Living Refutation.

Dr. Douglas Hyde, the leader of the Gaelic revival in Ireland, was talking about accents to a Philadelphia. Coming to the British accent, he said: "The leading characteristic of the British accent is, of course, the dropping of the 'h'. The dropping of the 'h' is very unfortunate. It causes innumerable embarrassments.

"A friend of mine is bald. He is a scientist. One night he lectured upon the atmosphere to some of Dr. Barnardo's boys in London.

"My bald friend, lecturing on, happened to say:

"It is impossible to live without air."

"But from the back of the hall came an interruption in a shrill treble voice:

"Ow about yourself, gov'nor?"

Out of the Long Ago.

Pocahontas had just performed the rescue act.

"And your name?" she asked.

"John Smith," he replied.

Crazed with grief over the thought that the man she had rescued was not named Reginald Worthington, she gave a low sob and crept from the scene.

Her Scheme.

Nell—May Sharpe won't marry that old Roxley.

Belle—Has she broken off the engagement?

Nell—No, but she's trying to make him mad so that he'll break it. In that way she'll have a chance of getting his money anyway by suing for breach of promise.

Doctor Brigham Says

MANY PHYSICIANS PRESCRIBE

Lydia E. Pinkham's Vegetable Compound

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womanhood is not because it is a stimulant, not because it is a palliative, but simply because it is the most wonderful tonic and reconstructer ever discovered to act directly upon the generative organs, positively curing disease and restoring health and vigor.

Miraculous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ill, as they know by experience it can be relied upon to effect a cure. The following letter proves it.

Dr. S. C. Brigham, of 4 Brigham Park, Fitchburg, Mass., writes:

"It gives me great pleasure to say that I have found Lydia E. Pinkham's Vegetable Compound very efficacious, and often prescribe it in my practice for female difficulties.

"My oldest daughter found it very beneficial for female troubles some time ago, and my youngest daughter is now taking it for a female weakness, and is surely gaining in health and strength.

"I freely advocate it as a most reliable specific in all diseases to which women are subject, and give it honest endorsement."

Women who are troubled with painful or irregular periods, bloating (or flatulency), weakness of organs, displacements, inflammation or obstructions, can be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound. If advice is needed, write to Mrs. Pinkham, at Lynn, Mass. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. No other living person has had the benefit of a wider experience in treating female ill. She has guided thousands to health. Every suffering woman should ask for and follow her advice if she wants to be strong and well.

The Rock of Refuge.

In Hawaii, one of the Sandwich Islands, there is a spot called the Rock of Refuge. If a criminal reaches this rock unscathed he is safe as long as he remains there. Usually his family supply him with food until he is able to make his escape, but he is never allowed to return to his own tribe.

NO REST NIGHT OR DAY.

With Irritating Skin Humors—Hair Begins to Fall Out—Wonderful Result From Cuticura Remedies.

"About the latter part of July my whole body began to itch. I did not take much notice of it at first, but it began to get worse all the time, and then I began to get uneasy and tried all kinds of baths and other remedies that were recommended for skin humors, but I became worse all the time. My hair began to fall out and my scalp itched all the time. Especially at night, just as soon as I would get in bed and get warm, my whole body would begin to itch, and my finger nails would keep it irritated, and it was not long before I could not rest night or day. A friend asked me to try the Cuticura Remedies, and I did, and the first application helped me wonderfully. For about four weeks I would take a hot bath every night and then apply the Cuticura Ointment to my whole body, and I kept getting better, and by the time I used four boxes of Cuticura I was entirely cured and my hair stopped falling out. D. E. Blankenship, 319 N. Del. St., Indianapolis, Ind. Oct. 27, 1905."

COMMERCIAL

R. G. Dan's "Weekly Review of Trade" says: Total distribution of Spring merchandise received a check because of the heavy snowfall and severe storms in many sections of the country, but some offset is noted in renewed inquiry for Winter goods, and there is no interruption to the activity of shipping departments. Confidence in the future is remarkably bright, and the outlook would be far better than ever before at this season if the fuel uncertainty were removed. Manufacturing plants operate close to maximum capacity in the leading industries, and it is an evidence of no little significance that many mills cannot undertake deliveries before 1907.

COMMERCIAL

R. G. Dan's "Weekly Review of Trade" says: Total distribution of Spring merchandise received a check because of the heavy snowfall and severe storms in many sections of the country, but some offset is noted in renewed inquiry for Winter goods, and there is no interruption to the activity of shipping departments. Confidence in the future is remarkably bright, and the outlook would be far better than ever before at this season if the fuel uncertainty were removed. Manufacturing plants operate close to maximum capacity in the leading industries, and it is an evidence of no little significance that many mills cannot undertake deliveries before 1907.

Bradley's says: Wheat, including flour, exports from the United States for the week are 2,293,012 bushels, against 2,010,237 last year, 1,044,595 this week last year, 1,801,845 in 1904, and 2,401,087 in 1903.

Corn exports for the week are 3,173,826 bushels, against 2,335,282 last week, 2,976,826 a year ago, 1,527,676 in 1904, and 3,618,210 in 1903.
