PLAQUE OF FLIES.

America To Be Visited by Swarming Millions Advance Guards Already Here.

It looks as if the United States is to have a plague of flies such as the world used to have in the old Scripture days of plagues and miracles.

Coincident with the invasion of the United States by flies comes the news of a similar invasion in parts of Great Britain, where flies of various kinds threaten to cause much illness.

The fly is a little insect but he is the worst plague the country could have. On him is laid the heavy responsibility for some of the greatest evils the country has to endure.

Typhoid, malaria, yellow fever, and many dread ills are caused by the fly family, of which the wicked mosquito forms a branch.

There are flies of many kinds, but the common house fly is the most dangerous of all. He goes out to the hospitals and sneaks his way into sick rooms to gather germs and carry them away to infect the food of healthy people.

A GUARANTEED CURE FOR PILES.

Itching, blind, bleeding or protruding piles. Druggists refund money if Pazo Ointment fails to cure any case, no matter of how long standing, in 6 to 14 days.

What it Means.

We're tired of answering questions! Fewer Gallons; Wears Longer means that you don't have to paint your house so often, and you don't have to use so much paint.

COVE.

Mrs. Anna C. Troupe of Philadelphia, is spending some time with her daughter Mrs. D. M. Kendall.

John Glass, of Chambersburg, spent from Saturday until Monday with James Kendall.

Ella F. Johnston is spending ten days at Atlantic City.

A. Bard McDowell and family of Lemaster, spent a few days in the Cove visiting relatives.

Maggie Johnston of Mercersburg, is visiting her uncle A. W. Johnston.

Mr. and Mrs. D. M. Kendall entertained quite a number of young folks last Tuesday evening.

Mr. John Boserman and sister Josephine of Mercersburg, made a short visit at the home of their cousin Mrs. David Kendall.

T. Myers and sister visited friends in the Cove last week.

Mr. Kydd, Frank Brewer and sister Kitty and cousin Jessie Troupe, spent Tuesday with their aunt Mrs. D. M. Kendall.

Mrs. S. H. Kendall entertained a number of guests on Friday evening.

The salve that heals without a scar is DeWitt's Witch Hazel Salve. No remedy effects such speedy relief. It draws out inflammation, soothes, cools and heals all cuts, burns and bruises.

PISO'S CURE FOR CONSUMPTION CURES WHERE ALL ELSE FAILS

PLEASANT RIDGE.

Frank Bowser of Hyndman, is spending a few days among friends in this vicinity.

Abraham Doshong lost two good cows in the storm last Sunday afternoon.

Issac Layton and wife attended August Meeting at the Baptist church last Sunday.

David Kline's stone hauling last Monday was well attended.

Roy Sipes, wife and daughters Ethel and Ada, spent Sunday with Mrs. Sipe's parents, Simon Doshong and wife.

Mr. and Mrs. James Mellott buried their little son Clarence last Sunday. They have the sympathy of the entire community in their bereavement.

Jeanette and Mary Doshong were at Jordan Doshong's last Sunday.

Mrs. J. K. Sipes of Bethel town ship, is staying a few days with her daughter, Mrs. James Mellott.

NEARING COMPLETION.

Wabash 60-Mile Link Ready for Operation Then.

In connection with their advertisement of an issue of bonds for the Western Maryland railroad company, two eastern banking firms announce it is expected by the railroad officials that the new 60-mile link from Cherry Run to Cumberland will be completed by November 15, when service will be installed by the operating department.

There are flies of many kinds, but the common house fly is the most dangerous of all. He goes out to the hospitals and sneaks his way into sick rooms to gather germs and carry them away to infect the food of healthy people.

Eighty per cent. of the costly piece of road is finished. The new link crosses the Potomac river nine times, the Chesapeake and Ohio Canal seven times, the Baltimore & Ohio railroad three times, passes through ranges and spurs by five tunnels, varying in length from 700 feet to 4400 feet, passes through ridges and hills by innumerable cuts, many of them over 50 feet through solid rock, and some almost a mile in length, and a great portion of the road is being cut out of the rocky sides of mountain ranges directly above the canal.

Over 2,500 men, sixteen steam shovels, twenty-six locomotives, three hundred and fourteen animals, two compressing plants and two concrete mixers.

The first seven bridges east of Cumberland have been built and track laid to North Branch. A contract has been awarded to Tansey & Wagner, of Cumberland, for the construction of brick passenger stations at Hancock and South Cumberland.

It required more dynamite and powder, more men and animals, more shovels and other machinery and more fertile brains to build the Wabash link than any other piece of railroad work in the history of the country.

Miss Jennie Lodge, who has been visiting her sister, Mrs. Boyd Jackson, at Everett, for some time, has returned home.

