More Trouble For Witte.

St. Petersburg, (By Cable).-Another crisis is at hand involving the indefinite prolongation of the strike, the probable immediate precipitation of a general strike throughout Russia and a possible final struggle between the government and the proleariat.

This sudden change for the worse is the result of the shedding of the first blood in the telegraph strike Saturday afternoon almost simultaneously with the action of M. Durnovo, minister of the interior, in throwing down the gauntlet t the labor organizations by arresting M. Krustaleff, president of the executive committee of the workmen's council.

About 2 o'clock several companies of Cossacks clattered through the streets leading to the headquarters of the council, in Targovin Street. Having barred the approaches, a force of troops and po-lice surrounded the building, after which secret men rushed in and seized Krustaleff. The latter made no resistance and the affair was conducted quickly. It was impossible for Krustaleff to conceal the papers of the organization, in which the police evidently expect to find evidence proving the ultimate object to be an armed uprising against the govern-
