#### An Incident,

It was in a street car, but on the rear seats where one was allowed to moke that this occurred. A pepperyooking woman was sitting on one of hese scats, evidently taking umbrage t an Irishman who was smoking.

Finally her indignation mounted so igh that she adjusted her pince-nez classes on her thin nose and inquired: "My good man, are you accustomed to amoke in the presence of a lady?" "No, mum!" replied the Irishman stolidly, and continued smoking.

Two girls up in front tittered and the poppery lady got off two blocks farther on.

"After using Cuticura Soap, Ointment, and Pills, I am very glad to say I am entirely relieved of that itching humor of the head and scalp which I was bothered with quite a length of time. I did not use the Cuticura Remedies more than three times before I began to get better, and now I am completely well. I sufand now I am completely well. I suf-fered with that humor on my head, and found no relief until I took the Cuticura found no relief until I took the Concerns Remedics. I think I used several cakes of Cuticura Soap, three boxes of Oint-ment, and two vials of Pills. I am doing all I can to publish the Cuticura Reme-dies, for ney have done ms good, and I know they will do others the same. Mrs. Mrs. Mattie Jackson, Mortonsville, Ky., June 12, 1905."

Ex-Congressman Fitzgerald of Bosn, who passed the summer at Old Drchard, told this story of the clambake of the Redberry club, held at Pine Point late in August:

A chaplain had been called upon to officiate for the regular clergyman in congress early in the term. The minister was about to conclude his prayer, and reverent silence pervaded the big chamber, when the members were startled to hear the following sentence drop from the lips of the chaplain protem .: "May corruption and sin in every form be as far from every member of this body as Thou. art, O Lord!'

of Trade says :--Trade reports are more irregular, chiefly because of the vogaries of the weather. At some points results are all that could be desired, the new year starting with much heavier transactions than in 1905, but high temperature and ex-cessive rains in other localities retard retail distribution of winter goods, and it is becoming necessary to reduce stocks by clearance sales. Nothing disturbs the vigorous preparations for spring business, which promises to make a most gratifying exhibit. Open weather is facilitating outdoor work, building operations progressing at an unprecedented pace for the season, and the Construction News reports permits issued in 1905 to a value of \$528,186,412, which is 40 per cent. in excess of the preceeding year. iron by the leading interest provided an element of strength in the iron and steel industry that improves the tone and makes the outlook for the first quarter most satisfactory. Buyers are more numerous in the primary markets for textile fabrics, although the increased interest thus far is confined almost enirely to purchases at second hands.

"Increased supplies have somewhat depressed the tone of country hides, but packer lines are fairly steady, and no division of the market has shown a normail decline in proportion to the season-able deterioration in quality. Activity of Eastern wholesalers in handling samples indicates that original orders for fall shoes will be placed much earlier than in previous seasons.
