GIBSON PICTURE FAD SEIZES COLLECTORS

Takes Place of Post Card Craze With the Young Women.

The Gibson picture habit has been effectively fastened on a big proportion of the reading population of this section by the publication by the Sunday North American of ten of the latest of this great American artist's pictures as art supplements. It has started the Gibson collection fad, and this promises to last until the last of the pictures are out.

For the time being the collection of Gibson drawings has taken the place of the collection of post cards in Philadelphia, and the fad is certain to spread to all of the towns where the pictures are made so easily obtainable.

The picture which The North American is to issue next Sunday is "A Castle in the Air." It is one of the most forceful of Gibson's works, and teaches a broad moral lesson to young people and old alike.
