

Table with 2 columns: Description of advertising rates and corresponding prices.

Nothing inserted for less than \$1 Professional Cards one year \$5

ONLY 2 PER CENT.

What it Means to a Man in Business. Did You Ever Think?

Printers Ink says:

Have you ever stopped to think what "2 percent, ten days" means on an invoice? It means simply that by paying in ten days you save money at the rate of 73 percent, per annum. Figure it out and see. Can you make money any easier than by taking that discount? You own your goods for 2 per cent. less than the competitor who doesn't discount, providing that you buy right. You can sell that much cheaper or add it to your profits, as you please. You can spend it in advertising, by using larger space or more mediums, make quicker turns and more of them. Anyway you choose to figure, that 2 per cent. is a big help. If you can take it on bills totaling \$50,000 a year, there's \$1,000 saved—enough to pay a year's salary for a good clerk in the smaller cities. But, you say, you lose the use of the money for the ten days, or you haven't sufficient capital to discount your bills. All right, go to your bank and get the money for 6 per cent.; it's a mighty queer sort of a bank that won't loan you money for that purpose if you're in shape to do business at all, and it's just like borrowing money at 6 per cent. and loaning it at 73 per cent. It doesn't take much figuring to show a profit on that sort of a deal. There may be no ten day discount at all on some bills, but there will be more than 2 per cent. on others, and the average will make a bigger difference than you realize, on your gross turn over for the year. But don't begin to discount your bills unless you can keep it up. It won't do you credit any good to get the reputation of discounting, then suddenly discontinue and take the full limit of time or a little more to pay the gross amounts of your bills. Just get out your invoices for last year and figure up what you could have saved by taking the ten day discounts, then you'll know exactly what this item means to you.

Grave Trouble Foreseen.

It needs but little foresight to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Blay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee at Trout's drug store, at 50c a bottle.

A Minister Against Festivals.

"Church entertainments, suppers and festivals are a curse, a drain upon the community, a burden upon the workers and the cause of much spiritual poverty," declares the Rev. Willmer Evans Coffman, of the Dorranceton church, at a meeting of the Methodist Ministers' Association held at Wilkesbarre. He read a vigorous paper.

"These festivals and entertainments," he said, "are 'dead works' because: "They are used as a means of avoiding larger-giving sacrifices. "They appeal to the lower nature and motives, to the desire for food and amusements. "They belong to the service of mammon, of wealth, of silver and of gold. "They result from the lack of faith. After these things the business world seeks.

"They teach the people to place a low estimate of value upon the ministry of the Word and services of the Church. These become a sort of trading stamp adjunct to the suppers and entertainment. "They cause the world to lose respect for the Church and weaken its influence upon the unconverted. "They are often the cause of unkind remark, of jealousy, of mean actions. "They rob the community, making the people pay \$3 to do the Church \$1 worth of financial good. "They teach people extravagance in their personal expenditures."

Mr. Coffman concludes that the right method is for straight giving and not begging.

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years although I am now 91 years old." Sold by all dealers.

The Yellow Fever.

The anxiety created throughout the country and particularly in New Orleans, about the ravages of yellow fever, has evoked much comment by the American press as to the origin of the disease and the way of getting rid of it. It is true that the situation has become so serious in the Crescent City that something must be done and quickly to check the infection. The number of victims of the plague and the number of deaths in proportion have been increasing, but in the face of the peril, the New Orleans health department seems to feel hopeful that they are taking the right preventive by eradicating the source, and further that there is no longer any reason for wild alarm when such a malady appears, providing such precautionary measures are taken against it.

Alabama, Mississippi and Texas have taken precautionary measure against the disease and well they should. In some instances there has been considerable disturbance as the result of their steadfastness. We people who reside in the north Appalachian region have not been so much alarmed perhaps until the plague found its way into the great eastern Metropolis. It is to be hoped, however, that such will not pervade New York, but that it can be checked immediately.

The cause of the spread of yellow fever is, so science has found, the bite of a peculiar mosquito, technically named Stegomyia Fasciata. To remove the propagation of this insect is to remove the cause of the plague. Some of those mosquitos were transported, it is said, from Central America in cargoes of fruit, and they, as a start, stung the workmen who unloaded the ships.

In speaking further about the situation, the New Orleans Picayune states: "The mosquitos being here, the business of science is to kill them, and this is being done. Cisterns are now being screened and oiled, gutters and cess-pools are being oiled, and all infected or supposed infected premises are being fumigated with sulphur. As for the people themselves, they can protect themselves perfectly by anointing hands and faces and other parts exposed to mosquitos with a lotion made of alcohol and such essential oils as pennyroyal, lavender, cedar, and the like. The cost is small. Houses should be screened and the use of mosquito bars should be strictly attended to."

The salve that heals with out a scar is DeWitt's Witch Hazel Salve. No remedy effects such speedy relief. It draws out inflammation, soothes, cools and heals all cuts, burns and bruises. A sovereign for all kinds of skin diseases. DeWitt's is the only genuine Witch Hazel Salve, it is a fact of common knowledge. Sold by Stouteagle & Bro.

WELLS VALLEY. Rev. Kaufman of Saxton, assisted Rev. Ash in his services at Pine Grove last Sunday morning, basing his remarks on these words found in Isaiah 52: 2:—"Awake, awake, put on thy strength O Zion; put on thy beautiful garments, O Jerusalem." Mr. Kaufman accompanied Mr. Ash to the Valley.
