding week and 207 the corresponding week last year. Failures in Canada number 22, against 15 last week, 21 the preceding week and 27 last year.

"Broadstreet" says: Wheat, including flour, exports for the week ended May 4 are 1,279,804 bushels, against 1,260,316 last week, 1,192,718 this week last year, 3,201,680 in 1903, and 3,302,240 in 1902. Corn exports for the week are 2,715,676 bushels, against 1,885,766 last week, 523,451 a year ago, 1,631,709 in 1903, and 126,755 in 1902.

WHEAT—Firm; spot, contract, 93 3/4 @ 94 1/4; spot, No. 2 red Western, 93 3/4 @ 94; April, 92 @ 93 3/4; May, 92 1/2 @ 93 1/2; July, 83 1/2 @ 85 1/2; August, 82 1/2 asked; steamer No. 2 red, 85 1/4 @ 85 3/4; receipts, 1,381 bushels; Southern by sample, 75 @ 92; Southern on grade, 83 1/2 @ 93 3/4.

CORN—Firm; spot, 51 @ 51 1/4; April, 51 @ 51 1/4; May, 51 @ 51 1/4; July, 51 3/4 @ 51 1/2; September, 51 3/4; steamer mixed, 47 1/2 @ 47 3/4; receipts, 16,786 bushels; export, 102,857 bushels; Southern yellow corn, 48 @ 51; Southern yellow corn, 49 @ 52 1/2.

OATS—Dull; No. 2 white, 36 @ 36 1/2; No. 2 mixed, 34 sales; receipts, 3,137 bushels.

RYE—Dull; No. 2 Western, 85 asked; receipts, 725 bushels.

HOGS—Good to choice State hogs, 5 70 @ 5 85.

MUCH IN LITTLE. The average Japanese is better bathed than the average Britisher. Wrinkles are poetically termed by the Japanese "waves of old age."

There are 374 towns, cities and villages in Spain now lighted by electricity. Modern Japanese coins and banknotes bear legends in English as well as in Japanese.

The open spaces of London measure 21 1/2 square miles. The aggregate cost each year of the maintenance of the parks is less than a quarter of million sterling.

Making Railroad Rates in the Playing

game of checkers or chess. Communities to be benefited, producers, manufacturers or shippers to be aided represent the pieces used. Every possible move is studied for its effect on the general result by skilled traffic managers. A false move in the making of freight rates may mean the ruin of a city, of a great manufacturing interest, of an agricultural community. Railroads strive to build up all these so that each may have an equal chance in the sharp competition of business.

So sensitive to this rivalry are the railroads that in order to build up business along their lines they frequently allow the shipper to practically dictate rates. Rate making has become a matter of development; of mutual concessions for mutual benefit. That is why the railroads of the United States have voluntarily made freight rates so much lower in this country than they are on the government-owned and operated railways of Europe and Australia that they are now the lowest transportation rates in the world.

The People's Schools. The schools belong to the people and will be what the people make them. It is a mistake to suppose that school officers and teachers are the only ones that have to do with the making of the schools. The people set the pace for the teachers and school officers.

If a school officer does not meet the ideals of the people he is turned out at the first election. If a teacher does not meet the ideals of the people the teacher is quickly reached through the school officers. So it gets back to the people in the end. The man that thinks the schools are not good enough should set himself about having them improved.

It is astonishing how much one person can do to improve the schools when he sets himself about it.—Henry F. Thurston.

Time Files. A small boy who was waiting with his mother in a twelve-story office building on Chestnut street the other day, watched with fascination an indicator which showed by a pointing hand on a dial, where the mounting car was. "Mamma," he said, "now I know why everybody here hurries so. Just look how fast that clock goes!"—Philadelphia Record.

How's This? We offer One Hundred Dollars Reward for anyone who can locate a cure for Hay Fever, Catarrh, Croup, etc.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

W. A. TRUAX, Wholesale Druggists, Toledo, O. WALKER, GUNN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75c per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

Schiller's Father's Wish. Apropos of the Friedrich Schiller centenary it is interesting to recall that when the news of the birth of the poet reached his father, the latter besought God to bestow upon the boy "those gifts of mind and soul to which he himself, through lack of education, had never attained."

CAPT. GRAHAM'S CURE. Sores on Face and Back—Tried Many Doctors Without Success—Gives Thanks to Cuticura.

