Eraptions Appeared on Chest, and Pace and Neck Were All Broken Out -Cured by Cutieura.

"I had an eruption appear on my chest and body and extend upwards and down-wards, so that my neck and face were all broken out; also my arms and the lower limbs as far as the knees. I at first thought it was prickly heat. But soon scales or crusts formed where the breaking out was. Instead of going to a physician I purchased a complete treatment of the Cuticura Remedies, in which I had great faith, and all was satisfactory. A year or two later the cruption appeared again, chy a little lower, but before it had time to spread I procured another supply of the Cuticura Remedies, and con-tinued their use until the cure was complete. It is now five years since the last attack, and have not seen any signs of 4 return. I have more faith in Cuticura Remedies for skin diseases than anything I know of. Lmma E. DERMANENT MEADOWS should have an annual dressing of 500 pounds per acre of a fertilizer containing eleven per cent. Potash and ten per cent. available phosphoric acid.

This will gradually force out sour grasses and mosses from the meadows, and bring good grasses and clovers; thus increasing the quality as well as the quantity of the hay.

ness to Make Point. During the first hearing of the famous Crocker will case in the supreme court, before Judge Lathrop and a jury, there were many interesting and amusing tilts between the eminent counsel engaged in the case -Robert M. Morse for the contestants of the will, and Col. Joseph H. Ben-

ton, Jr., for the executors. Perhaps at no time during the hear ing, however, was there any better exhibition of wit than in the summing up of counsel before the jury. At one point Col. Benton was trying to impress upon the jury that the expression "old fool," alleged to have been used by one of the interested parties, might reasonably be construed as a term of endearment.

"For example," explained Col. Ben ton, "King Lear called his fond daugh-

ter, 'my dear pretty fool.' ' Here he waited a moment to let the point sink into the minds of the jury Judge Lathrop, however, who had been listening with intense interest. leaned forward in his chair and dryly remarked:

"But, Mr. Henton, King Lear was crazy, wasn't he?"

"Well, your honor, that's a mooted question," was all that the confused attorney could reply, and even this was almost smothered by the mirthful outburst in the court room, which the opposing counsel, Mr. Morse, foined most heartily.

Force of Habit.

George W. Wallace, president of the Rocky Mountain Bell Telephone com-pany, and one of the best known residents of Salt Lake, tells this as his latest telephone story:

In a certain Western central office one hello girl was always late in arriving in the morning. Time and time again the manager pleaded with her to be more prompt. Her tardiness continued until he was moved to desperate methods.

"Now, Miss B--," he said one morning as he came to her exchange with a package in his hands, "I have a little scheme which I hope will enable you to arrive at the office on time. Here is a fine alarm clock for you. Promise me that you will use

The young woman promised and accordingly set the alarm clock for the proper hour when she retired that night. At 7 o'clock the next morning there was a tremendous whirring from the alarm clock. The sleepy hello girl rolled over in bed and said sweetly:

"'Line busy, call again."

Not a Fair Division. "If a house contains six bureaus, eleven armoires, seven chiffoniers and fifty-three miscellaneous drawers, how many of 'em is the husband entitled

to, and how many is the wife?" asked

the young clubman. The second clubman laughed harshly.

"You are young and have much to learn," he said. "You may as well understand first as last that if there were in your house a mile of bureaus three acres of armoires and 17,000 drawers, all these would be stuffed full of vells, ruching, batpins, ribbons, allk stockings, petticoats, powder puffs and safety pins, and the best course for you to pursue would be to wrap your own things-your shirts, underclothes, and so on-in a newspaper and keep them under the bed."

It has seemed difficult for politicians to formulate a satisfactory bill that would project the common people and yet avoid harm to honest makers and prevent endless trouble to retailers. The people have allowed the slow murder of infants and adults, by tricky makers of food, drink and drugs to go on about long enough. Duty to oneself, family and nation demands that every man and woman join in an organized movement to clear our people from this blight. You may not be able to go personally to Washington to impress your Congressman, but you can, in a most effective way tell him by letter how you desire him to represent you.

Remember the Congressman is in Congress to represent the people from his district and if a goodly number of citizens express their views to him, he secures a very sure guide to duty. Re-member also that the safety of the people is assured by insisting that the will of the people be carried out, and not the machinations of the few for selfish interests. selfish interests.

This pure food legislation is a pure movement of the people for public protection. It will be opposed only by those who fatten their pockets by deceiving and injuring the people. There-fore, if your Representative in Con-gress evades his patriotic duty hold him to strict accountability and if necessary demand equitable and honest service.
