Why Do You Wait?

While the subscription list of the NEWS has grown to a number much beyond the fondest expectations of the publisher when he started it, yet in looking over the field, it is found that there is here and there a family that does not take it. Why do you wait? Read it carefully from one end of the fifty-six long columns to the other. See what a lot of home news. See what a lot of State and foreign news. Notice the sermon, the help in the study of the Sunday school lesson, the notes on the Christian Endeavor and the Epworth League topics. Note the gems of religious thought. Then there is the Housekeeper's Department, the farmer's department, stories for the young folks, an up-to-date fashion department, and the latest market reports. All there and more too. Why wait? Do you expect to get much more than that for less than two cents a week? Do you know of any other paper that gives so much home news? There is no reason why you may not have the pleasure of its weekly visits. Easy. Just send us a dollar bill. We will do the rest.

Our Automobile.

We take pleasure in noting the fact that Philadelphia and Burnt Cabins are not the only towns in Pennsylvania who have citizens that own an automobile. Last week, one day, Charley Goldsmith, the proprietor of one of our fashionable tailoring establishments, took a little sneak over the mountain in Sheets' hack, went on to Harrisburg, and one evening, two or three days later, came bounding down through town with an automobile—all his own; and now, on almost any fine evening, Charley is amusing himself treating his friends to a ride about the town.

CLAY PARK,
Three Springs, Pa.

FOR THE LAND'S SAKE!

Each year finds an increase in the use of fertilizers. Many men, who, a few years ago, had no faith in the use of fertilizers, have been converted to a belief in their use by seeing the marvelous success of its use by their neighbor.

Many inferior grades of fertilizers have been thrown upon the market, which have had a tendency to weaken the confidence of people using phosphate as a crop producer.

I have heard many people express a desire to secure a reliable fertilizer; and after a careful investigation of the merits of several brands, I find that M. E. Wheeler & Co's. fertilizers are far superior to many makes now used in this section.

My first shipment of this excellent brand of phosphate will reach me by June 14th and every sack of it will be fresh and pure stock.

To the man who wants a first class phosphate at the lowest possible price, I will say that a trial of my fertilizers will convince him that I carry a line without an equal.

My prices will surprise and please you.
