Vitality Sapped by Years of Suffering With Kidney Trouble.

Capt. J. W. Hogun, former postmaster of Indianole, now living at Austin, Texas, writes: "I was afflicted years

for with pains across the loins and in the hips and shoul-I had headache also and neuralgia. My right eye,

from pain, was of little use to me for years. The onstant flow of urine kept my system depleted, causing nervous chills and night sweats. After trying seven ifferent climates and using all kinds of medicine I had the good fortune to hear of Doan's Kidney Pills. This remedy has cured me. I am as well to-day as I was twenty years ago, and my eyesight is perfect."

"Didn't you feel sorry?"
"Yes, I did. There was a woman sitin front of me with a big hat, and

didn't see the egg strike him."-Yonkera Statesman.

OUTDOOR LIFE Will Not Offset the Ill Effects of

Coffee When One Cannot Digest It. A farmer says

'It was not from liquor or tobacco that for ten years or more I suffered from dyspepsia and stomach trouble; they were caused by the use of cof fee until I got so bad I had to give up coffee entirely and almost give up eating. There were times when I could eat only boiled milk and bread and when I went to the field to work I had to take some bread and butter along to give me strength.

"I doctored with doctors and took almost everything I could get for my stomach in the way of medicine, but if I got any better it only lasted a little while until I was almost a walking akeleton.

"One day I read an ad. for Postum and told my wife I would try it, and as to the following facts I will make affidavit before any judge:

"I quit coffee entirely and used Postum in its place. I have regained my health entirely and can eat anything that is cooked to eat. I have increased in weight until now I weigh more than I ever did; I have not taken any medicine for my stomach since I began using Postum. Why, I believe Postum will almost digest an iron wedge.

'My family would stick to coffee at first, but they saw the effects it had on me and when they were feeling bad they began to use Postum one at a time, until now we all use Postum." Name give by Postum Name give by Postum Co., Battle Creek, Mich.

Ten days' trial of Postum in place of coffee proves the truth, and easy and pleasant way. "There's a rea-

In Pennsylvania a judge may send boys to any one of the several reformatories or to an asylum. Since he has made a special study of juvenile crime Judge Barratt has committed several boys to the State Hospital for the Insane in Nerristown, where, under competent medical and surgical treatment, wonders have been worked with incorrigibles.

Dr. Ernest La Place trephined the kull of Spurgeon Welty, and a very wicked boy became a lovable and capable little chap. Dr. Desiderio Roman, who accompanied Lieutenant Peary in his hunt for the North Pole. did the same for Jacob Haddiman in St. Luke's Hospital, and the boy, who was a daring and persistent thief, shows marked and increasing signs of moral regeneration. Jacob Haddiman, it was discovered, had a fractured skull.

Who, then, shall now insist that all criminals are merely victous and that none is diseased or malformed? The proposition advanced by Edward val draws near, there toll up the Dunlap, burglar, really seems to be close to proof.

The Theory of the Burgiar. Hear Duniap, who, when willing his brain to science, wrote, with the hand of death on him:

"I am and have been all my life a criminal. Why?

"Was I born too late? Should have lived in the days of the great adventurers-Drake and Cortes and all other pillagers and conquerors and heroic thieves who could Iface their lineage back further than Jason who quested for the Golden Fleece? "Was I born too early-before the days of high finance and the unhero-

ic thieves of this decade? 'Or was it because of some subtle quirk in my brain, some cerebral formation, some little grouping of the brain cells, that I, who should have been an honest man, an artist a poet perhaps, became a burglar' May it not be that a spicule of bone presses on a convolution of my brain and, so doing, preverts my whole nature?

"I do not know, and I have thought hard and long on the causes. But them, this, although I do not know, is what I am inclined to think: "Real crime is a disease, or rather crime is the symptom of a subtle disease of brain and nerve, just as a rash is in some enses a symptom of fever. All those who are criminals-and in this list I place the ancient conquerors, the gentlemen adventurers, the burglar the counterfeiter, the swindler, the priest of high finance, all of the under world, and all, too, of the came the rejoinder.

KAISER'S FAMILY AT PLAY.

Unconventional Doings of Imperial Princes When in the Country.

The German Emperor and his famfly spend their summer vacation in the castle of Wilhelmshohe, near Cas-Se. As described by a writer in Harp-

Here is seen the domestic side of the royal picture which appeals so strongly to the German. The Empress is not alone the first lady of the landshe is the first mother in the land. The aristocracy may grumble that she neglects her social duties and cul-

tivates too closely the famous three R's recommended by the Emperor-Kirche, Kinder und Kuche (church, children and cooking)-but it is precisely because of this that the bulk of the German nation have enshrined her in their hearts.

As spring changes to summer and the date set for the Empress's arriwooded slopes of Wilhelmsnohe vans of gigantic size, depositing farniture, provisions and trunks at the Schloss. which opens wide its windows to the morning sunlight.

In the grounds an army of peasant women in blue cotton gowns and white handkerchiefs rake and hoe, prune and plant, till the flower beds grow fairly riotous with blossom.

Carriages and vehicles galore and all sorts and conditions of horses come one by one to the stables, and at the entrance to the wooded bridle path, which we regarded as our own special property, a polite notice was posted that it was "for the very most highest personages reserved."

