Sacrifice Imperative.
It was her first proposal, and, although somewhat rattled, she remembered the proprieties.

"You would give up everything for me?" she asked.

He answered her that he would.

"Even smoking?"

"I couldn't do that."

"Sir!"

"No; for I never smoked."

Then he had to promise to learn to smoke so as to have something to sacrifice. And in the heart of each the bells rang.—Philadelphia Ledger.

Maakon and the Hawkines.
You pronounce the double "aa" in Maakon like "aw" in "awful" and the "af" in "Olaaf as "laugh." The two names fall on the ear as "Hawkin" and "O-laugh." The numerous Hawkines are descended from marauding crews of Northmen who flew on their bottomed boats not the raven, but the hawk flag.—London Truth.

Three Cancer, Blood Poison and Rheumatism.
If you have blood poison producing eruptions, pimples, ulcers, swollen glands, skin rashes, burning, itching skin, open-colored spots or rash on the skin, sores patches in mouth or throat, falling hair, bone pains, old rheumatism or food poisoning, take Botanic Blood Balm (B. B. B.) kills the poison in the blood; soon all eruptions heal, hard swellings subside, aches and pains stop and a perfect cure is made of the worst cases of Blood Poison.

For cancer, tumors, swellings, eating sores, ugly ulcers, persistent pimples of all kinds, take B. B. B. It destroys the cancer cells in the blood, heals cancer of all kinds, cures the worst humors or appearing swellings. Thousands cured by B. B. B. after all else fails. B. B. B. composed of pure botanic ingredients. Improves digestion, makes the blood pure and stops the awful itching and all sharp, cutting pains. Thoroughly tested for thirty years. Druggists, \$1 per large bottle, with complete directions for home use. Sample free and prepaid by writing to Balm Co., Atlanta, Ga. Describe ailment and free medical advice also sent sealed letter.

SORES FROM HEAD TO FOOT.
Covered With Crusted Scaly Eczema When One Month Old—Cured by Cuticura at Expense of \$4.50.

"When I was one month old I was born with eczema. After being under the treatment of two doctors for one month, and no improvement, my mother was advised by a druggist to try Cuticura Soap and Ointment. I was one month of sores from head to foot. My mother could brush the scales off my body, and my finger and toe nails fell. After using Cuticura Soap and Ointment I was completely cured. I am now seventeen years old, and my skin has not a scar. I am still finding wonders in Cuticura; after washing a fever blister two days it was completely gone. Your Cuticura and Cuticura Ointment, Marksville, La., Oct. 27, 1905."

COMMERCIAL.
R. G. Dim & Company's weekly review of trade says:
Wholesale conditions are maintained in commerce generally, the tenor of most reports being favorable and comparatively little anxiety is felt regarding the labor situation.

New projects are constantly appearing, calling for much capital and giving employment to many wage-earners.
Several scales have been signed that provide for higher wages after this month and the general prosperity of the Winter is believed to assure a very large retail trade in Spring wearing apparel.

Jobbing houses have been enabled to make shipments with unusual promptness, owing to the ample railway facilities and few freight blockades that resulted from an exceptionally mild Winter.
Manufacturing returns from the leading industries continue favorable, the week's feature being record-breaking sales of leather, while the steel mills and iron furnaces operate at full capacity, the demand for lumber exceeds the supply and glass factories are preparing to advance quotations.

Failures this week numbered 229 in the United States, compared with 250 last year, and 34 in Canada, compared with 26 a year ago.
Bradstreet's says that wheat, including flour, exports from the United States and Canada for the week are 2,019,237 bushels, against 2,563,983 last week, 89,572 this week last year, 2,606,124 in 1904 and 2,395,598 in 1903. Corn exports for the week are 2,335,282 bushels against 2,894,445 last week, 3,841,411 a year ago, 1,573,289 in 1904 and 3,072,608 in 1903.

GREAT SCOTT.
The Biggest Man of Addison County, Vt., Tells an Interesting Story.

E. C. Scott, meat dealer, Vergennes, Vt., Past Commander of Ethan Allen Post, G. A. R., says: "A severe attack of typhoid, left me with weak kidneys. Every night I had to get up frequently to pass the urine, which was ropy, dark and very painful to void. I had no appetite, but drank water continually without being able to quench my thirst. Terrible headaches and dizzy spells oppressed me and my back was lame, sore and stiff. A month's treatment with Doan's Kidney Pills rid me of this trouble, and now I am strong and healthy and weigh 290 pounds. I give the credit to Doan's Kidney Pills." SEXES DIFFER IN CURIOSITY.
Development Result of Struggle for Racial Existence.

As to a woman's curiosity, it may be said at the outset that she is not so curious, by an infinite measure, as is man himself. Women, it is true, are persistently and assiduously curious; but men also are not only persistently and assiduously but patiently and systematically curious. It is the character of female curiosity that makes it apparently contemptible. Scientific men of every kind have no reason d'être for their infinitely patient research save pure curiosity alone; and their curiosity has no more purpose in it than has the curiosity of the woman who cannot rest until she finds out all discoverable facts about her neighbors, or the cause of a mysterious sound by night.

These two forms of curiosity, the male and the female, originated no doubt in the early needs of the race long before man appeared on the earth. The male animal is interested in the causes of remote things—things which upon being run down might turn out useful for food purposes. The female is interested in the quick investigation of near and small things which may turn out a menace to the lives of her young. The female watches with intense and lively interest the vicinity of the nest or lair; the male is prompted to look abroad—away from the lair or in towards fields where his daily prey is found. These two kinds of curiosity were among the most potent instruments in the struggle for racial existence and in the ultimate development of man.—National Magazine.