Captain W. S. Graham, 1321 East St., Wheeling, W. Va., writing under date of June 14, 1904, says: "I am so grateful I want to thank God that a friend recommended Cuticura Soap and Ointment to me. I suffered for a long time with sores on my face and back. Some doctors said I had blood poisoning, and others that I had barbers' itch. None of them did me any good, but they all took my money. My friends tell me my skin now looks as clear as a baby's, and I tell them all that Cuticura Soap and Cuticura Ointment did it."

Young Rockefeller's Training. At Brown university, where John D. Rockefeller, Jr., was graduated in the class of 1897, tales are still told to show how his father impressed on him the same scrupulous regard to detail that made the Standard Oil Company successful. One day when John Jr., was down in the city of Providence with a couple of girls, he took them into a convenient drug store and treated them to ice cream soda. After he had paid the checks and before he left the store he surprised his fair companions by pulling out a pocket memorandum book and entering: "Three ice cream sodas, thirty cents."

W. J. Hill, of Concord, N. C., Justice of the Peace, says: "Doan's Kidney Pills proved a very efficient remedy in my case. I used them for disordered kidneys and backache, from which I had experienced a great deal of trouble and pain. The kidney secretions were very irregular, dark colored and full of sediment. The Pills cleared it all up and I have not had an ache in my back since taking the last dose. My health generally is improved a great deal."

Poster-Milburn Co., Buffalo, N. Y. For sale by all dealers, price 50 cents per box.

Sassafras Tea His Tonic. The odor of the sassafras tea circulates around the private office of Acting Secretary Ade in the state department, Washington, these days. Two months in the year Mr. Ade drinks tea, but in March and April he brews sassafras by way of spring medicine. He has a tiny brewing outfit tucked away in his desk and when the thirst comes upon him he boils a little water and makes him a cup of tea. And no matter what weighty international problem is under discussion Mr. Ade sets it aside for a few minutes when the time for such refreshment arrives.

MOTHERHOOD

Actual Sterility in Women is Very Rare—Healthy Mothers and Children Make Happy Homes.

Many women long for a child to bless their homes, but because of some debility or displacement of the female organs they are barren. Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound more successfully than by any other medicine, because it gives tone and strength to the entire female organism, curing all displacements, ulceration and inflammation.

A woman who is in good physical condition transmits to her children the blessings of a good constitution. Is not that an incentive to prepare for a healthy maternity?

If expectant mothers would fortify themselves with Lydia E. Pinkham's Vegetable Compound, which for thirty years has sustained thousands of women in this condition, there would be a great decrease in miscarriages, in suffering, and in disappointments at birth.

The following letters to Mrs. Pinkham demonstrate the power of Lydia E. Pinkham's Vegetable Compound in such cases.

Mrs. L. C. Glover, Vice-President of Milwaukee Business Women's Association, of 614 Grove Street, Milwaukee, Wis., writes: "Dear Mrs. Pinkham—"

"I was married for several years and no children blessed our home. The doctor said I had a complication of female troubles and I could not have any children unless I could be cured. For months I took his medicines, trying in vain for a cure, but at last my husband became disgusted and suggested that I try Lydia E. Pinkham's Vegetable Compound. Many Women Have Been Benefited by Mrs. Pinkham's Advice and Medicine.

"I was married for five years and gave birth to two premature children. Lydia E. Pinkham's Vegetable Compound was recommended to me, and I am so glad I took it, for it changed me from a weak, nervous woman to a strong, happy and healthy one within seven months. Within two years a lovely little girl was born, which is the pride and joy of our household. Every day I bless Lydia E. Pinkham's Vegetable Compound for the light, health and happiness it brought to our home."

If any woman thinks she is sterile, or has doubts about her ability to carry a child to a mature birth let her write to Mrs. Pinkham, Lynn, Mass., whose advice is free to all expectant or would-be mothers. She has helped thousands of women through this anxious period. Women suffering with irregular or painful menstruation, leucorrhoea, displacement, ulceration or inflammation of the womb, that bearing down feeling or ovarian trouble, backache, bloating or nervous prostration, should remember that Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of actual cures of woman's ills, and accept no substitute.

Truths that Strike Home. Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the bulk coffee he sells you. How can he know, where it originally came from, how it was blended—or with what—or when roasted? If you buy your coffee loose by the pound, how can you expect purity and uniform quality?

LION COFFEE, the LEADER OF ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For OVER A QUARTER OF A CENTURY, LION COFFEE has been the standard coffee in millions of homes.

LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or unclean hands.

In each package of LION COFFEE you get one full pound of Pure Coffee. Insist upon getting the genuine. (Lion head on every package.) (Save the Lion-heads for valuable premiums.)

SOLD BY GROCERS EVERYWHERE. WOOLSON SPICE CO., Toledo, Ohio.
