Letter to R. M. Dowdes, McConnellsburg, Pa. Dear Sir: You'd strike it rich if you could find a way to shave your customers in less time, for less cost, and make the shave last twice or three times as long! You wouldn't shave the same person so many times, or get so much of his money; but the whole town would be talking about you, and everybody would come to you for a shave. Devoe lead-and-zinc is exactly that in paints. It takes fewer gallons, and it wears longer. Costs less for the job, and you don't have to do it again for years and years—six years at least. "Fewer gallons; wears longer." Takes fewer gallons to paint a house with Devoe lead-and-zinc than with mixed paints; and it wears longer than mixed paints or lead-and-oil. Yours truly F. W. DEVOE & Co., New York.
