Seattle, Wash. (Special).-The Great Northern overland train leaving Seattle at night was held up and the baggage and express car dynamited about five miles from Ballard. Three men are known to have done the work. Two boys who got on the blind baggage here as soon as the holdup began entered the passenger coaches and began holding up the passengers. They were captured. They say two of the men were on the blind baggage when they got on, and the third got on at Ballard. All were well dressed, with raincoats and slouch hats. So far as reported no sal killed, but Charles Anderson, an ex-

The train was flagged near the brick-yard, and as the engineer slowed up two men with raincoats climbed over tender and presented revolvers to his head. When the train stopped, the engineer was instructed to pull ahead, which he did for several hundred yards, when he was again commanded to stop. Two of the robbers then jumped off, making the engineer and fireman do the same, and all marched to the baggage-car door. The messenger was commanded to open the door, and, refusing, an extra heavy charge of dynamite was placed against it and exploded. The explosion tore the car almost to pieces. The safe was then dynamited. The train was delayed two hours and a half, and then pulled into Edmonds, making a brief report before proceeding to Everett. two boys claim they never met the holdups until they got on the train, and are in no way connected with their work. The idea to hold up the passengers occurred to them after the explosion. Sheriff Smith has started out with a

posse. Conductor Grant's report of the holdup shows that at least seven men were engaged in the robbery. The conductor believes there were other men further down the track, but they did not take any part, possibly because the train had stopped too soon.

When once inside the car the robbers began dynamiting, the first explosion being of six sticks, the second of 12 and the third of 18. While the robbers were engaged on the safe the two boys who had been riding on the blind baggage slipped off

and went through the train, attempting to hold up the passengers. They had no guns, but took advantage of the timidity of the passengers while the shooting was going on outside.

The boys, who gave their names as Frank Alfred and Roland Gibbs, are now in jail at Everett. A passenger on the train says that their method while going through the coaches consisted of

more of a begging character than a No one was injured seriously, although a continual fire of revolvers was kept up. Stories differ as to the num-ber of robbers engaged in the job. There were at least three. There may have been four, or even more.

The express messenger says he does not know how much was obtained by the holdups. The local safe was not molested. A reward of \$5,000 was offered by the Great Northern Express, Company for the capture and identification of the rob-

as known, only \$346 in cash was taken from the safe. No statement has been made regarding express matter.

The State Department. Washington, D. C. (Special).-Ratifications of the treaty of Portsmouth will be exchanged at Washington between Baron Rosen, the Russian ambassador, and Mr. Takahira, the Japanese minister, as soon as these important docu-ments are received from St. Petersburg The ratifications will contain the French and English texts of the treaty. This was decided at a conference between Baron Rosen and Mr. Takahira, which began in the Russian Am-bassador's apartments and was conclud-ed at the State Department. Mr. Taka-hira called on Baron Rosen to find out from him the usual form of the Russian ratification. In order that the Minister might inspect a copy, they went to the State Department, where Mr. Adee, the third assistant secretary of state, received them and showed them the ratifica-

tion of the Russian-American extradition Mr. Takahira will inform his government fully on the subject, so that the ratifications may conform. The special plenary powers to be conferred on the two plenipotentiaries, enabling them to

exchange ratifications, will be identical n scope. approval of the treaty by the Privy Council at Tokio in effect ratifier the convention, and it is expected the formality of the Emperor's signature will follow shortly. As the treaty becomes effective as soon as ratified, the exchange of ratification is only a formality. Japan will be ready to exchange as soon as the Emperor's signature is as soon as the Emperor's signature is affixed, as the formal ratification can be prepared and delivered at the legation here. It is not believed that the Russian ratification will be long delayed.

St. Petersburg (By Cable) .- The "hunger strike" which began October 2 in the women's department of one of the large prisons here devoted to the detention of political offenders has become general. For three days all the in-nates of the prison have been refusing to eat as a protest against the rough treatment of a female prisoner and the general administrative conditions in the prison. many of whom were arrested last week.

Hearst Nominated For Mayor.

New York (Special) .- William Raus dolph Hearst was named as a candidate for mayor at a municipal ownership mass-meeting in the Grand Central Palace, and a committee appointed by J. G. Phelps Stokes, who presided, will select the remainder of the ticket. Much cheering followed the reading of a letter from the Rev. Dr. Charles H. Parkhurst, in which he praised the growing demand for government interference to protect the public from the tyranny of monopo-tists.