Mrs. Gertrude Barton, who has been spending the summer in Everett, is spending some time with her parents, M. E. Barton and wife, at Crystal Springs.

Mrs. O. A. Barton, of Akersville, spent last Sunday with her sister, Mrs. M. E. Barton, at Crystal Springs.

M. E. Barton and Misses Ada and Ella Barton spent one day last week visiting Mrs. Preston Doshong.

Benj Mills was called to Brush Creek last week to attend the funeral of his mother, Mrs. John Mills.

The people of Brush Creek are preparing for camping. A number of people have already moved into their tents and a good time is expected.

Grave Trouble Foreseen. It needs but little foresight to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Blay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters, I found just what I needed, for they quickly relieved and cured me."

LETTER FROM CALIFORNIA.

What a Former Resident of Fulton, Now of Fresno, California, Has Learned of that Western State.

The following letter from Mrs. Alice Doyle will be of interest to many of our readers. She is a daughter of J. H. H. Lewis, of Bethel township, and known by many of our readers. She says: I am a reader of the Fulton County News and would not think of doing without the paper from my native county and state.

A few items may be of interest of which I have learned of Fresno, which I have been in California. I shall attempt to write a short sketch which my many Fulton county friends may enjoy reading.

Fresno has a population of about 25,000, made up of people from almost every state in the union who came here to seek health and wealth. It is an inland town in the San Joaquin Valley, the finest almost in the world, it is not a city for the tourist, but laborer and inventor.

The town contains several large packing houses, all of which are in full blast during the fruit season. The principal fruit being raisin grapes. During the picking and packing season there are not less than 10,000 person extra engaged in it. They all make wages enough in five months to carry them the rest of the year.

In the surrounding country are 80,000 acres in vineyards and as each 160 will employ 50 pickers you see the vineyards alone employ 25,000 pickers. Then, taken in account the industries connected with it, the farmers themselves, the teamsters, the pruners, the wine makers, the laborers of all classes, and you see it takes an army of men just to handle grapes. Then think how many men it takes to care for a million and a half of trees and their fruit.

Did it ever occur to you that California is one state in the Union more nearly independent than any other? It is true. There is not a product of any state in the union but is found in California in commercial quantities, and it has every climate from Torrid to Frigid.

After long and careful investigation of possible sites, it was found that almost ideal conditions existed at Mount Wilson. Its summit is covered with trees, thus preventing the radiation from the slopes of the mountain present at other elevated observatories; the prevailing atmosphere is clear and calm, and a cloudy or stormy day is a rarity. These considerations led the management of the Carnegie Institution to make a large grant of funds for the establishment of an observatory at Mount Wilson for the study of solar conditions, with adequate provision for its maintenance during at least ten years, the usual length of what is termed "a sun-spot period."

From "The Solar Observatory on Mount Wilson," by Paul P. Foster, in the American Monthly Review of Reviews for August.

BUSINESS DIRECTORY.

BARBERS. R. M. DOWNES, FIRST CLASS TONSORIAL ARTIST, McCONNELLSBURG, PA.

As my readers may grow tired of me I shall close for the present and in the future you will hear from me again as I see more of the state.

Yours Respectfully, MRS. A. V. DOYLE.

Consumption Threatened. C. Unger, 211 Maple St., Champaign, Ill., writes: "I was troubled with a hacking cough for a year and I thought I had consumption. I tried a great many remedies and was under the care of physicians for several months. I used one bottle of Foley's Honey and Tar, and it cured me, and I have not been troubled since."

ISAAC N. WATSON, Tonsorial Artist.

LAWYERS. W. R. SHAFFNER, ATTORNEY AT LAW, Office on S. Square, McConnellsburg, Pa.

Your respectfully, MRS. A. F. LITTLE, McConnellsburg.

THE OLDEST AND BEST INSTITUTION FOR OBTAINING A BUSINESS EDUCATION. WE HAVE SUCCESSFUL PUPILS IN ALL BRANCHES OF BUSINESS. WE TEACH THE FINEST METHODS OF BOOKKEEPING AND THE USE OF THE CALCULATOR. FOR CIRCULARS ADDRESS OUR OFFICE, PITTSBURGH, PA.

The New Mount Wilson Observatory. The Solar Observatory of the Carnegie Institution is the newest and loftiest astronomical observatory in the United States. It is situated on the summit of Mount Wilson, in southern California, nearly 6,000 feet above the sea, which is thirty miles away, and is not far distant from the cities of Pasadena and Los Angeles.

The observatory has been established for the special purpose of studying the sun and the problems of stellar evolution. Its instruments will be employed in making daily computations of the volume of solar radiation, to determine whether changes are taking place in the amount of heat which the earth receives from the sun; while the stars and nebulae will be constantly observed by the most highly developed instruments of modern times.

