COMPANY INCORPORATED IN NEW YORK.

Capital of Seven and a Half Millions-Connection to Be Made With All the Northern New Jersey Troiley Lines--- From Jersey City to New York in 5 Minutes; From Newark in 15 Minutes.

New York (Special) .- The Interstate Tunnel Railway Company of New Jersey was incorporated both at Albany, N. Y., and Trenton, N. J., with an authorized capital of \$7,500,000. The object of ized capital of \$7,500,000. The object of the company is to construct a tunnel rail-road for public use between New York and Jersey City, the terminal point being Chambers street, New York, ahe Pa-vonia avenue, Jersey City. The incor-poratots are Thomas N. McCatter, of Rumson, N. J.; Albert B. Carlton, Eliz-abeth; Charles A. Sterling, Mark T. Cox, both of Orange, N. J.; John B. McDon-ald, Herbert H. Vreeland, John D. Crim-mins, Robert A. C. Smith, Henry D. MacDona, all of New York. Thomas N. McCatter, who heads the list of imour McCarter, who heads the list of incorporators, is president of the Public Serv-ice Corporation of New Jersey, which

controls practically all of the trolley lines of North Jersey. John B. McDonald and Thomas H. McCarter, president of the Public Serv-ice Corporation of New Jersey, made the following statement concerning the purposes of the company:

These companies have been organized to construct a tunnel under the North River from a terminus in Jersey City at Erie and Twelfth streets to a terminus under Chambers street between the Broadway and Brooklyn Bridge term-inal, in the Borough of Manhattan, and to provide thereby better means of communication between the business parts of the city of New York and the territory served by the Public Service Cor-poration, which operates all the surface lines in the counties of Hadson, Essex, Passaic, Union and Middlesex in New

Jersey, or about 550 miles of line. "The Public Service Corporation proposes to supplement its existing facili-ties in New Jersey by a new, direct. high-speed line from Newark with communication without changes to the pro-posed numel in Jersey City, thus affording direct transportation from its termi-nus in Newark to the City Hall in New York in 15 minutes. Arrangements have been made for a joint passenger station at Jersey City which will enable the Erie Railroad Company to transfer its sub-urban passengers to the proposed tunnel

The location of the proposed tunnel at the Manhattan end has been made with a special view to furnishing the best pos-sible facilities for the distribution of the traffic, not only by means of the Metro-politan surface lines, but also by the proposed new rapid transit subways re-rently laid out by the Board of Rapid Transit Commissioners.

The engineers estimate that the time between Jersey City and the Manhattan terminal of the tunnel will not exceed five minutes on the trains.

The interstate Tunnel Railway Com-pany will be controlled and financed rointly by the Metropolitan interests, by the Public Service Corporation and the other interests which will furnish the traffic at the New Jersey end.

It is proposed that the construction of the tunnel shall begin as soon as the necessary rights have been granted by the public authorities. An application for the necessary rights will be made immediately to the Rapid Transit Commission.

the city clerk to Andrew Carnegie, fol-lowing the closing of the handsome library recently erected here with Mr. Carnegie's gift of \$15,000. Lack of funds is given as the reason for its closing. The public paid for the real estate on which it is built, and if the library is taken back by Mr. Carnegie the real estate will go with it, and the wealthy tronmaster is in the position of being offered a town lot as a gift instead of being s donor, as he expected to be when he furnished the funds with which to erect the library. What to do with the library has been worrying the town offi-cials more than the lack of literature before the gift was made, but the nappy idea of the city clerk to ask Mr. Carnegie to take back his library has solved the problem. It is believed Mr. Carnegie will refuse and possibly may advance a small sum to keep the library open for a time.

TAKAHIRA MAY RETIRE.

Japanese Minister Going flome, Probably For Good.

Washington, D. C. (Special) .-- It is believed in diplomatic circles here that Minister Takahira's services in this country are at an end. He will sail for Japan in a few weeks on leave to join his wife. She is a woman of prominence and head of the war organization of

nurses, but is now ill. Minister Takahira is going ostensibly

for needed rest and recreation. The fact is the Minister is far from well, his old wound refuses to heal and troubles him persistently, and he is nearly broken down from his heavy duties. His friends do not expect him to come