Walled In.
"Yes, Mrs. Jillup," says the man who has been on a long tour, "I saw the place where your son lives."
"Tell me about it," says the fond old mother. "I have never been to visit him, but he always writes me that he is very successful in life."
"Well, he lives in a big place, surrounded by a high stone wall, with iron gates."
"What do you mean?" whispers the old mother.
"And the house where he lives is made of stone also. You cannot get inside at all without explaining the nature of your call to a man in uniform who stands at the door."
Here the old mother begins weeping silently.
"Why do you weep, Mrs. Jillup?"
"Alas, you cannot conceal the truth from me, gently as you try to break it. My son is in prison."
It requires some moments for the man to convince her that her son is really living in the style befitting a prince of commerce.

In Old New York.
It is the custom of the New York papers to sneer at the unsophisticated doings of the people in other parts of the country. Apparently, however, judging from the revelations made in the evidence of Col. Mann in the libel case now on trial, many of the most prominent and wealthy men of the metropolis were the easiest kinds of easy marks for parties who merely proposed to write them up favorably or unfavorably, according as they paid out their cash, generously or not. It is marvelous to read how easy it was to get large sums of money ostensibly as loans or in return for certificates of stock whose value bore no proper proportion to the money paid out. That the leaders of New York society should have been held up in this way argues ill for their common sense, and at the same time shows the total lack of real value to the utterances of the so-called society journal.—Pittsburg Post.

FOOD HELPS.
In Management of a R. B.
Speaking of food a railroad man says:
"My work puts me out in all kinds of weather, subject to irregular hours for meals and compelled to eat all kinds of food."
"For 7 years I was constantly troubled with indigestion, caused by eating heavy, fatty, starchy, greasy, poorly cooked food, such as are most accessible to men in my business. Generally each meal or lunch was followed by distressing pains and burning sensations in my stomach, which destroyed my sleep and almost untitted me for work. My brain was so muddled and foggy that it was hard for me to discharge my duties properly."
"This lasted till about a year ago, when my attention was called to Grape-Nuts food by a newspaper ad. and I concluded to try it. Since then I have used Grape-Nuts at nearly every meal and sometimes between meals. We railroad men have little chance to prepare our food in our cubicles and I find Grape-Nuts mighty handy for it is ready-cooked."
"To make a long story short, Grape-Nuts has made a new man of me. I have no more burning distress in my stomach, nor any other symptoms of indigestion. I can digest anything so long as I eat Grape-Nuts, and my brain works as clearly and accurately as an engineer's watch, and my old nervous troubles have disappeared entirely." Name given by Postum Co., Battle Creek, Mich.
There's a reason. Read the little book, "The Road to Wellville," in page.

Very Plain Congressman.
Senator Beveridge was talking one afternoon to a group of newly elected congressmen.
"You boys," he said, "keep on no account appear green. Keep cool, go slow, think before you speak; then you won't give yourselves away."
The unripe congressmen laughed, and Senator Beveridge continued:
"I should hate to hear that one of you had acted as a new congressman once did."
"He, as soon as he reached Washington, went off to a photographer's to be photographed."
"I want my likeness taken," he said.
"Cabinet?" the photographer asked.
"The sifter reddened and looked pleased."
"No," he answered, "just a plain, everyday congressman."

What the Farmer Said.
A Kansas lawyer tells of a visit he had from an old farmer.
The farmer wanted a big suit for damages brought against a railroad company because his old brindle cow had been run over during the night. On questioning him, the lawyer could not find a single peg upon which he could legitimately hang a case.
"Well," he said, "I kinder thought you could fetch it on the sign being down. They won't no sign, 'Look out for the cars,' so I thought maybe you could git 'em on that."—Chicago Inter-Ocean.

MIDDLE LIFE
A Time When Women Are Susceptible to Many Dread Diseases—Intelligent Women Prepare for it. Two Relate their Experiences.

The "change of life" is the most critical period of a woman's existence, and the anxiety felt by women as it draws near is not without reason.
Every woman who neglects the care of her health at this time invites disease and pain.
When her system is in a deranged condition, or she is predisposed to apoplexy, or congestion of any organ, the tendency is at this period likely to become active—and with a host of nervous irritations make life a burden. At this time, also, cancers and tumors are more liable to form and begin their destructive work.
Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness, are promptly heeded by intelligent women who are approaching the period in life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It invigorates and strengthens the female organism and builds up the weakened nervous system.
For special advice regarding this important period women are invited to write to Mrs. Pinkham at Lynn, Mass., and it will be furnished absolutely free of charge. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely given to sick women.
Read what Lydia E. Pinkham's Compound did for Mrs. Hyland and Mrs. Hinkle:
Dear Mrs. Pinkham—
"I had been suffering with displacement of the organs for years and was passing through the change of life. My abdomen was badly swollen; my stomach was sore; I had dizzy spells, sick headaches, and was very nervous."
Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

Mrs. A.E.G. Hyland
"I wrote you for advice and commended treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all those distressing symptoms left me and I have passed safely through the change of life, a well woman. I am recommending your medicine to all my friends."—Mrs. Annie E. G. Hyland, Chestertown, Md.

Another Woman's Case
"During change of life words cannot express what I suffered. My physician said I had a cancerous condition of the female organs. One day I read some of the testimonials of women who had been cured by Lydia E. Pinkham's Vegetable Compound, and I decided to try it and to write you for advice. Your medicine made me a well woman, and all my bad symptoms soon disappeared."
"I advise every woman at this period of life to take your medicine and write you for advice."—Mrs. Lizzie Hinkle, Salem, Ind.
What Lydia E. Pinkham's Vegetable Compound did for Mrs. Hyland and Mrs. Hinkle it will do for other women at this time of life.
It has conquered pain, restored health, and prolonged life in cases that utterly baffled physicians.