Several years ago, when the Crown Prince was still a boy, we used to have glimpses of the mother playing tennis on the lawn with her two eldest sons and a lady in walting, or of the whole party sitting round the supper table on the terrace of a warm summer evening. Indeed, the Princes seemed to be omnipresent, and every one had a different tale to tell of

One morning as the arilllery was coming in from its daily Dienst, the Crown Prince, with his logs upart and his hands in his pockers, was standing at the entrance to the burracks, watching the long train of guns and

His tutor reproved the boy for his attitude, with the remark; "The Crown Prince never stands in that position!" "Oh, bother Crown Princes"

upper world who are tinged with the evil—all those who are criminals, I chip of the eld block, however, is evidenced by the story that in his play with his brother, the handsome Eitel germinates crimes and criminals Fritz, the latter in some way displeassprings from a bacillus. There are ed the elder, who attempted to pum-

On his return that evening the Emperor was told of the occurrence, and inal phenomena that parallelled the calling the heir to the throne before him, made him tell his version of the

An up-to-date dog is one that an swers the telephone. The senior partner of an influential London firm has taught his dog not only to guar the office during his absence, but also to report "Ail's well" during the time the premises are closed at week ends. One of the old-fashioned telephones, which does not require that the receiver should be taken off its holder, is fixed up in the office, and under this the dog stands. His master rings up the office and then call until the attention of the dog I aroused, when the canine enrotaker barks loudly to show that all is well with him and with the office.

WILD BOARS IN ENGLAND.

Once Abandant-Attempts Made to Reintraduce Them.

Among the exhibits at a mosting of the Zoological Society last evening was the almost perfect skull of a will boar which was recently due up dur ing building operations in James

street. Oxford street. 2535844 though long extinct in this country was formerly very abundant in th large forest lands which once sur rounded the site of London, and it remains are not infrequently unearthed in and around the metropolis. It is not certain when the last wild boar was killed in England, but it was probably in the reign of Charles II. or soon afterward, for in the book of accounts kept on the Chartley estate is the following entry, dated 1683: "Paid the cooper

for a palle for ye wild swine, 2-0. It is, of course, possible that the wild swine alluded to were merely Individuals preserved in Chartley Park, and that the boar had been exterminated as a really wild animal long before, but whether the swine were preserved at Chartley or not it is certain that another species of wild animal—the white cattlefound a sauctuary there, and it was not until quite recently that the herd that descended from the original stock preserved in the parl; was dis-

persed. Attempts have been made to reintroduce the wild boar into England, but they have had to be abandened, partly because the forests which they haunted in past ages are now cultivated lands and gardens, and partly because the havor these huge and destructive beasts commit among growing crops is not to be tolerated by our already oppressed agriculturists,-London Daily Graphic.

Too Big a Field. Years ago, while Reverend Shan-

daloupe was a student at the seminary, he undertook, one vacation seanon, to sell fire-extinguishers. His pleasing address and affability

enabled him to make many sales. However, he encountered the usual rebuffs which are the experience of all agents. access into the office of a surly bro-

on the deluging powers of his incomparable fire-extinguisher. "To the devil with it!" roared the broker, fiendishly. "Oh, my dear man," expostulated

Greatest Long Distance Runners.

The Tarahumares, a great tribe of the northern Sierra Madre, are the greatest runners on earth, not in regard to speed, but in endurance. The name Tarahumare is a corruption of ralamari, a foot runner, rala meaning a foot. They are employed by the Mexican Government authorities, and remarkable records exist of their marvellous staying powers as messengers. They have been known to average 170 miles per day; there is an absolute record that is Like the beaver, the wolf, the indisputable of a Tarahumare sent with an important Government doc-ument that necessitated an imme-diate answer covering the distance tion, allays pain, cures wind colic, 25 ca nottle diate answer covering the distance there and back, a six hundred mile jaunt, in five days, or an average of 120 miles covered in each twentyfour hours, not counting the time lost while the answer was being pre-

pared, and it must be remembered that this feat was not performed upon a fair road or on an undulating plain. It was over the wildest country that the Sierra Madre affords; up and down paths that the very deer would hardly esteem a trail; the only level ground encountered was the crossing of a deep river. Also, the journey was done on "pinole," a species of popcorn ground down and mixed with water, and the runner carried his camp equipment, a native woven white wool blanket .- Modern

Why Do Stars Seem Rayed?

Mexico.

An attempt to account for the familiar rayed or starlike appearance of the stars when seen by the naked eye is made by W. Holiz in an article on the "Appearance of Stars," which appeared in Gessil. Wiss. Gottingen, Nachr., Math.-Phys. Klasse. He finds that all stars show precisely the same rays, but that in the case of the brighter stars the rays are plainer and somewhat longer. It is further remarked that the rays seen by the left and right eyes differ, and that if the head be turned the rays are rotated in a corresponding manner. It is thus concluded that the source of the rays is not in the stars but in the eye itself, the middle retina being not perfectly homogoneous in its sensitiveness.

Ingenious Lock.

A Jamaica inventor has construced a remarkable combination lock that seems likely to defy the most expert lock picker. The combination The theological student had gained is arranged in four sets of letters, twenty-four letters in each, and each ker, and forthwith began expatiating letter represented by a figure. It can be set to a sentence in almost any modern language, one letter being taken from one set, one from another, and so on. The person who would open the lock must first know what letter each figure represents and then what language the sentence is in. The Scientific American considers that one trying to pick the lock would have to work over 96, 000,000 years at the rate of sixty numbers a minute before arriving at the correct combination.
