Surprise Social.

Saturday evening, August 18, 1906, will long be remembered by Mrs. Mary Brewer, near Covalt, and by many of her friends. About dark her friends began to arrive, to remind her that it was her 64th birthday, and to shower upon her just heaps of useful presents.

There were friends present from Waynesboro, McKeesport, Hancock, Warfordsburg, Needmore, Timber Ridge, Pigeon Cove, and nearly all between Covalt and Hancock, Md., thus proving to her that her friends are without number.

ONE WHO WAS THERE.

Letter to Hall & Bender, McConnellsburg, Pa.

Dear Sirs: How did you get your business? We'll tell you how we got ours. You sell shoes, we make paint; perhaps we can do a good turn to ourselves, you and us, by swapping experiences.

We began 152 years ago in a little shop a few minutes walk from where we are now; a great many things have happened, we don't remember them all.

You buy your shoes; you have an advantage in that; if you make a mistake, you can stop it quick; if you make a hit, you can push it quick.

We're very old, but we make young paint; one gallon is better than two, if it has the stuff in it.

Yours truly, E. W. Devoe & Co., New York.

Trees.

There is a tree in the West Indies that the natives say "grows in dishes!" It looks like an apple tree. They call it the "dish tree."

It bears very queer looking large white blossoms, that grow right from the trunk and larger branches. After the flowers come the fruit, just as our apples on pines do. But this fruit is in the shape of a gourd, only strong or and much larger, sometimes a foot in diameter.

Now, see what a use the people of that country make of this fruit. The shell is so hard that all sorts of big and little dishes and drinking cups can be carved out of it. Even pots and kettles are made and used over the fire, and of course, they cannot be as hot as our iron ones. Is not this a serviceable tree? No wonder the natives are proud of it.

THE LARGEST TREE.

The largest tree in the world is to be found at Manassah, near the foot of Mount Ararat, and is called "The Chestnut Tree of a Hundred Horses." It has a trunk from the reports that it is 100 feet in diameter, with a circumference of 300 feet. It is said to be 1000 years old. The trunk is so large that it is said to be 1000 years old.

A WEDDING TRIP.

A wedding trip of the Coates Islands is one of the wonders of the world. It is a small island, and is a very beautiful one. It is a very beautiful one.

FOOLISHNESS OF THEM.

It is not alone, since that man's cooler under a microscope. The condition of the eye is very bad, but the microscope is about 45 degrees Fahrenheit at all times, so that of the human body is a fraction more than 98 degrees. So a drop of cool water in a pitcher. That is why trees should be planted in the temperate districts. If the air can be made cooler and purer by the trees, fower children will die of heat ailments.

PRODIGIOUS BURNING.

Chas. W. Nisenz, a machinist, of Ford City, Pa., had his hand frightfully burned by a charcoal furnace. He spent his time in the hospital.

Our Men's Menace.

Why does it pay?

Paints that crack, peel and fade are dear at any price.

Lucas Paint (Tinted Glass)

is economical from every point of view. It does not crack, peel or fade, and therefore gives a bigger money's worth of all-around satisfaction than any other paint ever made.

HUSTON'S LATEST.

Our latest arrivals are our Fall and Winter Shoes for men and women, as well as children.

It may seem a little early for fall shoes to be offered, but by having early we were placed in a position to select just what our customers will want this season and we want you to be pleased, and we feel that you will be if you want all that is new, desirable and good in shoes.

Ladies' Shoes

Ladies' best shoes to leave the winter mud and snow, range in price from \$1.25 to \$1.50—several of the same kind we had last season at last season's prices.

Children's Shoes

We have given special attention to this line; for the child requires a good sanitary shoe, and we have it in both dress and school shoes which are built for wear—all kinds, sizes and prices.

Men's Shoes

Men's work shoes will be in great demand until the season for fall and winter goods arrives.

Our \$1.25 Ladies' Shoes, when sold at sight, being an all leather shoe, no paper linings or insoles, \$1.50 up to \$2.25 buys a larger shoe for 50c.

Men's dress shoes have sold unusually well this season. This is because we keep the latest styles in large and pleasing variety at reasonable prices.
