Prince Yoe and Women.

Prince Yoe, of Korea, was talking at Atlantic City about the outrageous bathing dresses that young women wear at Ostend and Trouville.

'But a mother, a young mother," said Prince Yoe, "would never wear a bathing dress of that kind out of respect for her children. As I look at the modest costumes of the women bathers here I would think they were all mothers were not some of them too young."

The Prince smiled. Then he resumed:

"It is a fact that little children have an unusual influence on young mothers. I heard the other day of a mother who came downstairs in a very decollete gown and then went upstairs and took it off again. Why? Because her little son when he saw her in it said, ashamed: 'Oh, I'm going to write and tell papa.""

Turtle Weighs 700 Pounds.

A monster sea turtle, known as a leather-back, has been captured at the mouth of the Nanticoke river, in Maryland. The turtle weighed between 600 and 700 pounds, was a fraction over six feet long from tip to tip of shell and had flippers over three feet from tip to tip.

A half inch hawser was required to halter the big fellow to a post. During an effort to free itself the rope, which was fastened over the head and under the flippers, became so tight that it was found that the turtle would be choked. The big reptile became entangled in an ordinary fish net spread off the mouth of the Nanticoke and practically wrecked it

Mrs Pinkham's Standing Invitation.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received,

opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in help your case. She asks boining in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance. If you are ill, don't hesitate to get a bottle of Lydin E, Finkham's Vegetable

Compound at once, and write Mrs. Pink-ham, Lynn. Muss., for special advice. When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

Suffered Agony and Had to Wear Bandages All the Time-Another Cure by Cuticura

All the Time-Another Cure by Cutterna. Another cure by Cutieura is toid of by Mrs. Caroline Cable, of Waupoca, Wis., in the following grateful letter: "My husband suffered agony with salt rheum on his hands, and I had to keep them bandaged all the time. We tried everything we could get, but nothing heiped him until he used Cuticura. One set of Cutieura Soap, Ointment and Pills cured him entirely, and his hands have been as smooth as pos-sible ever since. I hope this letter will be the means of helping other sufferers."
