The Teacher's Right to Punish.

It was again demonstrated in court at Scranton last week that the law upholds the school teacher in enforcing discipline. A teacher was brought to trial on the charge of assault and battery because he used the rod. In his charge to the jury Judge Newcomb said that the law gave the teacher the same authority a parent has in the punishment of a child. The jury found that the chastisement was justified and was not too severe.

Huston's Clothing.

Are you a judge of good clothing? I have seen customers call a garment made of shoddy material good, and condemn a high class article. Few people can judge clothing values. Having served two years in a clothing store in Western Pennsylvania and made a careful study of the business, I feel that I am not boasting when I say I am better prepared to supply your clothing wants than the average merchant. I do not buy an article unless I feel that it is worth the money asked for it. Every suit in my store is marked according to its real value. If I sell you a suit for \$5 you can go home assured that you have bought the very best garment to be had for the price paid.

During December I want to sell more clothing than ever before and I should do it, for I have a suit for the wee boy in knee pants—for the boy just donning the long pants—for the particular young man who wants stylish serviceable clothing—and for the elder man who prefers the conventional black or the quiet gray.

Washable CLOTHES

Nobby Overcoats

I am selling more overcoats than I expected to. By selling one overcoat to a customer who showed it to his friends I sold four more. It is all very easy to explain the reason. A good, perfect fitting garment made in an up-to-date manner always commands attention.

The belt overcoat seems to be held in highest favor, yet many people prefer their coat without the belt. It will pay you to buy your overcoat of me; in fact, my prices are right on Overalls, Corduroy Coats and Pants, Duck and Cassimere Coats, and all kinds of heavy Underwear, Hats, and Rubber Goods.
