

PAINFUL PERIODS

More than fifty thousand women have testilled in gratoful letters to Mrs. Pinkham that Lydia E. Pinkham's Vegetable Compound overcomes pain-ful and irregular menstruation.

It provides a sufe and sure way of es-ape from distressing and dangerous reaknesses and diseases. The two following letters tell so con-

vincingly what Lydia E. Pinkham's Vegetable Compound will do for women, they cannot fail to bring hope to thousands of sufferers.

Miss Nellie Holmes of 540 N. Davi-sion Street, Buffalo, N. Y., writes : Dear Mrs. Pinkham:

Dear Mrs. Pinkham:--"Your medicine is indeed an ideal medicine for wome. I suffered missry for years with painful periods, headaches, and bearing-down pains. I consulted two different physicians but failed to get any relief. A friend from the East advised me to try Lydia E. Pink-hams Vegetable Compound. I did so, and no longer suffer as I did before. My periods are natural: every ache and pain is gone, and my general health is much improved. I advise all women who suffer to take Lydia E. Pinkham's Vegetable Compound." Mrs. Tillie Hart, of Larimore, N.D.

writes

Dear Mrs. Pinkham:-"I might have have been spared many months of suffering and pain had I only known of the efficacy of Lydia E. Pinkham's thousands. Address Lynn, Mass.

It isn't always wise to judge a man by the MILK CRUST ON BABY Lost All His Hair-Scratched Till Blood -Grateful Mother Tells of Pullman or parlor car, the London His Curs by Cuticura For 75c. Globe says that a large force of pri-

"When our baby boy was three months old he had the milk crust very badly on his head, so that all the hair came out, and it itched so bad he would scratch until the blood ran. I got a cake of Cuticura Soap and a box of Cuticura Ointment. 1 applied the Cuticura and put a thin cap on his head, and before I had used half of the box it was entirely cured, his hair com-menced to grow out nicely again, and he has had no return of the trouble. (Signed) Mrs. H. P. Holmes, Ashland, Ore."

Reformation of a Kind. "Yes, kind lady, my four years' term expires in two weeks, then when I get out of the pen I am going to reform and start a little cigar store. I kin buy one for six hundred dollars. Have I friends what'll advance the money? Naw I don't need them for that little sum; I kin steal that much in two nights."-Lippincott's.

While no woman is entirely free from periodical suffering, it does not seem to be the plan of nature that women hould suffer so severely. Menstrust women hould suffer so severely. Menstrust vitality. If it is painful or irregular something is wrong which should be tright or it will lead to a serious determined by the set right or it will lead to a serious determined by the set of the whole female organ.
Yegetable Compound somer; for I have tried. The set of the severe set is a severe strain on a woman's severe strain or irregular and severe month. If it is painful or irregular defendence is the severe severe severes severes severes at the severe severes severes severes severes severes severes at the severes se

The success of Lydia E. Pinkham's

Vegetable Compound rests upon the well-carned gratitude of American When women are troubled with irreg-

vousness, sleeplessness, melancholy, they should remember there is one tried and true remedy. Lydin E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Ary general health is much improved. I drise all women who suffer to take Lydia Pinkham's Vegetable Compound." Mrs. Tillie Hart, of Larimore, N. D., vrites: Dear Mrs. Pinkham:-

COMMERCIAL

R. G. Dun & Co.'s Weekly Review of Trade says :--

Business conditions certainly warranted a day of gratitude this year more than ever before, but in many industries it was difficult to take time for a holiday without falling still further behind orders and increasing the complaints of importunate purchasers.

An idea of the volume of trade in November is shown by a daily average of bank exchanges that exceeded last year's figures by 4.0 per cent., which in turn surpassed all previous monthly records. Yet unseasonably mild weather in No-vember has postponed retail business in Winter goods. Christmas trade opens with a volume that promises to eclipse all sarlier records, and the feeling of confidence in the future is strengthened by the encouraging statements that the strike of structural iron workers may not become general.

Bradstreet's says: Wheat, including flour, exports for the week ending No-vember 30, are 3.076,600 bushels, against 3.353.068 last week, 2,101,773 this week last year, 4,201,504 in 1003 and 5,704,440 in 1902. Corn exports for the week are 1,643,824 bushels, against 1,010,522 last week, 304,841 a year ago, 1,008,051 in 1903 and 1.151,503 in 1902. Failures this week in the United States

are 203, against 228 last week, 240 the preceding week and 245 the correspond-ing week last year. Failures in Canada number 32, against 34 last week, 42 the preceding week and 29 last year.

HIGH CLASS DRUGGISTS AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company-California Fig Syrup Co.-printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—" Syrup of Figs"—or "Fig Syrup" and of some piratical concern, or factitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company-California Fig Syrup Co .- printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.

NATIVE NEW YORKERS SCARCE. About One Out of Every Ten in the

City Population. Now that thirty "emergency" census takers finished the tail end of their work a few days ago we may soon have light on an interesting question that this enumeration will throw some light upon. Out of Gotham's 4,000,000 souls how many are actual New Yorkers-persons born in this city? Taking the last federal census as a criteron there is about one "native born" New Yorker out of every ten in population. Still, even this small balm to Knickerbocker families-330,000-per-tons-has to be greatly reduced, for in It is included every person of whom no actual knowledge could be obtained of whom the haste of the census tempted to throw under this general heading. Amateur statisticians have decided that there are about 120,000 citizens of New York who have been born of parents natives of this country. These delvers in the census re sults are of the opinion that if the qualification were that both their parents were natives of this country not more than 5,000 persons could qualify as New Yorkers of the second Ameri-