The importance of the study of solar conditions has long been recognized by astronomers. The sun is the star nearest the earth, the next nearest of which we have knowledge being 300,000 times more distant. While great improvements have been made in the instruments adapted for solar study, the unfavorable conditions existing at all the older observatories have seriously interfered with the study of the sun, and only one of the twenty-two great refracting telescopes has been regularly employed in solar work.

After long and careful investigation of possible sites, it was found that almost ideal conditions existed at Mount Wilson. Its summit is covered with trees, thus preventing the radiation from the slopes of the mountain present at other elevated observatories; the prevailing atmosphere is clear and calm, and a cloudy or stormy day is a rarity. These considerations led the management of the Carnegie Institution to make a large grant of funds for the establishment of an observatory at Mount Wilson for the study of solar conditions, with adequate provision for its maintenance during at least ten years, the usual length of what is termed "a sun-spot period."

CUMBERLAND VALLEY TIME TABLE—May 28, 1905.

Table with columns: Leave, No. 100, No. 101, No. 102, No. 103, No. 104, No. 105, No. 106, No. 107, No. 108, No. 109, No. 110. Rows include Winchester, Martinsburg, Hagerstown, Greenbriar, Mercersburg, Chambersburg, Waynesboro, Wappahanna, Shippensburg, Newville, Carlisle, Mechanicsburg, Dillsburg, Arr. Hagerstown, Arr. Philadelphia, Arr. Baltimore, Arr. Hagerstown.

Train No. 110 runs daily except Sunday between Hagerstown and Harrisburg, leaving Hagerstown 1:00 and arriving at Harrisburg at 2:30.

Additional east-bound local trains will run daily, except Sunday, as follows: Leave Carlisle 7:05 a. m., 12:30 p. m., 8:15 p. m.; Leave Mechanicsburg 8:54 a. m., 2:29 p. m., 12:52 p. m., 2:50 p. m.; Leave Dillsburg 9:55 a. m., 10:00 a. m., 8:30 p. m.

Train No. 112 runs daily except Sunday between Harrisburg and Hagerstown, leaving Harrisburg at 6:30 and arriving at Hagerstown at 8:30.

Additional local trains will leave Harrisburg as follows: For Carlisle and intermediate stations at 9:30 a. m., 2:00 p. m., and 8:30 p. m.; also for Mechanicsburg, Dillsburg and intermediate stations at 7:30 a. m. and 7:30 p. m.

Train No. 113 runs daily between Harrisburg and Hagerstown.

Additional east-bound local trains will run daily, except Sunday, as follows: Leave Carlisle 7:05 a. m., 12:30 p. m., 8:15 p. m.; Leave Mechanicsburg 8:54 a. m., 2:29 p. m., 12:52 p. m., 2:50 p. m.; Leave Dillsburg 9:55 a. m., 10:00 a. m., 8:30 p. m.

Train No. 114 runs daily between Harrisburg and Hagerstown.

Additional local trains will leave Harrisburg as follows: For Carlisle and intermediate stations at 9:30 a. m., 2:00 p. m., and 8:30 p. m.; also for Mechanicsburg, Dillsburg and intermediate stations at 7:30 a. m. and 7:30 p. m.

Train No. 115 runs daily between Harrisburg and Hagerstown.

Additional east-bound local trains will run daily, except Sunday, as follows: Leave Carlisle 7:05 a. m., 12:30 p. m., 8:15 p. m.; Leave Mechanicsburg 8:54 a. m., 2:29 p. m., 12:52 p. m., 2:50 p. m.; Leave Dillsburg 9:55 a. m., 10:00 a. m., 8:30 p. m.

Train No. 116 runs daily between Harrisburg and Hagerstown.

Additional local trains will leave Harrisburg as follows: For Carlisle and intermediate stations at 9:30 a. m., 2:00 p. m., and 8:30 p. m.; also for Mechanicsburg, Dillsburg and intermediate stations at 7:30 a. m. and 7:30 p. m.

Train No. 117 runs daily between Harrisburg and Hagerstown.

Additional east-bound local trains will run daily, except Sunday, as follows: Leave Carlisle 7:05 a. m., 12:30 p. m., 8:15 p. m.; Leave Mechanicsburg 8:54 a. m., 2:29 p. m., 12:52 p. m., 2:50 p. m.; Leave Dillsburg 9:55 a. m., 10:00 a. m., 8:30 p. m.

Train No. 118 runs daily between Harrisburg and Hagerstown.

Additional local trains will leave Harrisburg as follows: For Carlisle and intermediate stations at 9:30 a. m., 2:00 p. m., and 8:30 p. m.; also for Mechanicsburg, Dillsburg and intermediate stations at 7:30 a. m. and 7:30 p. m.

Train No. 119 runs daily between Harrisburg and Hagerstown.
