#### The Diamond Cure.

The latest news from Paris, is,  
that they have discovered a dia-  
mond cure for consumption. If  
you fear consumption or pneumo-  
nia, it will, however, be best for  
you to take that great remedy  
mentioned by W. T. McGee, of  
Van Lear, Tenn. "I had a cough,  
for fourteen years. Nothing  
helped me, until I took Dr. King's  
New Discovery for Consumption,  
Coughs and Colds, which gave  
instant relief, and effected a perma-  
nent cure." Unequaled quick  
cure for Throat and Lung Trou-  
bles. At Trout's Drug Store;  
75c and \$1.00, guaranteed.  
2nd bottle free.

#### Unbusinesslike Farming.

The layman can hardly realize  
the lack of system that prevails  
on the average farm. Drainage  
is little thought of on the low-  
lands, crops are rotated only as  
chance determines, and probably  
not one farmer in a hundred can  
tell what enterprise on his farm  
and under his conditions is the  
most profitable. In no other  
business is it likely that men can  
be found with \$10,000, \$20,000 or  
\$50,000 investments who never  
pretend to keep books of the busi-  
ness. Farmers' books are too  
often kept in this manner,—gain,  
money in the bank; loss, money  
borrowed. The writer once ar-  
gued this question of keeping  
books with a well-to-do American  
farmer, who finally concluded his  
argument by saying, "Farming  
ain't all keeping books, by a long  
shot." Truth lies in the argu-  
ment, but keeping books is not  
all there is to manufacturing fur-  
niture or transporting freight,  
and yet it must be a valuable ac-  
cessory or it would have been  
discarded years ago.

There are still thousands of  
farmers who do not follow the  
markets, who rarely, if ever, stop  
to consider the relation between  
prices of feeds and prices of beef  
and pork. Hogs are fed because  
"there is money in hogs," and  
many an operation on the farm is  
done according to some precon-  
ceived notion. The writer knows  
a German farmer in western  
Minnesota who has a beautiful,  
clean farm, and is evidently pros-  
perous. While watching him feed  
his hogs one day, this conversation  
took place: "How old  
are those pigs?" "Sixteen  
months." "Why don't you sell  
them?" "Well, I don't like to  
sell a hog until he weighs up good  
and heavy." Further conversa-  
tion revealed the facts that corn  
was worth forty-two cents per  
bushel and pork four dollars per  
hundred weight, live weight.  
When asked if the pigs he was  
feeding were gaining enough to  
equal or exceed the value of the  
corn, and pay him for his labor,  
he realized that each bushel of  
corn had got to produce about  
twelve pounds of pork to yield  
him any profit. Knowing that  
his pigs were not gaining the half  
of that amount, he decided to sell  
both pigs and corn.—From  
"Farming as a Business Enter-  
prise," by Edward C. Parker, in  
the American Monthly Review of  
Reviews for January.
