THE GRANGERS' PLATFORM.

They Want the Two Big Parties to Adopt It.

At a conference of leading Grange workers and representative members of agricultural organizations, held recently in Harrisburg, it was decided to arrange a platform for the farmers for the coming state and county campaign, and ask all political parties to insert the same in their respective platforms, and to endeavor to secure pledges from candidates for state offices, including house and senate, to support the reforms. The leading planks of the proposed platform are as follows:

- Trolleys to be given the right to carry freight.
- No candidate to accept a free pass during his term of office.
- Corporations to live up to the constitution of the state.
- No mining of coal by transportation companies; directors in corporations not to furnish supplies to them; no owning or operating of parallel or competing lines or railroads.
- No discrimination in freight rates.
- A uniform passenger rate of two cents a mile.
- Licenses and personal property taxes to be returned to the counties.
- Equalization of taxation.
- An increase in state aid for township roads from fifteen to fifty per cent.
- An increased appropriation for centralized township schools and township high schools.
- A Lesson For Scandal Mongers.

We would recommend the following to some of the scandal mongers whom we know. "Scandal mongers can learn a lesson from the story told of a woman who freely used her tongue to the scandal of others, and made a confession to the priest of what she had done. He gave her a ripe thistle top and told her to go in various directions to scatter the seed one by one. Wondering at the penance, she obeyed, and then returned and told her confessor. To her amazement he bade her go back and gather the scattered seeds; and when she objected that it would be impossible, he replied that it would be still more difficult to gather up and destroy all evil reports she had circulated about others. Any thoughtless, careless child can scatter a handful of thistle seeds before the wind in a moment, but the strongest and wisest man cannot gather them again. So the slanderer may scatter seeds of discord that no effort can remove, and the grave can scarcely cover."

One would think the Laxative idea in a cough syrup should have been advanced long before it was. It seems the only rational remedy for coughs and colds would be to move the bowels and clean the mucous membranes of the throat and lungs at the same time. Kennedy's Laxative Honey and Tar does this. It is the original Laxative Cough Syrup, the best known remedy for coughs, colds, croup, whooping cough, etc.—Tastes good and harmless. Sold by Stouteagle Bros.

Thriving Little City.

HARRISONBURG, VA.,
March 19, 1906.

GENTLEMAN:—I noticed in the issue of the Fulton County News, of March 14th, a letter from Wm. J. Helm, of Pittsburg, Pa. I am glad to know that some one is interested enough in old Fulton to try to arouse her from her long and peaceful slumber. Why not wake up? There is just as good material in old Fulton, just as wealthy farmers, that are just as able to support a trolley line as there is anywhere else; then why not wake up. Our little town of Harrisonburg, with its little population of about 5,000 has begun to see the necessities of electricity. While she has not the enterprise about her that lots of other places not so large as she has, she has only three railroads, the B. & O., the C. & W., and the Southern R. R.; two banks, First National and Rockingham National; one tannery, sash and door factory, and two flour mills, and a new County Court House that cost about \$11,500.

About one year ago a dam was built in the Shenandoah river near Elkton, Va., for an electric plant a distance of 20 miles from this place, from which Harrisonburg is illuminated. Preparations are being made to do away with steam power at both of our flour mills and use electricity instead, as it is much cheaper, also our new sash and door factory will be propelled by electric power. A trolley line is being built at this present time from Washington via Leesburg and Berryville to Winchester, Va. The dam has already been completed on the Shenandoah river, where they expect a power house (this dam is at Castleman's ferry), and prospects are good for an extension from Winchester, Va., on up the Shenandoah valley. I hope the public interest of old Fulton county will be so aroused as to lend a liberal hand and to indorse the building of the trolley line from Chambersburg to Mt. Union.

While I am not living in the good old Keystone state, where I was born and raised, I still feel interested in behalf of my relatives and friends, as many of them are readers of the Fulton County News. I hope this will find a little corner in your paper.

Very truly,
WM. MELLOTT.

Letter to L. Hohman, McConnellsburg, Pa.

Dear Sir: Mr. Frank Robinson, Titusville, Pa., bought Devoe with a good deal of feeling against the whole tribe of mixed paints. Our agents there, Messrs. Kernechan & Co., got him to do it. He says:

I am more than pleased with the job. I had one-third of the paint left over I know of several other jobs, a year old or more, painted with Devoe, that are wearing well.

What a pity we have to all go through the same school, to find out what pain to put on a house! Experience teaches. Isn't there any easier way to learn?

Yours truly
F. W. DEVOE & Co.,
New York.

She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters; with the wonderful result that improvement began at once, and a 'mercy' to cure followed."
